

An abstract, expressive drawing in black ink on a vibrant red background. The drawing depicts a face, with the eyes, nose, and mouth area rendered in dark, swirling, and textured strokes. The overall style is reminiscent of a charcoal or ink wash painting, with bold, gestural lines and a high-contrast color palette.

The Dominion of the Dead Robert Pogue Harrison, 2010-04-15 How do the living maintain relations to the dead Why do we bury people when they die And what is at stake when we do In The Dominion of the Dead Robert Pogue Harrison considers the supreme importance of these questions to Western civilization exploring the many places where the dead cohabit the world of the living the graves images literature architecture and monuments that house the dead in their afterlife among us This elegantly conceived work devotes particular attention to the practice of burial Harrison contends that we bury our dead to humanize the lands where we build our present and imagine our future As long as the dead are interred in graves and tombs they never truly depart from this world but remain if only symbolically among the living Spanning a broad range of examples from the graves of our first human ancestors to the empty tomb of the Gospels to the Vietnam Veterans Memorial Harrison also considers the authority of predecessors in both modern and premodern societies Through inspired readings of major writers and thinkers such as Vico Virgil Dante Pater Nietzsche Heidegger and Rilke he argues that the buried dead form an essential foundation where future generations can retrieve their past while burial grounds provide an important bedrock where past generations can preserve their legacy for the unborn The Dominion of the Dead is a profound meditation on how the thought of death shapes the communion of the living A work of enormous scope intellect and imagination this book will speak to all who have suffered grief and loss

Being Given Jean-Luc Marion, 2002-07-31 Along with Husserl's Ideas and Heidegger's Being and Time Being Given is one of the classic works of phenomenology in the twentieth century Through readings of Kant Husserl Heidegger Derrida and twentieth century French phenomenology e g Merleau Ponty Levinas and Henry it ventures a bold and decisive reappraisal of phenomenology and its possibilities Its author's most original work to date the book pushes phenomenology to its limits in an attempt to redefine and recover the phenomenological ideal which the author argues has never been realized in any of the historical phenomenologies Against Husserl's reduction to consciousness and Heidegger's reduction to Dasein the author proposes a third reduction to givenness wherein phenomena appear unconditionally and show themselves from themselves at their own initiative Being Given is the clearest most systematic response to questions that have occupied its author for the better part of two decades The book articulates a powerful set of concepts that should provoke new research in philosophy religion and art as well as at the intersection of these disciplines Some of the significant issues it treats include the phenomenological

definition of the phenomenon the redefinition of the gift in terms not of economy but of givenness the nature of saturated phenomena and the question Who comes after the subject Throughout his consideration of these issues the author carefully notes their significance for the increasingly popular fields of religious studies and philosophy of religion Being Given is therefore indispensable reading for anyone interested in the question of the relation between the phenomenological and the theological in Marion and emergent French phenomenology

English Responses to French Poetry 1880-1940 Jennifer Higgins, 2017-12-02 Between 1880 and 1940 English responses to French poetry evolved from marginalised expressions of admiration associated with rebellion against the establishment to mainstream mutual exchange and appreciation The translation of poetry underwent a simultaneous evolution from attempts to produce definitive renderings to definitions of translation as an ongoing generative process at the centre of literary debate This study traces the impact of French poetry in England via a wide range of translations by major poets of the time as well as renderings by now forgotten writers It explores poetry and translations beyond the limits of the usual canon and identifies key moments of influence from late 19th century English homages to Victor Hugo as a liberal icon to Ezra Pound re interpreting Charles Baudelaire for the 20th century

Politics of Kathy Acker Emilia Borowska, 2019-05-15 Exploring revolutionary politics in the work of one of America's most important avant garde writers Situates Acker in broader social political and historical contexts Offers an extensive analysis of the intersections between politics and literary form asserting Acker's pivotal position in the avant garde tradition in the twentieth century Opens Acker's texts to a range of theory and makes links between literature and other disciplines This study brings the radicalism of Acker's politics back to life Moving beyond conventional accounts of her postmodernism it explores her work as a continuation of the historical avant garde and examines how she took moments and movements from modern history including Russian nihilism Spanish anarchism and the global revolts of the 1960s to create her own political agenda In doing so it presents Acker in a new light a revolutionary voice in an age when such voices are sorely needed
