Seat At The Table A Struggle For Disarmament:

A Seat at the Table - the Struggle for Disarmament Eedson Louis M. Burns, 1972 *The Struggle for Disarmament* E.L.M. Burns (Lt.-Gen.), 1972 **The Struggle for Disarmament** Eedson Louis Millard Burns, 1972 **Canada's Department of External Affairs, Volume 2** John Hilliker, Donald Barry, 1995-04-04

In 1946 with its own minister for the first time the Department of External Affairs embarked on a period of impressive growth and assumed responsibility for a broader range of foreign policy issues than ever before Under the expert guidance of Lester Pearson for a decade the department enjoyed popular and parliamentary consensus about international interests The election of the Diefenbaker government in 1957 deprived the department of Pearson's experienced ministerial direction and exposed it to new priorities and new ways of doing things At this time foreign policy consensus began to erode As well there was pressure to respond to the administrative revolution inaugurated by the Royal Commission on Government Organization the Glassco Commission appointed in 1960 After Pearson returned to office as prime minister in 1963 questioning by the public and also by the governing party and the cabinet became more fervent Coming of Age concludes in 1968 as indications of a challenge to the principles underlying Canadian foreign policy emerged from a new generation of ministers a challenge that would produce major changes after Pierre Trudeau became prime minister

Friends and Enemies J.L. Granatstein, 2024-03-01 Friends and Enemies presents a collection of essays on Canadian foreign policy written by J L Granatstein one of the leading political and military historians in the country The essays cover a period primarily from the Second World War through to the early 2000s and examine policy under prime ministers Mackenzie King Louis St Laurent John Diefenbaker Lester Pearson and Pierre Trudeau Based on interviews and extensive archival research the essays reveal

how Granatstein's views shifted as he reacted to altered conditions in Canada Canadian alliances and the world situation

Mike's World Asa McKercher, Galen Roger Perras, 2017-10-06 Although fifty years have passed since Lester Pearson stepped down as prime minister he still influences debates about Canada's role in the world Known as Mike to his friends he has been credited with charting a Pearsonian course in which Canada took on a global role as a helpful fixer seeking to mediate disputes and promote international cooperation Mike's World explores the myths surrounding Pearsonianism to explain why he remains such a touchstone for understanding Canadian foreign policy Leading and emerging scholars dig deeply into Pearson's diplomatic and political career especially during the 1960s and his time as prime minister Topics range from peacekeeping and Arctic sovereignty to environmental diplomacy and human rights policy They show that competing forces of idealism and pragmatism were key drivers of Pearsonian foreign policy and how global events often influenced politics and society within Canada itself Situating Pearson within his times and as a lens through which to analyze Canadians' views of global affairs this nuanced collection wrestles with the contradictions of Pearson and Pearsonianism and ultimately with the resulting myths surrounding Canada's role in the world

Success and Failure in Arms Control Negotiations April Carter, 1989 Governments have been negotiating about disarmament or more limited forms of arms control for forty years Despite these negotiations weapons of increasing deadliness and sophistication continue to be developed Through the use of case studies of particular negotiations Partial and Comprehensive Test Ban SALT I and II INF and START and MBFR CFE the book explores both the reasons for success and the obstacles leading to failure and assesses the importance of different types of explanation Dr Carter not only analyses the reasons why negotiations fail she also examines the conditions under which they are likely to succeed The result is a balanced comprehensive treatment of the problems and prospects for arms control

Corps Commanders Douglas E. Delaney, 2012-01-01 The five British and Canadian generals depicted in *Corps Commanders* were a surprisingly eclectic lot one a consummate actor one a quiet gentleman one a master bureaucrat one a brainy sort with little will and the last a brain with will to spare And yet they all fit readily into British Commonwealth armies and fought their corps in similar fashion All three Canadians controlled British formations and served under British army commanders and the two Britons worked for and led Canadians as well Such inter army adjustments were relatively simple because they all spoke the same language a common method for solving military problems and communicating solutions Like all senior commanders in the British Commonwealth they learned the language of the staff colleges at Camberley and Quetta and so did the staff officers that served them This allowed a gunner from Montreal to understand a guardsman from London with ease no small advantage when coordinating coalition battles involving tens of thousands of troops In probing how these corps commanders fought Douglas E. Delaney has produced an invaluable study for anyone interested in coalition warfare interoperability or how men managed large formations in war

Kennedy, Macmillan and the Nuclear Test-Ban Debate, 1961-63 K. Oliver, 1997-11-24 Drawing upon newly released official and private papers this book provides an intimate account of Anglo American debates over one of the most grave and politically sensitive foreign policy issues of the early 1960s It examines the roles played by John F Kennedy and

Harold Macmillan in the test ban negotiations between 1961 and 1963 It also describes the way in which contrasting domestic political imperatives and conceptions of how the Cold War could best be won created tensions between the two allies Nevertheless they retained a broad unity of perspective and purpose eventually producing the imaginative diplomacy that resulted in the signing of the Limited Nuclear Test Ban Treaty in August 1963 *Canadian Foreign Policy, 1955-1965* Blanchette,1977-01-15 This volume documents the decade in which Canada's influence on world affairs was at its apex and contains speeches and writings of Lester B Pearson Sydney Smith Howard C Green and Paul Martin **The Road to Peace** Ernie Regehr,Simon Rosenblum,1988-01-01 In 1988 as the Berlin Wall began to quake and the United States and the Soviet Union prepared to slash their nuclear arsenals Canada's government remained firmly tied to a Cold War vision of the world In this book Regehr and Rosenblum assessed the international strategic situation at the very moment that the superpowers nuclear standoff began to melt away Against the backdrop of significant undertakings to halt the drift towards annihilation the authors find much to criticize in Canadian defence policy complicity in reckless American war fighting strategies undue adherence to organizations such as NATO and NORAD whose justifications were fast disappearing a retrograde approach to defending Arctic sovereignty The Road to Peace is a compelling document that vividly conveys the heady atmosphere of the Cold War's apogee *Arms Limitation and the United Nations* Canadian Institute of Strategic Studies,1982 **International Journal** ,1986 **Canada in World Affairs, 1963-1965** Charlotte S.
