Searching For A Piece Of My Soul:

Searching for Authenticity S. Gayle Baugh, Sherry E. Sullivan, 2015-05-01 Volume 2 of the Research in Careers series focuses on the search for authenticity in one's career. Although there has been growing interest in the topic within the popular press, relatively little academic research has been completed on authenticity and careers. Researchers are still refining the concept of authenticity and are just beginning to investigate how it influences the enactment of careers in today's turbulent career landscape. This volume offers the first organized effort on the topic. This volume contains seven chapters which examine the search for authenticity derived from the Kaleidoscope Career Model (Mainiero, Sullivan, 2006). Chapters 1 and 2 present a review of the literature and an in-depth analysis of the construct of authenticity. Chapter 1 offers a new lens to view career authenticity based on two dimensions of self-awareness and adaptability. Chapter 2 uses two case studies to define how individuals are authentic in their career. Chapters 3 and 4 examine the authenticity of individuals in different career stages, with Chapter 3 examining recent college graduates and Chapter 4 examining mid to late stage careerists. Chapters 5, 6, and 7 focus on the interplay between social interactions and career authenticity. Chapter 5 offers a process model that traces how, through negotiation, a person's identities shape and are shaped by relationships with others, leading to the enactment of an authentic career. Chapter 6 explores how individuals remain authentic in their career while negotiating the conflicting expectations of multiple interest groups. Chapter 7 examines the complex relationships among career authenticity, political behaviors, and strain.

In Search of the Soul, Second Edition Joel B. Green, 2010-11-01 Why A Search for the Soul? Many Christians assume that it is biblically faithful and theologically noncontroversial to speak of humans having a soul. Yet a wide range of biblical scholars are questioning whether we have correctly understood what the Bible means when it speaks of the soul. And contemporary neuroscience is laying more and more questions at the doorstep of the church, asking whether our human sense of self is intelligible on the basis of soul. But for thoughtful Christians following science on this point looks like caving in to reductionism while denying science gives off the odor of obscurantism. *In Search of the Soul* provides a rare opportunity to listen in as four Christian philosophers set forth their best arguments for their distinct views and then respond to each other. While each of these views calls for careful framing and patient exposition, they are labeled as follows: SUBSTANCE DUALISM (Stewart Goetz), EMERGENT DUALISM (William Hasker), NONREDUCTIVE PHYSICALISM (Nancey Murphy), and CONSTITUTION VIEW OF PERSONS (Kevin Corcoran). The editor introduces the debate by laying out the critical issues at stake and wraps it up by considering the implications for the Christian life, particularly hospitality and forgiveness. This is a book of timely interest to philosophers, theologians, psychologists, and pastors. Whatever conclusions readers may draw, they will find here an instructive and engaging discussion of a controversy that will not go away any time soon.
