

Protect The PRESIDENT

Protect The President

Kimberly Brubaker Bradley

Protect The President:

Protecting the President Dan Bongino, 2021-01-12 Being a Secret Service agent is one of the most treacherous jobs in the world and never more so than in today's highly polarized America. Facing threats from fence jumpers and manifesto writers and from fanatical terrorists and sophisticated spies, protecting the president is harder than ever. In an age of hyper-partisan politics, emotions are high and crazies are a dime a dozen. On top of that, with international tensions reaching a boiling point, it's harder than ever to determine friend from foe. Yet the President of the United States is in very real danger if the Secret Service doesn't change course soon and evolve with the rapidly changing threat environment. Highly motivated bad guys are already working on technologically advanced methodologies and are constantly striving to formulate the logistics of an attack on the White House. Eventually, terrorist planners will find a way to acquire the technology, weapons, explosives, and know how to make an attempt on the life of the President. The only question is: What are we going to do about it? *Protecting the President* provides not only a rare insider glimpse of what the Secret Service does but explores the challenges facing the agents today. Chock full of relevant stories of protecting past presidents, veteran agent Dan Bongino explains how the agency can best protect the president today. This book covers how the Secret Service should plan for a tactical assault by a terrorist attack team, prepare to respond to a severe medical emergency, train to handle a chemical or biological weapon attack, prepare for an attack using explosives, plan for 9/11 style attacks from the air, and fire threats and much more. **Protecting the**

President Dan Bongino, 2020 *Protecting the President* provides not only a rare insider glimpse of what the Secret Service does but explores the challenges facing the agents today. Chock full of relevant stories of protecting past presidents, veteran agent Dan Bongino explains how the agency can best protect the president today. Presidential Travel Richard J.

Ellis, 2008-04-22 In office less than half a year, President George Washington undertook an arduous month-long tour of New England to promote his new government and to dispel fears of monarchy. More than two hundred years later, American presidents still regularly traverse the country to advance their political goals and demonstrate their connection to the people. In this first book-length study of the history of presidential travel, Richard Ellis explores how travel has reflected and shaped the changing relationship between American presidents and the American people. Tracing the evolution of the president from First Citizen to First Celebrity, he spins a lively narrative that details what happens when our leaders hit the road to meet the people. Presidents, Ellis shows, have long placed travel at the service of politics. Rutherford B. Hayes visited thirty states and six territories and was the first president to reach the Pacific, while William Howard Taft logged an average of 30,000 rail miles a year. Unearthing previously untold stories of our peripatetic presidents, Ellis also reveals when the public started paying for presidential travel, why nineteenth-century presidents never left the country, and why earlier presidents such as Andrew Jackson once punched in the nose on a riverboat journeyed without protection. Ellis marks the fine line between accessibility and safety from John Quincy Adams' skinny dipping in the Potomac to George W. clearing brush in

Crawford Particularly important Ellis notes is the advent of air travel While presidents now travel more widely they have paradoxically become more remote from the people as Air Force One flies over towns through which presidential trains once rumbled to rousing cheers Designed to close the gap between president and people travel now dramatizes the distance that separates the president from the people and reinforces the image of a regal presidency As entertaining as it is informative Ellis s book is a sprightly account that takes readers along on presidential jaunts through the years as our leaders press flesh and kiss babies ride carriages and trains plot strategies on board ships and planes and try to connect with the citizens they represent **The President's Daughter** Kimberly Brubaker Bradley,2006 A fictionalized account of 10 year old Ethel Roosevelt s early experiences in the White House after her father Theodore Roosevelt becomes president in 1901

Protecting the President Dennis V. N. McCarthy,Philip Wayne Smith,1986-12-01 Encompasses descriptions of the rigorous training designed to eradicate an agent s instinct for self preservation the intolerable stress of the job the grueling hours and more *Attorney General's Report on Federal Law Enforcement and Criminal Justice Assistance Activities* United States. Department of Justice, Guncrazy America Frank N. Egerton,2018-10-06 The conclusion of this professor historian emeritus is that our gun culture had its uses in establishing American civilization as slavery did But we came to recognize after a bloody civil war that slavery was a gigantic mistake and now I think it s time to realize that our gun culture was a similarly gigantic mistake though of a different kind And we need to do what we can to minimize its horrible impacts and move on to a more positive development of a humane civilization *Attorney General's Annual Report* United States. Department of Justice,1972 **Plotting to Kill the President** Mel Ayton,2017-02-01 A history of plotters would be assassins and individuals who have threatened the lives of American presidents from Washington to Hoover and the story of the guards agents and officers who protected them *Within Arm's Length: A Secret Service Agent's Definitive Inside Account of Protecting the President* Dan Emmett,2014-06-10 Dan Emmett was just eight years old when President John F Kennedy was assassinated The events surrounding the President s death shaped the course of young Emmett s life as he set a goal of becoming a US Secret Service agent one of a special group of people willing to trade their lives for that of the President if necessary Within Arm s Length is the essential book on the Secret Service a revealing and compelling inside look at the Presidential Protective Division PPD with stories from some of the author s more high profile assignments in his twenty one years of service where he provided arm s length protection worldwide for Presidents George Herbert Walker Bush William Jefferson Clinton and George W Bush both as a member of the PPD and the Counter Assault Team Dan Emmett describes the professional challenges faced by Secret Service agents as well as the physical and emotional toll that can be inflicted on both agents and their families Within Arm s Length also shares firsthand details about the duties and challenges of conducting presidential advances dealing with the media driving the President in a bullet proof limousine running alongside him through the streets of Washington and flying with him on Air Force One With fascinating anecdotes Emmett

weaves keen insight into the unique culture and history of the Secret Service and the inner workings of the White House

