Outsmart Crime 200 Creative Strategies For Baffling The Criminal Mind:

Outsmart Crime Doug Shadel, Al Ward, Ken Eikenberry, 1995 *Whitaker's Books in Print*, 1998 **Inside the criminal mind** Stanton E. Samenow, 2004 Annotation In 1984 this groundbreaking book presented a chilling profile of the criminal mind that shattered long held myths about the sources of and cures for crime Now with the benefit of twenty years worth of additional knowledge and insight Stanton Samenow offers a completely updated edition of his classic work including fresh perceptions into crimes in the spotlight today from stalking and domestic violence to white collar crime and political terrorism Dr Samenow s three decades of working with criminals have reaffirmed his argument that factors such as poverty divorce and media violence do not cause criminality Rather as Samenow documents here all criminals share a particular mind set often evident in childhood that is disturbingly different from that of a responsible citizen While new types of crime have grown more prevalent or at least more visible to the public eye from spousal abuse to school shootings little has changed in terms of our approach to dealing with crime Rehabilitation programs based on the assumption that society is more to blame for crime than the criminal an assumption for which a causal link has yet to be established have proved to be grossly inadequate Crime continues to invade every aspect of our lives criminal court dockets and prisons are oppressively overcrowded and expensive and recidivism rates continue to escalate To embark on a truly corrective program we must begin with the clear understanding that the criminal chooses crime he chooses to reject society long before society rejects him The criminal values people only to the extent that he can use them for his own self serving ends he does not justify his actions to himself Only by habilitating the criminal so that he sees himself realistically and develops responsible patterns of thought can we change his behavior It is vital that we know who the criminal is and how and why he acts differently from responsible citizens From that understanding can come reasonable compassionate and effective solutions
