Images at Work David Morgan, 2018-01-02 Images can be studied in many ways as symbols displays of artistic genius adjuncts to texts or naturally occurring phenomena like reflections and dreams Each of these approaches is justified by the nature of the image in question as well as the way viewers engage with it But images are often something more when they perform in ways that exhibit a capacity to act independent of human will Images come alive they move us to action calm us reveal the power of the divine change the world around us In these instances we need an alternative model for exploring what is at work one that recognizes the presence of images as objects that act on us Building on his previous innovative work in visual and religious studies David Morgan creates a new framework for understanding how the human mind can be enchanted by images in Images at Work In carefully crafted arguments Morgan proposes that images are special kinds of objects fashioned and recognized by human beings for their capacity to engage us From there he demonstrates that enchantment as described is not a violation of cosmic order but a very natural way that the mind animates the world around it His groundbreaking study outlines the deeply embodied process by which humans create culture by endowing places things and images with power and agency These various agents human and non human material geographic and spiritual become nodes in the web of relationships thus giving meaning to images and to human life Marrying network theory with cutting edge work in visual studies and connecting the visual and bodily technologies employed by the ancient Greeks and Romans to secular icons like Che Guevara Abraham Lincoln and Mao Images at Work will be transformative for those curious about why images seem to have a power of us in ways we can t always describe

Enchantment's Odds & Ends Ken Evans, 2021-07-26 To be Enchanted at one time meant to be carried away from one s hum drum existence to something or somewhere magical perhaps even spiritual at least always more than

merely physically pleasant Of course this depended on one's beliefs in human souls Take that away and enchantment would be as mundane as everything else in modern daily life No Soul means no possibility of Enchantment Ken Evans **A**

Alison Hulme, 2024-08-22 Entangled Things takes the concept of entanglement as its starting point in investigating the relationship between us and the material things we engage with Each chapter illustrates a particular form of entanglement desiring things hoarding things creating things ridding ourselves of things using ethnographic examples and theoretical perspectives Hulme encourages a wider consideration of the place of humans in the world and the kind of choices we enact when influenced by the material things around us She explores our relationships with material objects in light of both personal and planetary space and personal and historical time from the space in our homes storage spaces landfill and oceans to the times in our lives and the times in wider shared histories that things connect us to not to mention our sense of time and our own place in the world In so doing Hulme intentionally places discussions on our entanglement with things squarely back into the context of the Anthropocene with a provocative analysis in which the Anthropocene is posited as a concept which on one hand takes away human agency placing us in the context of immense geological epochs whilst on the other hand pushes agency upon humans blaming us for the extreme challenges of the current era and looking to us to solve those challenges For Hulme material things are instrumental in helping us to grasp our existential place in the world and weave a way through the complications of living in epochal times *The Countess Of Assis - Romance, revenge and ambition during the Second Reign* JOÃO PAULO FOSCHI, 2017-04-08 Rio de Janeiro XIX century During the grand ball at the Cassino Fluminense Lorena Duarte Val o is simply another one of many marriage seeking young ladies at the Court of emperor D Pedro II However what nobody can imagine is that this young lady of extraordinary beauty and full of romantic ideals is also an ambitious social climber who wants to ascend socially no matter the price She is among the nobility of this regal event when she meets the gallant Rafael Abrantes once again and an overpowering passion emerges which will end up consuming her in an uncontrolled conquering game However what the young lady didn't expect was that another renowned guest the aristocrat Atílio Santiago the Count of Assis was completely in love with her forming an intriguing love triangle that

will radically change the lives of all those involved After surrendering herself to Rafael s seduction and being rejected by him Lorena will initiate a revenge plan to destroy the man who rejected her even if in the process she will have to lie betray or even kill
