The Human Shore John R. Gillis, 2012-10-17 Since before recorded history people have congregated near water But as growing populations around the globe continue to flow toward the coasts on an unprecedented scale and climate change raises water levels our relationship to the sea has begun to take on new and potentially catastrophic dimensions The latest generation of coastal dwellers lives largely in ignorance of the history of those who came before them the natural environment and the need to live sustainably on the world's shores Humanity has forgotten how to live with the oceans In *The Human Shore* a magisterial account of 100 000 years of seaside civilization John R Gillis recovers the coastal experience from its origins among the people who dwelled along the African shore to the bustle and glitz of today's megacities and beach resorts He takes readers from discussion of the possible coastal location of the Garden of Eden to the ancient communities that have existed along beaches bays and bayous since the beginning of human society to the crucial role played by coasts during the age of discovery and empire An account of the mass movement of whole populations to the coasts in the last half century brings the story of coastal life into the present Along the way Gillis addresses humankind's changing relationship to the sea from an environmental perspective laying out the history of the making and remaking of coastal landscapes the creation of ports the draining of wetlands the introduction and extinction of marine animals and the invention of the beach while giving us a global understanding of our relationship to the water Learned and deeply personal *The Human Shore* is more than a history it is the story of a space that has been central to the attitudes plans and existence of those who live and dream at land's end

Poetry Los Angeles Laurence Goldstein, 2014-03-12 Is there such a thing as Los Angeles poetry How do we assess a poem about a city as elusive of identity as Los Angeles What features do poems about this unique urban landscape of diverse peoples and terrains have in common Poetry Los Angeles is the first book to gather and analyze poems about sites as different as Hollywood Santa Monica and Venice beaches the freeways downtown South Central and East L A Laurence Goldstein presents original commentary on six decades of poets who have contributed to the iconography and

poetics of Los Angeles literature including Elizabeth Alexander Jimmy Santiago Baca Dorothy Barresi Victoria Chang Wanda Coleman Dana Gioia Joy Harjo James Harms Robert Hass Eloise Klein Healy Garrett Hongo Suzanne Lummis Paul Monette Harryette Mullen Carol Muske Dukes Frederick Seidel Gary Soto Timothy Steele Diane Wakoski Derek Walcott and Charles Harper Webb Forty poems are reproduced in their entirety One chapter is devoted to Charles Bukowski the celebrity face of the city's poetry Other chapters discuss the ways that poets explore Interiors and Exteriors throughout the cityscape Goldstein also provides ample connections to the novels films art and politics of Southern California In clear prose Poetry Los Angeles examines the strategies by which poets make significant places meaningful and memorable to readers of every region of the U S and elsewhere **Pastor's Annual 2010** T. T. Crabtree, 2009-08-10 This annual bestselling resource for preachers provides a planned preaching program for an entire year including Sunday morning Sunday evening and midweek sermons as well as helps for special occasions such as weddings funerals and youth meetings *Venezuela* Jane Kohen Winter, Kitt Baguley, 2012-01-15 This book provides comprehensive information on the geography history wildlife governmental structure economy cultural diversity peoples religion and culture of Venezuela All books of the critically acclaimed Cultures of the World series ensure an immersive experience by offering vibrant photographs with descriptive nonfiction narratives and interactive activities such as creating an authentic traditional dish from an easy to follow recipe Copious maps and detailed timelines present the past and present of the country while exploration of the art and architecture help your readers to understand why diversity is the spice of Life **God's Church-Community** David Emerton, 2020-07-09 David Emerton argues that Dietrich Bonhoeffer's ecclesial thought breaks open a necessary third way in ecclesiological description between the Scylla of ethnographic ecclesiology and the Charybdis of dogmatic ecclesiology Building on a rigorous and provocative discussion of Bonhoeffer's thought Emerton establishes a programmatic theological grammar for any speech about the church Emerton argues that Bonhoeffer understands the church as a pneumatological and eschatological community in space and time and that his understanding is built on eschatological and pneumatological foundations These foundations in turn give rise to a unique methodological approach to ecclesiological description an approach that enables Bonhoeffer to proffer a genuinely theological account of the church in which both divine and human agency are held together through an account of God the Holy Spirit Emerton proposes that this approach is the perfect remedy for an endemic problem in contemporary accounts of the church that of attending either to the human empirical church community ethnographically or to the life of God dogmatically and to each problematically at the expense of the other This book will act as a clarion call towards genuinely theological ecclesiological speech which is allied to real ecclesial action

The Church at War Kilton Moyo, 2014-03-04 The Church at War is an interesting book that seeks to inspire believers into practical works that can transform communities In this book the author is calling the Body of Christ back to its fighting faith and calling in order to manifest the love and the kingdom of God in the communities that are afflicted by so many issues

