Gandh ran art is often regarded as the epitome of cultural exchange in antiquity The ancient region of Gandh ra centred on what is now the northern tip of Pakistan has been called the crossroads of Asia The Buddhist art produced in and around this area in the first few centuries AD exhibits extraordinary connections with other traditions across Asia and as far as the Mediterranean Since the nineteenth century the Graeco Roman associations of Gandh ran art have attracted particular attention Classically educated soldiers and administrators of that era were astonished by the uncanny resemblance of many works of Gandh ran sculpture to Greek and Roman art made thousands of miles to the west More than a century later we can recognize that the Gandh ran artists appropriation of classical iconography and styles was diverse and extensive but the explanation of this influence remains puzzling and elusive The Gandh ra Connections project at the University of Oxford s Classical Art Research Centre was initiated principally to cast new light on this old problem This volume is the third set of proceedings of the project s annual workshop and the first to address directly the question of cross cultural influence on and by Gandh ran art The contributors wrestle with old controversies particularly the notion that Gandh ran art is a legacy of Hellenistic Greek rule in Central Asia and the growing consensus around the important role of the Roman Empire in shaping it But they also seek to present a more complex and expansive view of the networks in which Gandh ra was embedded Adopting a global perspective on the subject they examine aspects of Gandh ra s connections both within and beyond South Asia and Central Asia including the profound influence which Gandh ran art itself had on the development of Buddhist art in China and India Notes on the Bauddha Rock-temples of Ajanta, Their Paintings and Sculptures, on the Paintings of the Bagh Caves, Modern Bauddha Mythology, Etc Burgess,1879 **Early Buddhist Narrative Art** Patricia E. Karetzky,2000-04-26 Early Buddhist Narrative Art is a pictorial journey through the transmission of the narrative cycle based on the life of the historical Buddha Karetzky while demonstrating the various evolutions that the image of the Buddha underwent maintains that there is an underlying homogeneity of the tradition in the cultures of India Central Asia China and Japan The author while focusing on the visual representation of the Buddhist narrative goes into some detail regarding the importance of scriptures in each society and how the written tradition informed the pictorial Over seventy photos fill this

book which will be of interest to scholars of art history Eastern religion and Buddhism in particular *Krishna-cult in Indian Art* Sunil Kumar Bhattacharya,1996 The place of Krishna in Indian Art has remained obscured for many years until a parallelism was made by J Kennedy in the years 1913 17 in the Journal of the Royal Asiatic Society in which the similarity of Krishna and Christ was suggested However this book explodes that theory and expounds the myth of the legendary Krishna and establishes the origin and development of the most important God of the Hindu Pantheon Thus the iconography and stylistic development of Krishna explodes all the prevalent theories and categorically proves the importance of Krishna in Indian art The subject of the book is explicitly the representation of Krishna in Indian sculpture and painting However such an art historical study has necessitated a good deal of discussion of the legend itself for the sake of understanding the iconography Art After Instagram Lachlan MacDowall,Kylie Budge,2021-12-30 This book explores the effects of the Instagram platform on the making and viewing of art Authors Lachlan MacDowall and Kylie Budge critically analyse the ways Instagram has influenced artists art spaces art institutions and art audiences and ultimately contemporary aesthetic experience The book argues that more than simply being a container for digital photography the architecture of Instagram represents a new relationship to the image and to visual experience a way of shaping ocular habits and social relations Following a detailed analysis of the structure of Instagram the tactile world of affiliation follows aesthetics likes and attention comments the book examines how art spaces audiences and aesthetics are key to understanding its rise The book will be of interest to scholars working in art history design digital culture cultural studies sociology education business media and communication studies
