New World Order and Small Regions Emil Avdaliani, 2022-08-29 The book provides a comprehensive understanding of the unfolding geopolitical changes in the South Caucasus in the age of increased great power competition across Eurasia Recent research on the geopolitics of the South Caucasus focuses either on interstate relations among Armenia Azerbaijan and Georgia or on each of regional actors Russia Turkey and Iran ties with the region's one or all three states Little attempt has been made to see the region's shifting geopolitical importance from a global perspective growing US China rivalry and shifting balance of power in Eurasia recalibration of the US military and diplomatic vision in western Eurasia to adjust to the Chinese challenge The book argues from a theoretical point of view that the increased competition in the region fits into the global pattern of unfolding great power competition when military and economic calculations drive regional powers to increase their influence on immediate neighborhoods sidelining the collective West from the negotiating table and the emerging new security architecture

States, Civilisations and the Reset of World Order Richard Higgott, 2021-09-16 This book evaluates the current state of world disorder at a time of growing populism nationalism and pandemic panic It distils the implications of the civilisational state for world order The retreat of US leadership is mirrored

by the decline of both the material and normative liberal multilateral infrastructure it supported. Meanwhile the rise of China as a challenger is accompanied in political, economic and cultural terms by other emerging powers no longer bound to the norms of 20th century world affairs, notably Turkey, India, China and Russia. By emphasising a cultural lens of analysis alongside robust political and economic analysis, the author offers a prescriptive agenda for the coming post-pandemic age that recognises the changing powers of civilisational state and hybrid non-state actors. Without overestimating their probabilities, he outlines prospects and preconditions for effective inter-civilisational dialogue and proposes a series of minimal conditions for a multilateral reset. This book will appeal to public and private decision makers, the media, the educated lay public and civil society actors interested in the rise of civilisational politics and its possible consequences for world affairs. It will be of particular interest to students and researchers in the fields of politics, international relations, international political economy, geopolitics, strategic studies, foreign policy and social psychology. *National Geographic Almanac of World History* Patricia Daniels, Stephen Garrison Hyslop, 2011. Maps, illustrations, time lines, essays, articles and sidebars chronicle major milestones, events and figures in world history. *Understanding the New World Order* Jide Owoeye, 1993. **Globalization and Civilizations** Mehdi Mozaffari, 2003-09-02. Globalization and Civilizations challenges established assumptions about the nature of civilizations and the supposed inevitability of the conflict between the Islamic and Western worlds. Uniquely, this edited book critically interrogates the concept of civilization by asking whether it is still valid in the globalized world economy of the twenty-first century. The first half of the book provides an historical and theoretical context to understand the idea of civilization in political science and demonstrates how the various social, economic, political and cultural processes of globalization have radically altered perceptions of civilization. The second half of the book looks particularly at non-Western examples of the interaction between globalization and civilization and includes case studies on the Arab world, Islam, China, India and Europe. *Guardians of Justice: Unmasking the Truth in a World of Power* Pasquale De Marco, 2025-03-14. Searching for a Demon Steven M. Chermak, 2002 This provocative volume thoroughly examines the ways in which the media demonized militia groups following the devastating bombing of the Alfred F Murrah building in Oklahoma City Using quantitative and qualitative research methods Steven M Chermak offers a fresh perspective on how news coverage and popular entertainment transformed a largely overlooked movement into a symbol for this new threat of domestic terrorism and ignited a national panic over the militia menace Searching for a Demon describes the representation of the militia movement in the news media editorial cartoons films and television Chermak delves into such topics as the type and amount of coverage after the blast how social problems are constructed in the news the motivations and biases of authoritative or celebrity figures used as news sources and why images of militias were framed in specific ways Chermak balances his account with an in depth look at the philosophies activities and strategies of militia groups Drawing on extensive interviews he conducted at gun shows and preparedness exhibitions the author compares and contrasts media depictions of militia life and ideology with the firsthand accounts of members and leaders themselves and he assesses how media coverage affected changes in the movement In conclusion Chermak discusses the parallels between media treatment of militias in the wake of the Oklahoma City bombing and the coverage of the al Qaeda terrorist network after the September 11 2001 attacks Solidly grounded in social constructionist theory Searching for a Demon fills a significant gap in the literature on terrorism as well as on the roles of the news media and popular culture in reshaping the public consciousness after dramatic crimes

China's Grand Strategy and Australia's Future in the New Global Order Geoff Raby, 2025-05-14 The US dominated world order has been replaced by a multipolar order but its closest allies such as Australia seek to retain American primacy adding dangerously to heightened geopolitical competition between the dominant and the ascendant power China Where the first great power shift of the twenty first century was across the Pacific from the United States to China the next great power shift is now underway from Russia to China Putin s invasion of Ukraine has depleted Russia of its power and influence across Eurasia while China s continues to grow As China consolidates its power across Eurasia it can turn to project power globally just as the US did at the turn of the last century when it cemented its power over the western hemisphere Diplomatically Australia is forced to navigate an increasingly unfamiliar world where the guarantor of its security is no longer the sole dominant power while China remains its most important economic partner Is Australia agile enough to walk the fine line of supporting US primacy in the Asia Pacific while providing a bulwark against