The church seems to have gone to sleep and to be sidetracked by other doctrines that could be a deception and a way of making the whole church lukewarm and not effective The book reminds the church that the gospel of Jesus Christ is confrontational in its nature and focuses and requires a church that has a great appetite to engage therefore Kilton calls on the church to put on a warrior attitude and resist the schemes of the devil imposed on the communities in the nations *Let God Be True and Every Man a Liar* Victor Perez,2013-06-17 We as the church are being looked at by the lost world as a bunch of hypocrites We need to seriously consider this viewpoint in how we are evangelizing the lost Currently there are 3 500 people leaving the church from all denominations daily This is definitely not the Lords plan for the Body of Christ Another statistic showed that from the years 2000 to 2008 20 million people left the North American church from all denominations Matthew 11 28 NAS reads Come to Me all you who are weary and heavy laden and I will give you rest When the Lord Jesus Christ uses the term all He is referring to every single person on Earth When the church uses the term all they are referring to only those who belong to their denomination This should not be I truly believe that the Lord Jesus wants to redefine who He wants to be in each and every one of our lives if we let Him The question is do we want Him to or are we comfortable with where we are operating as different denominational churches What the world is experiencing currently is testimony that business as usual has ended for the entire church world The Making of the Lost World, Jurassic Park Jody Duncan,1997 Hollywood hit maker Steven Spielberg wowed the world with his Oscar winning film version of Michael Crichton s bestseller Jurassic Park The mighty dinosaurs return to the screen in this summer s The Lost World This fascinating book slips behind the cameras and into the studios and workshops and goes on location to provide a look at how the mega movie sequel was made Color photos throughout **The Call of Distant Mammoths** Peter D. Ward,2012-12-06 Just 12 000 years ago at the height of the last Ice Age saber toothed tigers giant ground sloths camels hippos and the great herds of proboscideans giant mastodons and mammoths extinct relatives of the elephant roamed the land where skyscrapers now stand Why are these splendid creatures no longer with us This compelling book explores the reasons for these extinctions and provides a tour of mass extinctions throughout earth s history including the great comet crash that killed off the dinosaurs Brilliantly written The Call of Distant Mammoths is an engaging exploration of the history of life and the importance of humanity as an evolutionary force **The Wallflower Avant-Garde** Brian Glavey,2015-10-01 The Wallflower Avant Garde highlights a strain of formalism visible in both modernist literature and contemporary queer studies drawing attention to an aesthetic that is as quiet and quirky as it is queer In studies of Gertrude Stein Djuna Barnes Richard Bruce Nugent Frank O Hara and John Ashbery Brian Glavey argues for a recalibrated understanding of the relation between sexuality and the aesthetic revealing a non oppositional avant gardism that opts out of some of the binaristic imperatives that have structured recent debates in queer theory Refusing to decide between positive and negative affects or to side with either utopian or antisocial ambitions The Wallflower Avant Garde explores models of reading and writing about art that

remain flexible enough to dig deep even as they gloss the surface At the heart of this argument is a revaluation of modernist ekphrasis a mode understood as literature s imitation or description of the visual arts From the well wrought urns of the New Critics onward ekphrasis has figured prominently in the legacy of modernist literary criticism but a tendency to read its complicated modes of relationality in terms of either autonomy or antagonism has obscured the forms of creative failure and imitation embodied in the desire to confuse poetry for pottery Attending to mimetic and descriptive strategies without dismissing the aspirations for wholeness and closure that often animate them allows for the recognition that queerness and modernism are intertwined in unexpected and unpredictable ways revealing new insights into the varieties of abstraction preterition and spatial form that stand behind modernism s investment in the aesthetic The New Voice in Race Adjustments Arcadius McSwain Trawick,1914 **Giants of the Past** Lisa Hopkins,2004 This book considers the ways in which the idea of evolution has been used in popular fiction focusing mainly on novels of the Victorian and Edwardian periods but also including a closing section on Steven Spielberg s first two Jurassic Park films The book s overall argument is that in many of these texts the version of origins proffered by Darwinian theory is suggestively played off against both the version of human origins offered by Milton and the book suggests implicitly supported by Shakespeare and the version of national origins offered by Virgil and by the myth of Brutus legendary grandson of Aeneas and supposed first founder of Britain Nevertheless although these novels tend to give such prominence to alternatives to Darwinian theory they are also very ready to draw on any aspects of it which will lend support to their own agendas especially when it comes to drawing sharp distinctions between races and sexes Although Darwinian theory posed challenges to contemporary orthodoxies and pieties it could thus also be used in the support of some of them
