

The background of the slide features a detailed technical drawing of a Cavendish experiment apparatus. It consists of a large horizontal beam supported by a central vertical pillar and two side pillars. A large, tapered, conical mass is suspended from the center of the beam. To the right, a smaller, similar apparatus is shown in a lighter blue color. A small circular inset with vertical lines is positioned between the two main apparatuses. The entire scene is set against a dark brown background.
