Seal Folk Ocean Paddlers:

Seal-folk and Ocean Paddlers John MacAulay,1998 Foremost in Scottish Hebridean tradition are the tales of the sea folk seals who could assume human form but could not return to the sea without their sealskin belts Against the background of such beliefs the fact of strange people in kayaks being occasionally seen around the islands off the north and west of Scotland was probably not worth special mention until travellers from the mainland heard of these sightings in the 17th and 18th centuries This study draws together historical fact and maritime folklore to reveal some spellbinding mysteries of the ocean involving seals and kayaks Norse ancestry and the children of the seal *The Magic of the Seal* Melanie Godfrey,2024-07-26 This book will take you on a journey to awaken a spiritual relationship with the seal familiarizing you with the seal s anima as well as its history with the Gaelic ancestors of the British Isles The Clan of the Seal on North Uist and the traditional oral storytellers were the transmitters and custodians of folklore who told tales about the kindly selchie and revered seals as sacred akin to their own family The gentle seal will help reclaim what is lost within as we remember our Celtic heritage and identity in this fragile world Seal lore teaches valuable lessons in integrity and kindness and ignites our imagination leading us to the seal s inner landscape of presence and peace inevitably towards our own inner peace This is the magic of the seal not lost but found *The Pirate Queen* Barbara Sjöholm,2015-04-07 The Pirate Queen begins in Ireland with the infamous Grace O Malley a ruthless pirate and scourge to the most powerful fleets of sixteenth century Europe This Irish clan chieftain sea captain and pirate queen was a contemporary of Elizabeth I a figure whose life is the stuff of myth Regularly raiding English ships caught off Ireland s west coast O Malley was purported to have fought the Spanish armada just hours after giving birth to her son She had several husbands in her lifetime and acquired lands and castles that still dot the Irish coastline today But Grace O Malley was not alone Since ancient times women have rowed and sailed commanded and fished built boats and owned fleets As pirate captain s wives lighthouse keepers and sailors in disguise they ve explored coastlines and set off alone across unknown seas Yet their incredible contributions have been nearly erased from the history books In *The Pirate Queen* Barbara Sjöholm brings some of these extraordinary women back to life taking the reader on an unforgettable journey from the wild Irish coast to the haunting Scandinavian fjords in this meticulously researched colorfully written and truly original work *Sea Kayak* Gordon Brown,2006 This book is a modern guide to sea kayaking by one of the leading exponents of the sport who is also a highly respected coach in this field Gordon Brown is a BCU Level 5 sea coach based on the Isle of Skye Scotland He shares his knowledge with you in his own succinct humorous style and very visual approach In this book Gordon covers topics of kayaking history physiology boat and paddle dynamics seamanship and navigation safety and rescue weather forecasting caves rockhopping and tidal races expeditions and overnighting as well as a wealth of tips and resources for the sea paddler This is a visually stunning book printed on 170gsm silk paper filled with top quality photographs Over seventy photographs and illustrations help to make this an

