NEW VISION OF ISLAM Moin Qazi, 2023-04-03 This book is a compilation of the author's articles on various facets of Islam published earlier in various newspapers and journals It gives an insight into various faiths and how they have influenced the lives of their adherents Many of these concepts have been examined in the context of Islam and Muslim culture The purpose of the book is to reinforce the bond of tolerance between people of different faiths ideas and philosophies The author firmly believes this is possible if we all understand and accommodate each other socially culturally and ideologically There are several misconceptions in the minds of people on account of the absence of exposure to the authentic literature of various faiths Most people learn about different faiths and beliefs not by studying their original literature but by inferring from what is being discussed and commented upon in public discourses This book is a sincere attempt to encourage the general public and youth to directly understand the values and ideas that underpin all these faiths Hopefully this strategy or approach could help resolve several misunderstandings and misperceptions This is the most sensible way for humanity to come closer and live in peace and harmony *In Search of El Dorado* Alexander

Looking for de Soto Joyce Rockwood Hudson, 2012-02-01 In 1984 Joyce Rockwood Hudson accompanied her husband anthropologist Charles Hudson on a 4 000 mile trek across the Southeast His objective was to retrace and verify the route taken by Hernando de Soto four and a half centuries earlier The effort would bring into question and ultimately supplant much of what was earlier thought to be the course of the Spanish explorer's journey This is the journal Joyce Hudson kept during that trip A kind of scholar's version of Blue Highways the book is a warmly humane and almost daily account of the people the Hudsons met the places they saw and the things they did as they searched for De Soto's trail beneath railroad tracks and two lane blacktops along riverbanks and mountain ridges Thus it is largely a travel story about rural and small town life in eleven states from Florida to Texas Descriptions of the region's everchanging terrain vegetation and climate fill the book colored at times by Joyce Hudson's troubled musings about Americans increasing disconnectedness from the land and irreverence for the past Conveying the rewards and frustrations of lives spent in painstaking scholarly inquiry Looking for De Soto also offers a firsthand glimpse into the daily work of anthropologists and archaeologists the exchanges of ideas the ventures through swamps and down deeply rutted farm roads the endless porings over maps charts and notes As if writing a detective story the author suspensefully paces the narrative with the accrual of geographical artifactual and documentary evidence punctuating it with false leads and other setbacks as mile after mile of the trail is

redrawn The story even has its villains pothunters and private collectors the builders of canals and dams that alter the courses of rivers and inundate ancient village sites and the owners of corporate farms who have leveled and eradicated ceremonial mounds with their massive agricultural machinery Finally a sense of the headlong cultural collision between Europeans and Native Americans pervades the book De Soto and his six hundred conquistadores were the first Europeans to explore the interior of the southeastern United States and the only ones to witness its aboriginal society at its zenith Hudson's evocation of this encounter so central to the history of the New World may well send readers on their own excursions into the past Looking for De Soto is a fascinating journey through today's South illuminated by a richly informed perspective on its earlier days