Report of the President's Commission on the Assassination of President John F. Kennedy United States. Warren Commission, 1964 And conclusions The assassination The shots from the Texas School Book Depository The assassin Detention and death of Oswald Investigation of possible conspiracy Lee Harvey Oswald background and possible motives The protection of the president

The Interaction Order Norman K. Denzin, 2019-02-12 This volume brings together leading scholars in the area of symbolic interactionism to offer a broad discussion of issues including identity dialogue and legitimacy

Defender in Chief John Yoo, 2020-07-28 In *Defender in Chief* celebrated constitutional scholar John Yoo makes a provocative case against Donald Trump's alleged disruption of constitutional rules and norms Donald Trump isn't shredding the Constitution he's its greatest defender Ask any liberal and many moderate conservatives and they'll tell you that Donald Trump is a threat to the rule of law and the U.S. Constitution Mainstream media outlets have reported fresh examples of alleged executive overreach or authoritarian White House decisions nearly every day of his presidency In the 2020 primaries the candidates have rushed to accuse Trump of destroying our democracy and jeopardizing our nation's very existence Yoo argues that this charge has things exactly backwards Far from considering Trump an inherent threat to our nation's founding principles Yoo convincingly argues that Washington Jefferson Madison and Hamilton would have seen Trump as returning to their vision of presidential power even at his most controversial It is instead liberal opponents who would overthrow existing constitutional understanding in order to unseat Trump but in getting their man would inflict permanent damage on the office of the presidency the most important office in our constitutional system and the world This provocative and engaging work is a compelling defense of an embattled president's ideas and actions

George W. Bush Carole Marsh, 2001-01-01

Treason Newt Gingrich, Pete Earley, 2016-10-11 Major Brooke Grant must track down the double agent who is infiltrating the U.S. government in this international thriller from influential politician Newt Gingrich and Pulitzer Prize finalist Pete Earley Brooke Grant has been waging war against terrorism since her parents were murdered during 9/11 keenly aware that violence transcends borders But after a coordinated attack on the president at a Washington power broker's funeral she realizes that the enemy is closer than she'd ever imagined hiding in plain sight The Falcon has gained a weapon no terrorist has ever wielded before an American born traitor burrowed inside the U.S. government itself Major Grant's deadly chess match with the Falcon turns personal when he issues a fatwa against her and those she loves Can she unmask the traitor and stop the Falcon's most skilled assassin sent to kill her before he strikes Or will she fall victim to betrayal by a false friend in this gripping story of treachery courage and the patriotic fight against evil In this realistic tale of modern day treason a nation fights for its life against an internal threat a fanatical jihadist who uses liberty as a shield while trying to destroy the civilization created in its image With decades of knowledge in national security and politics only Newt Gingrich and Pete Earley could spin such a vivid mix of reality and fiction a page turner that dares readers to guess where the line between the

two is crossed Firewall Lawrence E. Walsh,1997 The independent counsel in the seven year Iran Contra investigation reveals the extent of the Reagan administration s deceit and the effects of the cover up **Secrets of the Secret Service** Gary J. Byrne,Grant M. Schmidt,2018-01-02 From the author of the 1 New York Times bestseller CRISIS OF CHARACTER comes an explosive new expos of the Secret Service The United States Secret Service is tasked with protecting our Presidents their families and the complex in which they live and work Given this important mission world stability rests upon the shoulders of its agents In his new book former Secret Service officer Gary Byrne takes readers behind the scenes to understand the agency s history and today s security failings that he believes put Americans at risk The American public knows the stories of Secret Service heroism but they don t know about the hidden legacy of problems that have plagued the agency ever since its creation Gary Byrne says that decades of catastrophic public failures near misses and bureaucratic and cultural rot threaten to erode this critical organization from the inside out Today as it works to protect President Trump the Secret Service stands at a crossroads and the time needed to choose the right course is running out Agents and officers are leaving the Secret Service in droves or they re being overworked to the point where they lose focus on the job Management makes decisions based on politics not the welfare of their employees Byrne believes that this means danger for the men and women of the Secret Service danger for the President they protect and danger for the nation In this book he shares what he has witnessed and learned about the Secret Service with the hope that the problems of this most important agency can be fixed before it s too late **The Intern and the Assassin** Father Ricardo,2015-12-02 This is a love story about two individuals whose history dates back thousands of years In this lifetime their paths bring them together to avert a nuclear incident in N Y C As they proceed through this drama they spend considerable time with a group of immortals living in Tibet Each of our lovers agree to participate in a dangerous ritual which brings them to the brink of death itself as they attempt to discover their true spiritual identities Some readers will no doubt enjoy the love story while others will prefer their spiritual journey *Reframing Police Education and Freedom in America* Martin Alan Greenberg,Beth Allen Easterling,2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At

the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police History and Digest of the International Arbitrations to which the ...
