"Sculpting Simulacra in Medieval Germany, 1250-1380 " Assaf Pinkus, 2017-07-05 Engaging with the imaginative nonreligious response to Gothic sculpture in German speaking lands and tracing high and late medieval notions of the living statue and the simulacrum in religious lay and travel literature this study explores the subjective and intuitive potential inherent in thirteenth and fourteenth century sculpture It addresses a range of works from the oeuvre of the so called Naumburg Master through Freiburg im Breisgau to the imperial art of Vienna and Prague As living simulacra the sculptures offer themselves to the imaginative horizons of their viewers as factual presences that substitute for the real In perceiving Gothic sculpture as a conscious alternative to the sacred imago the book offers a new understanding of the function production and use of three dimensional images in late medieval Germany By blurring the boundaries between viewers and works of art between the imaginary and the real the sculptures invite the speculations of their viewers and in this way produce an unstable meaning perpetually mutable and alive The book constitutes the first art historical attempt to theorize the idiosyncratic character of German Gothic sculpture much of which has never been fully documented and provides the first English language survey of the historiography of these works **Arts and Activities** , 1984 *The Poetics of Appearance in the Attic Korai* Mary Stieber, 2010-01-01 Some of the loveliest works of Archaic art were the Athenian korai sculptures of beautiful young women presenting offerings to the goddess Athena that stood on the Acropolis Sculpted in the sixth and early fifth centuries B C they served as votives until Persians sacked the citadel in 480 79 B C Subsequently they were buried as a group and forgotten for nearly twenty four centuries until archaeologists excavated them in the 1880s Today they are among the treasures of the Acropolis Museum Mary Stieber takes a fresh look at the Attic korai in this book Challenging the longstanding view that the sculptures are generic female images she persuasively argues that they are instead highly individualized mimetically realistic representations of Archaic young women perhaps even portraits of real people Marshalling a wide array of visual and literary evidence to support her claims she shows that while the korai lack the naturalism that characterizes later Classical art they display a wealth and realism of detail that makes it impossible to view

them as generic idealized images This iconoclastic interpretation of the Attic korai adds a new dimension to our understanding of Archaic art and to the distinction between realism and naturalism in the art of all periods *Absentees* Daniel Heller-Roazen, 2021-03-09 An intellectually adventurous account of the role of nonpersons that explores their depiction in literature and challenges how they are defined in philosophy law and anthropology In thirteen interlocking chapters *Absentees* explores the role of the missing in human communities asking an urgent question How does a person become a nonperson whether by disappearance disenfranchisement or civil social or biological death Only somebody can become a nobody but as Daniel Heller Roazen shows the ways of being a nonperson are as diverse and complex as they are mysterious and unpredictable Heller Roazen treats the variously missing persons of the subtitle in three parts Vanishings Lessenings and Survivals In each section and with multiple transhistorical and transcultural examples he challenges the categories that define nonpersons in philosophy ethics law and anthropology Exclusion infamy and stigma mortuary beliefs and customs children s games and state censuses ghosts and dead souls illustrate the lives of those lacking or denied full personhood In the archives of fiction Heller Roazen uncovers figurations of the missing from Helen of Argos in Troy or Egypt to Hawthorne s Wakefield Swift s Captain Gulliver Kafka s undead hunter Gracchus and Chamisso s long lived shadowless Peter Schlemihl Readers of *The Enemy of All* and *No One s Ways* will find a continuation of those books intense intellectual adventures with unexpected questions and arguments arising every step of the way In a unique voice Heller Roazen s thought and writing capture the intricacies of the all too human absent and absented *Sculptures Friends of Community* Public Art (Joliet, Ill.), 2006 Friends of Community Public Art FCPA is an example of how an organization can make a positive and exciting difference to an entire city through creative contributions Their public art program has transformed the City of Joliet Illinois by engaging residents in creating and viewing art honoring its noted citizens through commemorative poetry sculpture and murals heightening public awareness of the history of their city and exposing people of all ages and backgrounds to a variety of art forms The education therefore is not limited to the stories told by the art but is also in the works of art themselves The collaborative effort between FCPA and the City of Joliet is an example of how art can bring new life to a community and engage its citizens in a shared pride in what distinguishes their City through public art BOOK JACKET **The Texas Women's Hall of Fame** Sinclair Moreland, 1917 These biographical sketches of women from Texas focus on their trials and courage during times of war and thereby glorify the self sacrifice and suffering of womanhood

American Iconology David C. Miller, 1993-01-01 This overview of the sister arts of the nineteenth century by younger scholars in art history literature and American studies presents a startling array of perspectives on the fundamental role played by images in culture and society Drawing on the latest thinking about vision and visuality as well as on recent developments in literary theory and cultural studies the contributors situate paintings sculpture monument art and literary images within a variety of cultural contexts The volume offers fresh and sometimes extended discussions of single works as

well as reevaluations of artistic and literary conventions and analyses of the economic social and technological forces that gave them shape and were influenced by them in turn A wide range of figures are significantly reassessed including the painters Charles Willson Peale Washington Allston Thomas Cole George Caleb Bingham Fitz Hugh Lane and Mary Cassatt and such writers as James Fenimore Cooper Nathaniel Hawthorne Henry David Thoreau and William Dean Howells One overarching theme to emerge is the development of an American national subjectivity as it interacted with the transformation of a culture dominated by religious values to one increasingly influenced by commercial imperatives The essays probe the ways in which artists and writers responded to the changing conditions of the cultural milieu as it was mediated by such factors as class and gender modes of perception and representation and conflicting ideals and realities
