Season For The Dead:

Season of the Dead Paul R. Seibert, 2003-07-03 It is the year of the true millennium and Jon Erik a twelve hundred year old Master Vampire has tracked his creator Nestasia to the Crescent City of New Orleans With less than a week away from the Wiccan New Year Halloween and the beginning of the Season of the dead travelers from around the world are preparing for this year's celebration to be one of the biggest in history Everyone that is except Jon Erik He has come to town with one sole intention to exact his form of Viking retribution against his creator for killing his men 1200 years ago and damning his soul to an unspeakable immortality on earth That is until he meets Jennifer a captivating single mother trying to raise her son and struggling to make ends meet Yet like the city she has lived in all of her life she too has her own rich history with the occult and unbeknownst to her or anyone else a royal bloodline courses through her veins As a descendant of a very ancient and powerful legacy of witches she is beset with a destiny that will bind her to one of the world's oldest and most dire prophecies Living in New Orleans she thinks that she has seen just about everything however nothing in her wildest imagination could have ever prepared her for what she is about to experience after she meets Jon Their relationship along with the kidnapping of her son by his creator will stir emotions in them both long since forgotten and some possibly even stronger than his own desire for revenge With only less than a week before the ritual Jon and Jennifer are in a race against time to stop Nestasia from enacting her plans knowing all too well that their failure will not only mean the death of her son but with the summoning of Lilith and the fulfillment of the ancient prophecies the end of all new born life all together Now they are all that stands between humanity and a literal Hell on Earth where mankind will be left as slaves to watch on helplessly as they are slaughtered as food and amusement for the Immortals **A Season for the Dead** David

Hewson, 2004-03-30 In a hushed Vatican reading room the scene was shocking a crazed professor shot dead after brandishing evidence of a grisly crime Moments later two bodies are found in a nearby church each with a gruesome calling card from the killer Thus begins David Hewson's elegant and electrifying new novel Set amidst a bizarre killing spree in modern Rome it is a bewitching blend of history and drama sensuality and suspense As the August heat takes Rome in its fiery grip the news of two brutal murders holds the city in thrall And as the media gathers and Vatican officials close ranks a young detective is sent to the forefront of the case Nic Costa is the son of an infamous Italian Communist a connoisseur of Caravaggio and a cop who barely looks his 27 years of age Thrust into the heart of a killing spree that will rattle his city down to its ancient bones Nic meets a woman who will soon dominate both his consciousness and his investigation A cool beautiful professor of early Christianity Sara Farnese was in the Vatican library on that fateful day a witness to her colleague's strange outburst and death But her role will become even more puzzling as more bodies are found Each victim killed in a gory tableau of Christian martyrdom And each victim had intimately known Sara whose silence Costa cannot quite crack and whose carnal history becomes more lurid and unfathomable with every revelation Soon a nightmarish chase is implicating

politicians and priests while at the heart of the matter remains the woman Costa is both investigating and guarding Wanting to believe in Sara's innocence Nic still cannot turn his eyes from the truths he is uncovering Even as the secrets of a woman a killer and a city begin to unravel with devastating consequences A beguiling mystery a dazzling treat for the senses and a fascinating tour of the streets and alleyways of Rome Nic Costa's relentlessly suspenseful debut is a masterpiece of suspense fiction From the Hardcover edition

M. Preston,2013-11-09 When Springer Verlag undertook publication of this volume two opportunities arose The first was to bring together the significant findings of the interacting parts of a large field experiment on a whole ecosystem Scientific specialists and the public are rightly concerned with large scale impacts of human activity on landscapes and with the challenge of predicting subtle long range repercussions of air pollution A fundamental issue is whether ecological systems like grasslands which have evolved for several million years under stressful conditions such as variable climate and overgrazing are more robust than other systems in tolerating new atmospheric impacts of pollution and toxicity At what level and when will an extra geochemical input like sulfur Chapter 4 an essential nutrient for proteins and life processes become an overload on these systems Some grasses and grassland ecosystems seem fairly adaptable to burdens in addition to those of weather change and tissue removal How can experts learn to project the future of the heartland of America and other grasslands of the world on the basis of only a few years of observation and control The second opportunity addresses a broader aspect of the project that is of interest to many readers who are not concerned with details of physiology or food chains or the overall productivity and variations of a single plant animal soil community