essential modern manual for the sea kayaker **Unsettling Assumptions** Pauline Greenhill, Diane Tye, 2014-10-15 In *Unsettling Assumptions* editors Pauline Greenhill and Diane Tye examine how tradition and gender come together to unsettle assumptions about culture and its study Contributors explore the intersections of traditional expressive culture and sex gender systems to question investigate or upset concepts like family ethics and authenticity Individual essays consider myriad topics such as Thanksgiving turkeys rockabilly and bar fights Chinese tales of female ghosts selkie stories a noisy Mennonite New Year's celebration the Distaff Gospels Kentucky tobacco farmers international adoptions and more In *Unsettling Assumptions* folkloric forms express but also counteract negative aspects of culture like misogyny homophobia and racism But expressive culture also emerges as fundamental to our sense of belonging to a family an occupation or friendship group and most notably to identity performativity and the construction and negotiation of power [Western Isles Folk Tales](#) Ian Stephen, 2014-10-01 *Western Isles Folk Tales* is a representative collection of stories from the geographical span of the long chain of islands known as the Outer Hebrides Some are well known tales and others have been sought out by the author but all are retold in the natural voice of a local man You will find premonitions accounts of uncanny events and mythical beings such as the blue men of the stream who test mariners venturing into the tidal currents around the Shiant Islands Also included are tales from islands now uninhabited like the archipelago of St Kilda in contrast to the witty yarns from bustling harbours The author was the inaugural winner of the Robert Louis Stevenson Fellowship 1995 and his Acts of Trust collaboration with visual artist Christine Morrison won the multi arts category in the first British Awards for Storytelling Excellence 2012 Both author and illustrator live in Stornoway Isle of Lewis [Mysterious Creatures](#) George M. be so many shapes and sizes Then there are rowing craft or power driven vessels which can also be considered classics whether they were built for work or leisure As he traces the iconic forms of a selection of the boats of Scotland Ian Stephen outlines the purposes of craft past and present to help gain a true understanding of this vital part of our culture Sea conditions likely to be met and coastal geography are other factors behind the designs of a wide variety of craft Stories go with boats The vessels are not seen as bare artefacts without their own soul but more like living things A writer uniquely attuned to the water and to the relationships each boat shares with the places it shaped his stories restore past sea roads and river routes to life David Gange author of *The Frayed Atlantic Edge* *Song of the Selkies* Cathie Dunsford,2001 The Edinburgh Festival brings together artists from all over the world and Cowrie is among them telling stories and giving them readings The group of story tellers set off to the Orkney Islands and an ancient mystery unravels Cover [Take Me to the River](#) Vicky Allan,Jackie Kemp,2025-09-11 Immerse yourself in an ocean of great literature Gasp at the cold with Amy Liptrot Be transfixed by Iris Murdoch s monster rising from the waves Learn how to swim like the frogs with John Muir Come on dive in A selection of joyful immersive and life affirming writing about wild swimming From gentle dips in calm waters to fights for survival in stormy seas From the erotic charge of a streamlined body to moments of revelation amidst the waves Take Me to the River is an anthology not just of wild swimming writing but of stories of how a jump into deep waters can change us Open water swimming plays a pivotal role in many great narratives taking us on an immersive journey from Homer s Odyssey to contemporary poetry and memoirs There is adventure here and aquatic playfulness Grief and anguish too heartbreaks displaced and healed by watery spaces Love and desire spark between characters at the edge of the water as does freedom from constraint and the glorious energy of possibility and hope Take Me to the River entices with a dip into the deep sea of words Slide in [The Shark That Walks On Land](#) Michael Bright,2020-01-16 When you dive into the sea do you ever wonder what s down there beneath you poised to take an inquisitive bite Author of Jaws Peter Benchley and film director Steven Spielberg certainly did for below the waves lies a world we neither see nor understand an alien world where we are but the briefest of visitors The Shark that Walks on Land uncovers tales of ancient and modern mariners with stories of sea serpents mermaids and mermen sea dragons and the true identity of the legendary kraken But this book contains more than just a medley of maritime myths and mysteries for marine biologists it celebrates wonderful discoveries by blending the unknown and the familiar in an entertaining miscellany of facts figures and anecdotes about the myriad creatures that inhabit the oceans Along the way we meet the giants the most dangerous the oddballs and the record breakers and the shark that really does walk on land **Isles of the North** Ian Mitchell,2012-07-30 In the summer of 2002 Mitchell set sail aboard the 30 foot yacht Foggy Dew on a voyage that took him from his home through the Western Isles to Orkney and Shetland and on to the west coast of Norway Against the backdrop of one of the world s most spectacular coastlines he sailed up the Nordfjord down to Bergen then out to Utsira and back home via Inverness The object of his journey was more than just to enjoy a few

contemplative drams during a summer at sea In this sequel to his much acclaimed Isles of the West 1999 Mitchell continues his investigation into official Britain s failure to administer rural Scotland for the mutual benefit of people and nature Ian Mitchell s narrative combines authoritative background information and personal interviews with local people many enlivened by the measured dispensation of Scotland s most famous aid to creative thought He shows how Norway a country outside the EU and therefore in control of its own resources has been able to give a wide measure of freedom to the sort of communities which in Scotland are subject to debilitating control by Edinburgh London and Brussels He points to many lessons which centralised bureaucratic Britain could learn from its more democratic neighbour across the North Sea

The Sea House Elisabeth Gifford,2014-04-15 In 1860 Alexander Ferguson a newly ordained vicar and amateur evolutionary scientist takes up his new parish a poor isolated patch on the remote Scottish island of Harris He hopes to uncover the truth behind the legend of the selkies mermaids or seal people who have been sighted off the north of Scotland for centuries He has a more personal motive too family legend states that Alexander is descended from seal men As he struggles to be the good pastor he was called to be his maid Moira faces the terrible eviction of her family by Lord Marstone whose family owns the island Their time on the island will irrevocably change the course of both their lives but the white house on the edge of the dunes keeps its silence long after they are gone It will be more than a century before the Sea House reluctantly gives up its secrets Ruth and Michael buy the grand but dilapidated building and begin to turn it into a home for the family they hope to have Their dreams are marred by a shocking discovery The tiny bones of a baby are buried beneath the house the child s fragile legs are fused together a mermaid child Who buried the bones And why To heal her own demons Ruth feels she must discover the secrets of her new home but the answers to her questions may lie in her own traumatic past The Sea House by Elisabeth Gifford is a sweeping tale of hope and redemption and a study of how we heal ourselves by discovering our histories

Bailey,2018-05-01 Fish bones in the caves of East Timor reveal that humans have systematically fished the seas for at least 42 000 years But in recent centuries our ancient vital relationship with the oceans has changed faster than the tides As boats and fishing technology have evolved traditional fishermen have been challenged both at sea and in the marketplace by large scale fishing companies whose lower overhead and greater efficiency guarantee lower prices In Fishing Lessons Kevin M Bailey captains a voyage through the deep history and present course of this sea change a change that has seen species depleted ecosystems devastated and artisanal fisheries transformed into a global industry afloat with hundreds of billions of dollars per year Bailey knows these waters the artisanal fisheries and their relationship with larger ocean ecology intimately In a series of place based portraits he shares stories of decline and success as told by those at the ends of the long lines and hand lines channeling us through the changing dynamics of small scale fisheries and the sustainability issues they face both fiscal and ecological We encounter Paolo Vespoli and his tiny boat the Giovanni Padre in the Gulf of Naples Wenche a sea S mi one of the indigenous fisherwomen of Norway and many more From
