

A person is silhouetted against a night sky filled with stars and the Milky Way galaxy. The person is standing on a dark rock or shore, looking up at the vast expanse of the universe. The sky transitions from a deep purple at the top to a warm orange near the horizon. The Milky Way is visible as a bright, hazy band of light stretching across the sky.

Dear God, be good to me. The sea  
is so wide and my boat is so small.

Farming the North Sea Coast, 900-2000 Piet van Cruyningen,2025-04 The author opens a powerful dialogue between agricultural history on the one hand and environmental history on the other a brilliant and provocative synthesis of a thousand years of coastal farming Tim Soens University of Antwerp Belgium The fascinating story of how the North Sea coast has been farmed is ever changing Long before the industrial revolution the inhospitable fens and marshes of the low lying coastal wetlands on both sides of the Sea had been transformed into one of the most productive agricultural regions in Europe Agriculture in the coastlands reached its apogee during the eighteenth and nineteenth centuries as is witnessed by the many impressive farm buildings established then However more recently it has become clear

that lowland farming and even the physical existence of the lowlands are in jeopardy owing to rising sea levels and problems of drainage This book offers a history of farming and water management on the North Sea coast assessing the forces driving and inhibiting agricultural progress more broadly It examines the ways in which farmers in the past dealt with the two main constraints on their decision making the natural environment and the human environment of institutional rules and customs regulating behaviour It looks in particular at how setbacks were overcome and how farming practices were improved which then raised the money with which to finance the maintenance of dykes canals and sluices Scientists and the Sea,

1650-1900 Margaret Deacon,2018-04-17 Scientists and the Sea is a history of how the scientific study of the sea has developed over a period of nearly 2500 years Beginning with the speculations of Greek philosophers it carries the story forward showing how curiosity about the ocean appeared in many different forms and locations before in the late 19th century the first deep sea researches heralded the foundation of the science known today as oceanography Originally published in 1971 this book has never been superseded as the most comprehensive and wide ranging treatment of the emergence of marine science within the western scientific tradition After three introductory chapters dealing with knowledge up to the Renaissance the main part of the work shows how pioneers of scientific observation at sea during the 17th and 18th centuries made notable discoveries but that it was not until the middle of the 19th century when aided by the advance of technology scientists were able to undertake the first explorations of the ocean depths This second edition contains a new introduction and bibliography **The English-American his Travail by Sea and Land: or, A New Survey of the**

*Awakening as Holy Mystery* Kevin G. Thew Forrester, 2025-07-15 Christianity is an ancient non dual spiritual path of awakening This is not an awakening to God known as a religious object through the lens of belief hewn into shape through a set of religious doctrines This awakening begins with falling in love with the heart of Reality Holy Mystery and comes to fruition in the realization that the soul is one with the Beloved Holy Mystery the soul discovers is the true I of existence The author invites the reader on a journey through reflections and explorations nurtured by worship and prayer Here the soul might begin to slowly awaken to the truth of what she herself is This is the gracious path of Jesus own heart realizing that he and the Beloved are one Jesus awakens as the Christ The spiritual path in the Christian tradition is that each person also realizes Christ heart awakening and knowing not only one s own being as Holy Mystery but all creation as the unfolding flowering of boundless love Awakening becomes the source of servanthood and service Jesus embodies what each is called to realize as the heart s deepest and unceasing longing
