Politics And Public Policy In Kenya And Tanzania:

Politics and Public Policy in Kenya and Tanzania Joel D. Barkan, 1984 **Politics, Public Policy and Social Protection in Africa** Nicholas Awortwi, Emmanuel Aiyede, 2017-05-08 Africa is now in a much improved position to support its poor and vulnerable people. It has more money, more policy commitment and abundant intervention programmes. Yet the number of citizens living lives of desperation or at risk of destitution is at an all time high and still rising. What is turning such positive prospects into such a disappointing result? Politics, Public Policy and Social Protection in Africa reveals key answers drawing on empirical studies of cash transfer programmes in Botswana, Ghana, Kenya, Nigeria and Uganda. Social cash transfer might be the most effective safety net formula to emerge so far. The country chapters in this book explore why it works and how it might be harnessed for poverty alleviation. The studies uncover the very different motives of donors, politicians and the poor themselves for making it their preferred choice, why governments are not expanding the donor driven pilot programmes as expected and why ruling elites are not trying to help or hinder a concept which on the face of it could derail one of their most lucrative gravy trains. This book will be of value and interest to researchers and students of African politics, African social policy and sociology as well as policy maker and donors. *Beyond Capitalism versus Socialism in Kenya and Tanzania* Joel D. Barkan, 1994 **Beyond Capitalism Vs. Socialism in Kenya and Tanzania** Joel D. Barkan, 1994 Explores how Tanzania and Kenya often regarded as paradigms of capitalist and socialist development in Africa have responded to the challenges they face such as population growth, mounting external debt and structural adjustment by modifying their original approach to development. *State Politics and Public Policy in Eastern Africa* Gedion Onyango, 2023-03-22 This book analyses major themes in twenty first century east African politics. Predominantly authored by researchers and academics from the region, it examines recent political developments, public policy and governance across east and southern African countries. The book advocates for a regionally focused comparative approach across Africa, arguing that it provides a greater level of analysis than a complete continental study. Adopting a multidisciplinary approach, it covers numerous topics relating to politics, public policy, state and nation building in Africa. Filling an important void in current literature, the book will appeal to academics, practitioners, politicians and students of politics, public policy and governance. Chapter 16 and 20 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com [African Political Parties](#) M. A. Mohamed Salih, 2003-02-20 This book interrogates the political health of African political parties and evaluates the theory and practice of party functions, ideology and structure. Through fresh analysis using a variety of case studies, the authors question the democratic credentials of African political parties and propose new methods for achieving inclusive, broad based representation. Themes include the evolution and institutionalisation of African political parties, the unique historical, political and social circumstances that shaped their structures and functions. In the governance trajectory, the authors question the relationship between African political parties and government, political parties and representation.

Political Development and the New Realism in Sub-Saharan Africa David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub-Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression
