The Search for Bridey Murphy Sarah Cotter Hogroian, Columbia University. Theatre Arts Division, 1997 **The Cinematography of Roger Corman** Pawel Aleksandrowicz, 2016-09-23 Roger Corman is an ambiguous artistic figure On the one hand he is notorious for shooting and producing his films quickly cheaply and with blatant disregard for safety measures which together with his ability to issue a dozen new films every year and his impressive filmography have earned him the titles of shlockmeister and the King of the B's among film journalists On the other hand he became the youngest American director to be given a film retrospective at the prestigious Cinéma de France in Paris one of his directorial efforts House of Usher was selected for preservation in the National Film Registry by the Library of Congress and the Academy of Motion Picture Arts and Sciences awarded him with an Academy Honorary Award for his rich engendering of films and filmmakers This book investigates this duality and explores whether Corman is indeed a shlockmeister or an artist

whose works are worthy of the highest cinema awards The scope of analysis is limited to his directorial efforts only still encompassing 50 features excluding the 400 films he produced The methodology adopted here is based on the auteur theory in its structuralist version by Geoffrey Nowell Smith and Peter Wollen and focuses on three areas of interest work ethic personal elements in the films personal control over and commitment to the production process outside direction themes topics and concerns common for many of the films regardless of the genre and style recurring stylistic motifs and elements in the camerawork editing and framing

The Parapsychology Revolution Robert M. Schoch,Logan Yonavjak,2008-01-31 Grounded in both scientific acumen and constructive inquiry this anthology shines a rare clarifying light on the controversial realms of psychical and paranormal research surveying reports essays and arguments from more than a century of investigation into matters such as clairvoyance telepathy and past life regression In the past one hundred and twenty five years despite a relative paucity of funding and the troubling persistence of fraud serious inquiry into the paranormal particularly as it relates to clairvoyance and psychical perception has successfully entered the scientific age Studies in the modern laboratory employing rigorous methodology and peer reviewed oversight have conclusively detected statistical anomalies that suggest the presence of some not yet understood faculty of the human mind In The Parapsychology Revolution Robert M Schoch Ph D a scholar widely known for his geological theories that question the conventional dating of the Great Sphinx and researcher Logan Yonavjak introduce and anthologize core writings that underscore the range and

continuing challenges of psychical research The book s extensive introduction and the editors commentary on individual essays and sections highlight milestones feuds and key players that mark the nascent history of this fascinating and important field of research Finally The Parapsychology Revolution addresses and clarifies the all important question Is there legitimate evidence for a world beyond the ordinary *Beyond the Grave* Judith Herbst,2004-09-01 Examines and explains several mysteries surrounding death and dying including spontaneous human combustion remembering past lives ghosts and near death experiences [Claiming Knowledge](#) Olav Hammer,2021-11-08 This volume deals with the transformation of unchurched religious creativity in the late modern West It analyzes the ways in which the advance of science globalization and individualism have fundamentally reshaped esoteric religious traditions from theosophy to the New Age This publication has also been published in paperback please click here for details **Channeling Into the New Age** Henry Gordon,2011-04-29 What exactly is the New Age movement Why has it become the dominant force of the Zeitgeist invading nearly every aspect of American life After years of researching this burgeoning movement columnist author and magician Henry Gordon is one of the world s foremost experts on every aspect of the New Age its derivations and content the people most involved in it the forces that motivate and prolong it and the enormous amount of money changing hands as the me generation takes on astrology crystals runes channeling mysticism yoga acupuncture herbal medicine telepathy precognition clairvoyance biofeedback biorhythms reincarnation and every sort of psychological technique for heightened awareness At the forefront of the brouhaha is high profile actress lecturer and free spirit Shirley MacLaine This book is strictly unauthorized a freewheeling and spirited roast of the New Age including a history of trends leading to the movement rooted in 19th century occultism and observations on the vast amount of coverage given to the movement and to New Age celebrities by the print and broadcast media Although Gordon delights in skewering the absurdities of the New Age there s a serious emphasis to his research and his message While the gurus are busy channeling into new realities they are becoming phenomenally rich without contributing in any significant way to the alleviation of human unhappiness and very often without making any sense at all Sharp wit and common sense Wise and often hilarious Rocky Mountain News **The Abduction of Betty and Barney Hill** Matthew Bowman,2023-08-29 A gripping account of an alien abduction and its connections to the breakdown of American society in the 1960s Excellent and exhaustive Colin Dickey Slate In the mid 1960s Betty and Barney Hill became famous as the first Americans to claim that aliens had taken them aboard a spacecraft against their will Their story involving a lonely highway late at night lost memories and medical examinations by small gray creatures with large eyes has become the template for nearly every encounter with aliens in American popular culture since Historian Matthew Bowman examines the Hills story not only as a foundational piece of UFO folklore but also as a microcosm of 1960s America The Hills an interracial couple who lived in New Hampshire were civil rights activists supporters of liberal politics and Unitarians But when their story of abduction was repeatedly ignored or discounted by authorities they lost faith in the

scientific establishment the American government and the success of the civil rights movement Bowman tells the fascinating story of the Hills as an account of the shifting winds in American politics and culture in the second half of the twentieth century He exposes the promise and fallout of the idealistic reforms of the 1960s and how the myth of political consensus has given way to the cynicism and conspiratorialism and the paranoia and illusion of American life today

Bottoming Out the Universe Richard Grossinger, 2020-04-07 An exploration into consciousness the universe and the nature of reality Draws on transdimensional physics and biology reincarnation and past life memories animal consciousness multiple identities thoughtforms soul pictures and paranormal phenomena like crop circles and poltergeists Explores the riddle of personal identity and how it differs from consciousness Reveals that consciousness is more than encompassing all that exists it also speaks to what has yet to manifest Scientific orthodoxy views the universe as conceived of matter protons neutrons electrons down to the smallest particle quarks But when you keep digging what is beneath quarks The scientific worldview does not take into account consciousness or life itself How did consciousness become part of the material universe Is it a by product of brain chemistry or a constituent of reality Or to dig deeper which is more fundamental the existence of an objective physical universe or our subjective experience of it In this investigation into consciousness the universe and the nature of reality Richard Grossinger offers a wide ranging foundation for reimagining the universe as based in consciousness rather than matter He presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories Exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts He then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like UFOs faeries and poltergeists He also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics Examining nonlocal and transpersonal modes of consciousness Grossinger looks at the difference between consciousness and personal identity He expands this discussion with reflections on Sethian cosmology using Seth s own words and Jane Roberts s and John Friedlander s interpretations He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing Skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency
