### **Sebastian Brants The Ship Of Fools In Critical Perspective 18001991:**

The Late Medieval Age of Crisis and Renewal, 1300-1500 Clayton J. Drees, 2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal **Philosophy and the Return to**

**Self-knowledge** Donald Phillip Verene, 1997-01-01 Focusing in particular on the traditions of some of the late Greeks and the Romans Renaissance humanism and the thought of Giambattista Vico this book's concern is to revive the ancient Delphic injunction know thyself an idea of civil wisdom that Verene finds has been missing since Descartes The author recovers the meaning of the vital relations that poetry myth and rhetoric had with philosophy in thinkers like Cicero Quintilian Isocrates Pico Vives and Vico

**The Mirror of Justice** Theodore Ziolkowski, 2018-06-05 This book studies major works of literature from classical antiquity to the present that reflect crises in the evolution of Western law the move from a prelegal to a legal society in The Eumenides the Christianization of Germanic law in Njal's Saga the disenchantment with medieval customary law in Reynard the Fox the reception of Roman law in a variety of Renaissance texts the conflict between law and equity in Antigone and The Merchant of Venice the eighteenth century codification controversy in the works of Kleist the modern debate between pure and free law in Kafka's The Trial and other fin de siècle works and the effects of totalitarianism the theory of universal guilt and anarchism in the twentieth century Using principles from the anthropological theory of legal evolution the book locates the works in their legal contexts and traces through them the gradual dissociation over the centuries of law and morality It thereby associates and illuminates these masterpieces from an original point of view and contributes a new dimension to the study of literature and law In contrast to prevailing adherents of Law and Literature this book professes Literature and Law in which the emphasis is historical rather than theoretical substantive rather than

rhetorical and literary rather than legal Instead of adducing the literary work to illustrate debates about modern law this book consults the history of law as an essential aid to the understanding of the literary text and its conflicts **Historical Dictionary of German Literature to 1945** William Grange, 2010-12-18 Historical Dictionary of German Literature to 1945 covers a wide swath of literary analysis and achievement from Old High German lays and ecclesiastical encomia to Middle High German epics sagas and love lyrics While extensive in its chronological dimension the Historical Dictionary of German Literature to 1945 is equally comprehensive in the geographical and genre areas it covers The history of this period in German literature is told through a detailed chronology an introductory essay a comprehensive bibliography and over 200 cross referenced dictionary entries on poetry novels historical narrative philosophical musings and drama The exceptional writers who emerged and shaped German literature over the centuries including Walther von der Vogelweide Johann Jakob Christoffel von Grimmelshausen Gotthold Ephraim Lessing Johann Wolfgang Goethe Friedrich Schiller Heinrich Heine Friedrich Nietzsche Thomas Mann and many others who are well known and admired worldwide are also covered

Literature Criticism from 1400 to 1800 ,2005 **Genealogies of Legal Vision** Peter Goodrich, Valérie

Hayaert, 2015-06-05 It was the classical task of legal rhetoric to make law both seen and understood These conjoint goals came to be separated and opposed in modernity and a degree of blindness ensued Legal reason was increasingly deemed to be a purely textual enterprise Against this constraint and in furtherance of an incipient visual turn in legal studies Genealogies of Legal Vision seeks to revive the classical *ars iuris* and to this end traces the history of regimes of visual control Law always relied in significant measure upon the use of visual representations upon pictures architecture costume and statuary to convey authority and sovereign norm Military religious administrative and legal insignia found juridical codification and expression in collections of signs of office in heraldic codes in genealogical devices and then finally in the juridical invention in the mid sixteenth century of the legal emblem book Genealogies of Legal Vision traces the complex lineage of the legal emblem and argues that the *mens emblematica* of the humanist lawyers was the inauguration of a visiocentric regime that continues into the multiple new technologies and novel media of contemporary governance Bringing together leading experts on the history and art of legal emblems this collection provides a ground breaking account of the long relationship between visibility meaning and normativity *Tudor England* Arthur F. ### **A History of Madness in Sixteenth-Century Germany**

H. C. Erik Midelfort, 1999 This magisterial work explores how Renaissance Germans understood and experienced madness It focuses on the insanity of the world in general but also on specific disorders examines the thinking on madness of theologians jurists and physicians and analyzes the vernacular ideas that propelled sufferers to seek help in pilgrimage or newly founded hospitals for the helplessly disordered In the process the author uses the history of madness as a lens to illuminate the history of the Renaissance the Reformation and Counter Reformation the history of poverty and social welfare and the history of princely courts state building and the civilizing process Rather than try to fit historical experience into modern psychiatric categories this book reconstructs the images and metaphors through which Renaissance Germans themselves understood and experienced mental illness and deviance ranging from such bizarre conditions as St Vitus's dance and demonic possession to such medical crises as melancholy and mania By examining the records of shrines and hospitals where the mad went for relief we hear the voices of the mad themselves For many religious Germans sin was a form of madness and the sinful world was thoroughly insane This book compares the thought of Martin Luther and the medical religious reformer Paracelsus who both believed that madness was a basic category of human experience For them and others the sixteenth century was an age of increasing demonic presence the demon possessed seemed to be everywhere For Renaissance physicians however the problem was finding the correct ancient Greek concepts to describe mental illness In medical terms the late sixteenth century was the age of melancholy For jurists the customary insanity defense did not clarify whether melancholy persons were responsible for their actions and they frequently solicited the advice of physicians Sixteenth century Germany was also an age of folly with fools filling a major role in German art and literature and present at every prince and princeling's court The author analyzes what Renaissance Germans meant by folly and examines the lives and social contexts of several court fools

Das Narrenschiff Sebastian Brant, 2010-11-22 Sebastian Brant's 1457-1521 Hauptwerk Das Narrenschiff 1494ff war bis zu Goethes Werther das erfolgreichste Buch in deutscher Sprache Die Moralsatire führt in 112 Kapiteln ebenso viele Narrentypen und ihre menschlichen Torheiten vor die Zeitgenossen zur Einsicht und Umkehr zu bewegen Bemerkenswert ist die enge Verbindung von Text und Bild die zu ihrer Zeit wesentlich zu Wirkung und Verbreitung des Buches beigetragen hat Die vierte Auflage der Studienausgabe bietet den Vorteil da sie den Forschungsschub im

Zusammenhang mit dem 500 Geburtstag des Buchs im Jahre 1994 berücksichtigen kann und damit auch bibliographisch den neuesten Stand darstellt. Brant hat sein Narrenschiff aber nicht nur mit Narren befrachtet sondern auch mit beträchtlichem Bildungsgut. Das 500 Jahre nach Erscheinen des Werkes nicht geringe Verständnisschwierigkeiten bereitet. Um dem heutigen Leser den Zugang zum Text zu erleichtern bietet die Neuausgabe deshalb erstmals auch Auskünfte die Brants zahlreiche Hinweise auf die Bibel auf Gestalten der antiken Mythologie und Literatur auf historische wie zeitgenössische Ereignisse und Schemata auf Lehren der Kirchenväter auf kirchliches wie weltliches Recht und dazu erschließen helfen.

**Fifteenth-Century Studies** Edelgard E. DuBruck, Barbara Gusick, 2001-03. Founded in 1977 as the publication organ for the Fifteenth Century Symposium. Fifteenth Century Studies has appeared annually since then. It publishes essays on all aspects of life in the fifteenth century including literature, drama, history, philosophy, art, music, religion, science, and ritual and custom. The editors strive to do justice to the most contested medieval century, a period that is the stepchild of research. The period defies consensus on fundamental issues, some dispute in fact whether the fifteenth century belonged at all to the middle ages, arguing that it was a period of transition, a passage to modern times. At issue therefore is the very tenor of an age that stood under the tripartite influence of Gutenberg, the Turks, and Columbus. Volume 26 contains the customary survey of research on late medieval drama. There are six articles on French literature, four on German topics, two on Italian art, one on Spanish medieval predication, and three on English literary matters. Six of the articles focus on women and misogyny. Further topics include popular approaches to problems of daily living, the crusades, and mysticism, an early warning against excess in travel and exploration, the conduct of princes as described in chronicles, the so-called Pope Joan theater, including farces, passion pageants, and triumphant entries of princes, critique of the estates, the function of authors and their rights, duties, and privileges. There are 17 book reviews and two obituary dedications. The volume has been assembled with special care for style, excellence of research, and variety of approaches.

Edelgard DuBruck is professor emerita of Modern Languages at Marygrove College, Detroit, Michigan. Barbara Gusick is professor emerita of English at Troy University, Dothan, Alabama.
