Whose Knowledge Counts in Government Literacy Policies? Kenneth S.

Goodman,Robert C. Calfee,Yetta M. Goodman,2013-10-01 Accountability in the form of standardized test scores is built into many government literacy policies with severe consequences for schools and districts that fail to meet ever increasing

performance levels The key question this book addresses is whose knowledge is considered in framing government literacy policies The intent is to raise awareness of the degree to which expertise is being ignored on a worldwide level and pseudo science is becoming the basis for literacy policies and laws The authors all leading researchers from the U S U K Scotland France and Germany have a wide range of views but share in common a deep concern about the lack of respect for knowledge among policy makers Each author comes to the common subject of this volume from the vantage point of his or her major interests ranging from an exposition of what should be the best knowledge utilized in an aspect of literacy education policy to how political decisions are impacting literacy policy to laying out the history of events in their own country Collectively they offer a critical analysis of the condition of literacy education past and present and suggest alternative courses of action for the future

In Search of Wonderful Ideas Mary Kay Delaney, Susan Jean Mayer, 2021 Drawing on the work of Eleanor Duckworth the authors examine critical exploration in the classroom a student centered learning approach that Duckworth developed herself drawing on the work of Jean Piaget Per the authors such

teaching and learning relies upon teachers developed knowledge skills and wisdom in the practices of intentional listening observing and sensitive question posing and on their ability to conduct open and materials based intellectual explorations with a diverse array of students The complex work that the authors outline has grown less visible within programs of teacher education and in classrooms as other interests prevail challenges like edTP A and standards based instruction The authors make a case for critical exploration within programs of teacher education and demonstrate across chapters the ways in which such an approach may manifest itself within and across disciplinary domains
