Sculpture In The Kingdom Of Quito:

Sculpture in the Kingdom of Quito Gabrielle G. Palmer, 1987 In this book the author has limited herself to a narrow topic carved wooden statuary based on the human figure to allow herself a carefully defined focus for her twofold purpose to present the stylistic currents in sculpture in Quito from the Spanish conquest in 1534 to Ecuador's declaration of full independence in 1830 and to offer a new view of the terms Renaissance and Baroque as they relate to Spanish colonial art Gabrielle Palmer identifies the principle Spanish statues imported to Quito in the sixteenth and seventeenth centuries and then traces the rise of an indigenous style in the eighteenth and nineteenth centuries She maintains that Quitoan sculpture cannot be viewed solely as a derivation from European prototypes Its style and originality should be recognized as an authentic expression of creativity that both anticipated and provided the psychological foundation for the revolutionary attitude that brought Latin America dependence on Spain to an end in the nineteenth century Thus Baroque art in Quito is seen in a new and broader context Book jacket

Sculpture and Its Reproductions Anthony Hughes, Erich Ranfft, 1997 This book is the first of its kind to focus on issues concerning sculpture and reproduction and to explore the theoretical and practical consequences

Finding Caspicara Susan Verdi Webster, 2024 Caspicara was the most renowned sculptor of the eighteenth century Andean world Yet many works that are attributed to this Indigenous artist cannot be firmly documented as he is nearly absent in traditional archival records Susan Webster seeks to analyze not only the visual imagery and material culture of his many works but she also seeks to lay the foundation for understanding how scholars can revive the life and records of artists and other historical figures many of whom were Indigenous in this period with different methodologies By cultivating artistic theory popular religious devotion and specific styles of sculpture Webster's examination of the labor and workshop practices of this period contextualize the extensive commercial networks that existed within Quito and emanated beyond it Webster explores the reason why authors constructed an almost completely fictional life story and canon for this artist that continued for two centuries how this story fueled the agendas and goals of these authors in melding the colonial past with a newly independent country that could measure itself against western European culture and as a potent story for tourists She then considers the ways in which Caspicara's work was at the center of debates of sculpture versus painting in Quito These debates and their development in the city also add context to notions of authorship and how it was documented or not By exploring the professional world where he worked Webster's analysis of Indigenous sculptors and their family networks of labor and apprenticeship in the arts allow us to understand the changing workforce and materials for sculptures This analysis also reveals what day to day life may have been for Caspicara and how this routine informed the artistic choices available to him Archival materials indirectly offer glimpses into how patrons regarded Caspicara and his work and how the work of others later embellished or altered his original vision Throughout the chapters visibility materials and reception challenge the typical obsession of art historians museum curators and auction houses in their hunger to attribute authorship

in ways that increase the value both for prestige and monetary reasons and in ways that end up obscuring authorship and intent

Make the most of your time with *The Rough Guide to Ecuador the Galapagos Islands*. *The Spiritual Rococo* (Gauvin Alexander Bailey, 2017-07-05) A groundbreaking approach to Rococo religious art and spirituality in Europe and South America. *The Spiritual Rococo* addresses three basic conundrums that impede our understanding of eighteenth-century aesthetics and culture: Why did the Rococo, ostensibly the least spiritual style in the pre-Modern canon, transform into one of the world's most important modes for adorning sacred spaces? And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common? This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day, a body of work the author calls the Spiritual Rococo, which has never been applied directly to the arts. The book traces Rococo's development from France through Central Europe, Portugal, Brazil, and South America by following a chain of interlocking case studies, whether artistic, literary, or ideological, and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions, placing particular emphasis on unpublished primary sources such as inventories. One of the ultimate goals of this study is to move beyond the cliché of Rococo's frivolity and acknowledge its essential modernity. Thoroughly interdisciplinary, *The Spiritual*

Sanctuaries of Earth, Stone, and Light Gloria Fraser Giffords,2022-08-23 Over nearly three centuries Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial architecture of Northern New Spain an area

that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain's indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning photographs and over 300 illustrations ranging from ceremonial garments to detailed floor plans of the churches

The Colonial Andes Elena Phipps, Johanna Hecht, Cristina Esteras Martín, Metropolitan Museum of Art (New York, N.Y.), 2004 The arrival of the Spanish in South America in 1532 permanently transformed the Andean cultural landscape Within a generation societies that had developed over thousands of years including the great Inca Empire had been irrevocably altered The arts from the Spanish colonial period those that drew on native traditions such as textiles silver woodwork and stonework as well as painting sculpture and other genres introduced by the Spanish preserve an unspoken dialogue that developed between Andean and European modes of expression This beautiful book presents silver objects textiles and other masterpieces of colonial Andean culture Essays discuss the artistry of this culture and explain how it has been recently reevaluated and celebrated for its vibrant energy reflecting the convergence of two essentially distinct cultural traditions This book accompanies an exhibition at The Metropolitan Museum of Art September 29 to December 12 2004 Elena Phipps is conservator Textile Conservation and Johanna Hecht is associate curator European Sculpture and Decorative Arts at The Metropolitan Museum of Art

Magistrates of the Sacred William B. Taylor, 1996 This book is an extraordinarily rich account of the social political cultural and religious relationships between parish priests and their parishioners in colonial Mexico It thus explores a wide range of issues from competing interpretations of religious dogma and beliefs to questions of practical ethics and daily behavior to the texture of social and authority relations in rural communities to how all these things changed over time and over place and in relation to reforms instigated by the state

The Rise of the Image Thomas Frangenberg, 2017-07-05 The Rise of the Image reveals how illustrations have come to play a primary part in books on art and architecture Italian Renaissance art is the main focus for this anthology of essays which analyse key episodes in the history of illustration from the sixteenth to the twentieth century The authors raise new issues about the imagery in books on the visual arts by Leonardo da Vinci Giorgio Vasari Sebastiano Serlio Andrea Palladio Girolamo Teti and Andrea Pozzo The concluding essays evaluate the roles of reproductive media including photography in Victorian and twentieth century art books Throughout images in books are considered as vehicles for ideas rather than as transparent passive visual forms dependent on their accompanying texts Thus The Rise of the Image enriches our understanding of the role of prints in books on art
