Orvis and Carol Ann Drogus integrates a set of extended case studies of 11 core countries into the narrative. Serving as touchstones, the cases are set in chapters where they make the most sense topically, not separated from theory or in a separate volume, and vividly illustrate issues in cross-national context. The book's organization allows instructors flexibility and gives students a more accurate sense of comparative study. In this edition, a brand new chapter on Contentious Politics covers ethnic fragmentation, social movements, civil war, revolutions, and political violence. New case studies on this topic include the Occupy and Tea Party movements in the US, Zapatista rebellion in Mexico, Boko Haram in Nigeria, and revolutions in China and Iran. The chapter on States and Identity has been substantially revised to better introduce students to the concept of identity and how countries handle identity-based demands. Case studies include nationalism in Germany, ethnicity in Nigeria, religion in India, race in the US, gender in Iran, and sexual orientation in Brazil. Content on states and markets, political economy, globalization, and development has all been consolidated into a new Part III of the book, focusing in a sustained way on economic issues.

Routledge Handbook of South Asian Politics Paul R. Brass, 2010-04-30. The Routledge Handbook of South Asian Politics examines key issues in politics of the five independent states of the South Asian region: India, Pakistan, Bangladesh, Sri Lanka, and Nepal. Written by experts in their respective areas, this Handbook introduces the reader to the politics of South Asia by presenting the prevailing agreements and disagreements in the literature. In the first two sections, the Handbook provides a comprehensive introduction to the modern political history of the states of the region and an overview of the independence movements in the former colonial states. The other sections focus on the political changes that have occurred in the postcolonial states since independence, as well as the successive political changes in Nepal during the same period, and the structure and functioning of the main governmental and non-governmental institutions, including the structure of the state itself, unitary or federal, political parties, the judiciary, and the military. Further, the contributors explore several aspects of the political process and political and economic change, especially issues of pluralism and national integration, political economy, corruption, and criminalization of politics, radical and violent political movements, and the international politics of the region as a whole. This unique reference work provides a comprehensive survey of the state of the field and is an invaluable resource for students and academics interested in South Asian Studies.

South Asian Politics: Comparative Politics and International Relations *Dynamics of Islam in the Modern World* Saeed Zarrabi-Zadeh, Armina Omerika, Thomas K. Gugler, Michael E. Asbury, 2022-07-11. *Dynamics of Islam in the Modern World* scrutinizes and analyzes Islam in context. It posits Muslims not as independent and autonomous but as relational and interactive agents of change and continuity who interplay with Islamic and other sources of self and society, as well as with resources from other traditions. Representing multiple disciplinary approaches, the contributors to this volume discuss a broad range of issues such as secularization, colonialism, globalization, radicalism, human rights, migration, hermeneutics, mysticism, religious normativity, and pluralism, while paying special attention to three geographical settings of South Asia: the

sharing to counter the prevailing hegemonic trends and to foster greater sociocultural cohesion within Pakistan's diverse polity. This model entails dividing Pakistan's federal provinces into smaller diverse entities more reflective of their particular constituent demographics while integrating key democratic principles such as distributive justice, grassroots democracy, minority protections, and multiculturalism into its governance structures. The book explores Pakistan's civil-military asymmetry, emphasizing the influential role of the military establishment and its intertwined relationship with preexisting inter-ethnic tensions. The analysis also extends to the China-Pakistan Economic Corridor (CPEC), examining its impact on Pakistan's federal structure, socio-economic fabric, and civil-military dynamics within the context of China's distinctive economy. Throughout the work, it seeks to provide locally relevant and indigenously viable solutions for positive and equitable outcomes, challenging historical power imbalances that have marginalized certain groups in Pakistan.
