Seascapes And Angels:

Seascapes and Angels Dermot O'Neill, 2000 It had always been Dermot O'Neill's boyhood dream to sail the Atlantic alone Struggling with internal fears and adult anxieties that threatened to stifle his dream he decided to do it before his fears won out He set out alone to sail from his Irish home of Arklow to the Barbadoes He quickly found himself in deep personal waters The 14 month 12 000 mile round trip journey in his sailboat Poitin led to terrifying times with storms close encounters with death insanity hunger and loneliness This is an exciting and inspiring book about an ordinary man dealing with a critical stage in his life but it is also a tale of fun excitement and the utter joy of personal and physical fulfillment Seascapes:

Shaped by the Sea Mike Brown, Barbara Humberstone, 2016-04-01 Despite the fact that the sea covers 70 per cent of the Earth's surface and is integral to the workings of the world it has been largely neglected or perceived as marginal in modern consciousness This edited collection disrupts notions of the sea as other as foreign and featureless through specific situated accounts which highlight the centrality of the sea for the individuals concerned Bringing together academics who combine scholarly expertise with lived experiences on in and with the sea it examines humans relationships with the sea Through the use of auto ethnographic accounting the contributors reflect on how the sea has shaped their sense of identity belonging and connection They examine what it is to be engaged with the sea and narrate their lived sentient corporeal experiences The sea is a cultural seascape just as it is physical reality The sea shapes us and we in turn attempt to shape it as we construct various versions of it that reflect our on going and mutable relationship with it The use of embodied accounts as a way of conveying lived experiences and the integration of relevant theoretical frames for understanding the broader cultural implications provide new opportunities to understand seascapes **Songs of the Arabian Red Sea** Dionisius A.

Agius, Muhammad Zafer Alhazmi, Hasan Hujairi, 2025-07-24 Song and music have always played an important part in the cultural identity of the mariners and coastal peoples of the Red Sea While previous studies on the maritime culture of this region have focused on the sailing vessel the dhow and seafaring communities this is the first book to examine its rich musical repertoire Using fieldwork conducted along the Hijaz and Upper Tihama coasts The Songs of the Arabian Red Sea documents examples of different musical forms and styles as well as the stories of older mariners who describe the contexts in which songs were sung from sea shanties during the working day to soulful ballads about home and loved ones at night Presenting the songs and their lyrics in the context of the geography culture oral history and musicology of the region the book reveals the complex and connected network that influenced their development and the vital place of song and music for diverse communities of the region Northern Atlantic Islands and the Sea Andrew Jennings, Silke Reeploeg, Angela Watt, 2017-05-11 Iceland the Faroe Islands Orkney Shetland and to some extent the Hebrides share both a Nordic cultural and linguistic heritage and the experience of being surrounded by the ever present North Atlantic Ocean This has been a constant in the islanders history forging their unique way of life influencing their customs and traditions and has been

instrumental in moulding their identities This volume is an exploration of a rich intimate and at times terrifying relationship It is the result of an international conference held in April 2014 when scholars from across the North Atlantic rim congregated in Lerwick Shetland to discuss maritime traditions islands in Old Norse literature insular archaeology folklore and traditional belief The chapters reflect the varied origins of the contributors Icelanders are well represented as are scholars based in Orkney and Shetland indicating the strength of scholarship in these seemingly isolated archipelagos Peripheral they may be to the UK but they lie at the heart of the North Atlantic at the intersection of British and Nordic cultures This book will be of interest to scholars of a wide range of disciplines such as those involved in island studies cultural studies Old Norse literature Icelandic studies maritime heritage oceanography linguistics folklore British studies ethnology and archaeology Similarly it will also appeal to researchers from a wide geographical area particularly the UK and Scandinavia and indeed anywhere where there is an interest in the study of islands or the North Atlantic *William Blake and the Sea Monsters of Love* Philip Hoare, 2025-05-06 A revelatory and joyous exploration of how one visionary inspired two hundred years of art poetry and protest by the acclaimed author of *Albert and the Whale* Weaving between the historical cultural and personal award winning author Philip Hoare reveals a web of creative minds and artistic iconoclasts fired by the wild and revolutionary genius of William Blake Blake is one of the greatest artists in western history His art envelops us He invented a way to put words and images on a page to express his poetry and art in a manner that has never been truly equaled Even in his own time his fans and followers were left speechless Blake's heavenly bodies are our real selves soaring beyond time and space His art is a time machine We can climb aboard and be taken to the stars Blake accepted no limits to the human spirit Throughout his life he worked as one artist two people with his partner Kate Together they created their visions of what the world could be filled with majestic menageries of tigers burning bright and angels in trees of leviathans and demons and human fleas and a devil who burns with revolutionary ecstasy In *William Blake and the Sea Monsters of Love* with Philip Hoare as our inimitable guide Blake rises as a new hope for our own era **Best Dives of the Caribbean** Joyce Huber, 2011-04-15 Annotation Includes the latest and best dive and snorkel sites each rated for visual excellence and marine life The author's knowledge of the Caribbean sites is unparalleled From sunken planes and snorkel trails to blue holes the best destinations beneath the waves are covered Covers Anguilla Antigua Barbados Belize Bonaire the US and British Virgin Islands the Caymans Cura o Dominica Dominican Republic Grenada Guadeloupe Jamaica Puerto Rico St Kitts St Lucia St Vincent I take this compact book with me everywhere My only complaint I wish they covered more islands Suziekew The new 2006 third edition of *Best Dives of the Caribbean* is packed full of dive vacation planning information It tells what time of year to go the most popular dive sites with details on what to expect depths average sea conditions I get seasick if it's rough and prefer diving where the sites are ten minutes or less by boat or better yet accessible from the beach Inde *The Angel of Darkness: Book 2 of the Alienist* Caleb Carr, 2018-04-10 NEW YORK TIMES BESTSELLER THE BOOK BEHIND SEASON
