**Mr. Collier's Letter Racks** Dror Wahrman,2012-08-29  
Three hundred years ago an unprecedented explosion in inexpensive disposable print newspapers pamphlets informational publications artistic prints ushered in a media revolution that forever changed our relationship to information One unusually perceptive man an obscure Dutch British still life painter named Edward Collier understood the full significance of these momentous changes and embedded in his work secret warnings about the inescapable slippages between author and print meaning and text viewer and canvas perception and reality Working around 1700 Collier has been neglected even forgotten precisely because his secret messages have never been noticed let alone understood Until now In Mr Collier s Letter Racks Dror Wahrman recovers the tale of an extraordinary illusionist artist who engaged in a wholly original way with a major transformation of his generation Wahrman shows how Collier developed a hidden language within his illusionist paintings replete with minutely coded messages witty

games intricate allusions and private jokes to draw attention to the potential and the pitfalls of this new information age A remarkably shrewd and prescient commentator on the changes unfolding around him not least the advent of a new kind of politics following the Glorious Revolution Collier performed a post modernist critique of modernity long before the modern age His trompe l'oeil paintings are filled with seemingly disconnected enigmatic objects letters seals texts of speeches magnifying glasses title pages and with teasingly significant details that require the viewer to lean in and peer closely Wahrman does just that taking on the role of detective cultural historian to unravel the layers of deceptions contained within Collier's extraordinary paintings Written with passionate enthusiasm and including more than 70 color illustrations Mr Collier's Letter Racks is a spell binding feat of cultural history illuminating not only the work of an eccentric genius but the media revolution of his period the birth of modern politics and the nature of art itself *Deceptions and Illusions* S. Ebert-Schifferer, National Gallery of Art (U.S.), 2002 Catalogue of an exhibition held at the National Gallery of Art Washington D C Oct 13 2002 Mar 2 2003 [Environmental Humanities on the Brink](#) Vincent Bruyere, 2023-09-19 In this experimental work of ecocriticism Vincent Bruyere confronts the seeming pointlessness of the humanities amid spectacularly negative future projections of environmental collapse The vanitas paintings of the sixteenth and seventeenth centuries dazzlingly depict heaps of riches alongside skulls shells and hourglasses Sometimes even featuring the illusion that their canvases are peeling away vanitas images openly declare their own pointlessness in relation to the future This book takes inspiration from the vanitas tradition to fearlessly contemplate the stakes of the humanities in the Anthropocene present when the accumulated human record could well outlast the climate conditions for our survival Staging a series of unsettling encounters with early modern texts and images whose claims of relevance have long since expired Bruyere experiments with the interpretive affordances of allegory and fairytale still life and travelogues Each chapter places a vanitas motif canvas debris toxics paper ark meat and light in conversation with stories and images of the Anthropocene from the Pleistocene Park geoengineering project to toxic legacies to in vitro meat Considering questions of quiet erasure and environmental memory this book argues we ought to keep reading even by the flickering light of extinction **Artifice and Illusion** Celeste Brusati, Samuel van Hoogstraten, 1995-11 Samuel van Hoogstraten is familiar to scholars of Dutch art as a talented pupil and early critic of Rembrandt and as the author of a major Dutch painting treatise In this book Celeste Brusati looks at the art writing and career of this multifaceted artist A rich appreciation of one of the most often cited but least understood figures in seventeenth century Dutch art this book will interest scholars and students of art history social history and visual culture **The Contingent Object of Contemporary Art** Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and

video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality
