Augustine and Academic Skepticism Blake D. Dutton, 2016-02-25 Among the most important but frequently neglected figures in the history of debates over skepticism is Augustine of Hippo 354 430 CE His early dialogue *Against the Academics* together with substantial material from his other writings constitutes a sustained attempt to respond to the tradition of skepticism with which he was familiar This was the tradition of Academic skepticism which had its home in Plato's Academy and was transmitted to the Roman world through the writings of Cicero 106 43 BCE Augustine and Academic Skepticism is the first comprehensive treatment of Augustine's critique of Academic skepticism In clear and accessible prose Blake D Dutton presents that critique as a serious work of philosophy and engages with it precisely as such While Dutton provides an extensive review of Academic skepticism and Augustine's encounter with it his primary concern is to articulate and evaluate Augustine's strategy to discredit Academic skepticism as a philosophical practice and vindicate the possibility of knowledge against the Academic denial of that possibility In doing so he sheds considerable light on Augustine's views on philosophical inquiry and the acquisition of knowledge

Against the Academicians and The Teacher Augustine, 1995-01-01 These new translations of two treatises dealing with the possibility and nature of knowledge in the face of skeptical challenges are the first to be rendered from the Latin critical edition the first to be made specifically with a philosophical audience in mind and the first to be translated by a scholar with expertise in both modern epistemology and philosophy of language

Pedagogy and the Comic Soumick De,2022-06-07 Perversion Pedagogy and the Comic studies how the idea of theater shaped western consciousness during the Christian Middle Ages It analyses developments within western philosophy Christian theology and theater history to show how this idea realized itself primarily as a metaphor circulating through various discursive domains Beginning with Plato s injunction against tragedy the relation between philosophy and theater has been a complicated affair which this book traces at the threshold when the western world became Christian By late

antiquity as theatre was slowly banned Christian theology put the idea of theatre to use in order to show what they understood to be the perverted nature of worldly existence and the mystery of the Kingdom of God Interrogating the theological teachings of some of the early Church Fathers like St Augustine Tertullian and Clement of Alexandria the book offers a new look at how the idea of theater not only inspired Christian liturgical practices but Christian pedagogy in general which in turn shaped the nature of Christian religious drama Finally the author tries to demonstrate how this hegemonic use of the theatre idea was countered by a certain comic sensibility which opened the idea of theatre in the Christian Middle Ages to a new and subversive materialist possibility Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
