The first transnational history of cinema's role in decolonization Using popular cinema from the United States Britain and France Empire Films and the Crisis of Colonialism 1946 1959 examines postwar Western attitudes toward colonialism and race relations Historians have written much about the high politics of decolonization but little about what ordinary citizens thought about losing their empires Popular cinema provided the main source of images of the colonies and according to Jon Cowans in this far reaching book films depicting the excesses of empire helped Westerners come to terms with decolonization and even promoted the dismantling of colonialism around the globe Examining more than one hundred British French and American films from the post World War II era Cowans concentrates on movies that depict interactions between white colonizers and nonwhite colonial subjects including sexual and romantic relations Although certain conservative films eagerly supported colonialism Cowans argues that the more numerous liberal colonialist productions undermined support for key aspects of colonial rule while a few more provocative films openly favored anticolonial movements and urged internal decolonization for people of color in Britain France and the United States Combining new archival research on the films production with sharp analysis of their imagery and political messages the book also assesses their reception through box office figures and newspaper reviews It examines both high profile and lesser known films on overseas colonialism including The King and I Bhowani Junction and Island in the Sun and tackles treatments of miscegenation and internal colonialism that appeared in Westerns and American films like Pinky and Giant The first truly transnational history of cinema's role in decolonization this powerful book weaves a unified historical narrative out of the experiences of three colonial powers in diverse geographic settings

Hollywood's Artists Virginia Wright Wexman, 2020-07-21 Today the director is considered the leading artistic force behind a film. The production of a Hollywood movie requires the labor of many people from screenwriters and editors to cinematographers and boom operators but the director as author of the film overshadows them all. How did this concept of the director become so deeply ingrained in our understanding of cinema? In *Hollywood's Artists* Virginia Wright Wexman offers a groundbreaking history of how movie directors became cinematic auteurs that reveals and pinpoints the influence of the Directors Guild of America (DGA). Guided by Frank Capra's mantra one man one film the Guild has portrayed its director members as the creators responsible for turning Hollywood entertainment into cinematic art. Wexman details how the DGA differentiated itself from other industry unions focusing on issues of status and creative control as opposed to bread and butter concerns like wages and working conditions. She also traces the Guild's struggle for creative and legal power exploring subjects from the language of on-screen credits to the House Un-American Activities Committee's investigations of the movie industry. Wexman emphasizes the gendered nature of images of the great director demonstrating how the DGA promoted the idea of the director as a masculine hero. Drawing on a broad array of archival sources interviews and theoretical and sociological insight *Hollywood's Artists* sheds new light on the ways in which the Directors Guild of America has shaped the role and image of directors both within the Hollywood system and in the culture at large.

Ferocious Ambition Robert Dance, 2023-10-12 Robert Dance's new evaluation of Joan Crawford looks at her entire career and while not ignoring her early years and tempestuous personal life focuses squarely on her achievements as an actress and as a woman who mastered the studio system with a rare combination of grit determination beauty and talent Crawford's remarkable forty five year motion picture career is one of the industry's longest Signing her first contract in 1925 she was crowned an MGM star four years later and by the mid 1930s was the most popular actress in America In the early 1940s Crawford's risky decision to move to Warner Bros was rewarded with an Oscar for *Mildred Pierce* This triumph launched a series of film noir classics In her fourth decade she teamed with rival Bette Davis in *Whatever Happened to Baby Jane* proving that Crawford whose career had begun by defining big screen glamour had matured into a superb dramatic actress Her last film was released in 1970 and two years later she made a final television appearance forty seven years after walking through the MGM gate for the first time Crawford made a successful transition into business during her later years

notably in her long association with Pepsi Cola as a board member and the brand's leading ambassador Overlooked in previous biographies has been Crawford's fierce resolve in creating and then maintaining her star persona She let neither her age nor the passing of time block her unrivaled ambition and she continually reimagined herself noting once that for the right part she would play Wally Beery's grandmother But she was always the consummate star and at the time of her death in 1977 she was a motion picture legend and a twentieth century icon
