Modelling Welfare State Reform:

Modelling Welfare State Reform G.M.M. Gelauff,J.J. Graafland,2014-06-28 In order to analyze the economic effects of various policy proposals for reforming the welfare state a model has been developed called MIMIC The structure of this model is presented in the first part of this book The model combines various modern labour market theories with a detailed description of relevant labour market institutions in an applied general equilibrium context The second part of the volume contains an elaborate presentation of the simulation results of MIMIC such as various tax policies a reduction in benefits or the official minimum wage individualization of the tax and social security system and the introduction of negative income tax The model has proved to be a unique instrument for policy evaluation for the Netherlands **Handbook on Welfare State Reform** Bernhard Ebbinghaus,Maira Nelson,2025-08-11 This comprehensive Handbook examines the capacity of advanced welfare states to adapt to sustained pressures and unforeseen crises It explores the enduring relevance of established frameworks in explaining welfare state change as well as their effectiveness in addressing essential areas for reform

Citizenship and Welfare State Reform in Europe Jet Bussemaker,2003-12-16 This volume analyses citizenship in relation to recent changes in European welfare states It examines concrete changes in social rights and citizenship roles and offers normative investigations of citizenship **The Sovereign Debt Crisis, the EU and Welfare State Reform** Caroline De La Porte,Elke Heins,2016-08-09 This book offers a much needed analysis of how the European Union EU has affected welfare state reforms in the Member States most severely hit by the 2008 economic crisis Bringing together leading European social policy researchers it shows that the EU s responses to the sovereign debt crisis have changed the nature of EU intervention into domestic welfare states with an enhanced focus on fiscal consolidation increased surveillance and enforcement of EU measures The authors demonstrate how this represents an unprecedented degree of EU involvement in domestic social and labour market policies Readers will also discover how greater demands to attain balanced budgets have been institutionalized leading to tensions with the EU s social investment strategy This highly informative edited collection will engage students social policy practitioners and researchers scholars of the welfare state and political scientists div div

Theory and Methods in Comparative Policy Analysis Studies Iris Geva-May,B. Guy Peters,Joselyn Muhleisen,2020-06-09 Volume One of the Classics of Comparative Policy Analysis Theory and Methods in Comparative Policy Analysis Studies includes chapters that apply or further theory and methodology in the comparative study of public policy in general and policy analysis in particular Throughout the volume the chapters engage in theory building by assessing the relevance of theoretical approaches drawn from the social sciences as well as some which are distinctive to policy analysis Other chapters focus on various comparative approaches based on developments and challenges in the methodology of policy analysis Together this collection provides a comprehensive scholastic foundation to comparative policy analysis and comparative policy studies Theory and Methods in Comparative Policy Analysis Studies will be of great interest to scholars

and learners of public policy and social sciences as well as to practitioners considering what can be learned or facilitated through methodologically and theoretically sound approaches The chapters were originally published as articles in the Journal of Comparative Policy Analysis which in the last two decades has pioneered the development of comparative public policy The volume is part of a four volume series the Classics of Comparative Policy Analysis including Theories and Methods Institutions and Governance Regional Comparisons and Policy Sectors Each volume showcases a different new chapter comparing domains of study interrelated with comparative public policy political science public administration governance and policy design authored by the JCPA co editors Giliberto Capano Iris Geva May Michael Howlett Leslie A Pal and B Guy Peters

European Social Models from Crisis to Crisis Jon Erik Dølvik, Andrew Martin, 2015 This book analyzes the interaction of European social models the institutions structuring labor markets supply side and their turbulent macroeconomic environment from the deep Europe wide recession ending Germanys post unification boom through monetary union s establishment to the Great Recession following the recent financial crisis The analysis reaches two conclusions challenging the dominant view that the social models caused unemployment by impairing labor markets efficiency in the name of equity First the social models employment and distributive effects are far outweighed by their macroeconomic environment especially in the Eurozone where its truncated structure of economic governance transformed the Great Recession into a sovereign debt crisis Second instead of a trade off between efficiency and equity the employment effects of counteracting markets tendency to generate inequality depends on the macroeconomic conditions under which it occurs and how it is done

The Oxford Handbook of Governance and Public Management for Social Policy Karen J. Baehler, 2023 Public administration plays an integral role at every stage of social policy creation and execution Program operators management decisions shape policymakers perceptions of what can and should be accomplished through social programs while public administrators wield considerable power to mobilize tangible and intangible resources and fill gaps in policy designs Furthermore the cumulative effects of public administrators daily activities directly influence outcomes for program participants and may shift policy itself Location also matters to social policy as those same administrators are expected to innovate continuously in response to shifting local and national conditions including changes in budgetary allocations client needs and capacities and public attitudes This Handbook will aim to capture what is being learned across six geographical regions Africa Asia Australasia Europe Latin America and the U S and Canada Specifically each regional section will contain 6 10 chapters canvassing a particular set of promising practices or emerging challenges at the regional or sub regional level in addition to a brief overview written by the section editor The regional sections will be flanked by integrative chapters As a whole the volume contains 65 chapters

Knowledge Production in European Universities Kwiek Marek, 2012-11-23 The book studies transformations of European universities in the context of globalization and Europeanization the questioning of the foundations of the Golden Age of the Keynesian welfare state public sector reforms

demographic changes the massification and diversification of higher education and the emergence of knowledge economies Such phenomena as academic entrepreneurialism and diversified channels of knowledge exchange in European universities are linked to transformations of the state and changes in public sector services The first contextual part of the book studies the changing state university relationships and the second empirically informed part draws from several recent large scale comparative European research projects Changing Models of Capitalism in Europe and the U.S. Richard Deeg, Gregory Jackson, 2016-04-14 The volume analyzes the long term trajectories of change in the capitalist models of the UK Germany Sweden France Italy Hungary Slovakia and the United States The case studies identify critical junctures and key periods of change in order to show how institutions are shaped by different sets of socio political compromises and public policy The case studies follow a common methodology comparing change and linkages across six core institutional domains thus facilitating a comparative understanding of the patterns and drivers of institutional change as well as how liberalisation impacts countries in similar and dissimilar ways The historical perspective of the cases highlights the transformative effects of relatively slow and incremental changes These case studies also make an innovative contribution to examining the linkages between four levels of institutions that regulate the economy the international macro national meso and micro The volume reveals both a common trend toward more liberal forms of capitalism but also variations on this overarching trajectory Markets themselves create their own dynamics which have varied effects on firms and other economic actors in historically diverse institutional contexts This book was originally published as a special issue of the Journal of European Public Policy

The Politics of Work-Family Policy Reforms in Germany and Italy Agnes Blome, 2016-11-25 One of the fundamental challenges facing modern welfare states is the question of work family reconciliation An increasing share of mothers work but many European welfare states do not adequately support the dual earner model especially in southern Europe After 2005 German policy makers transformed the nature of Germany's family policy regime through a number of legislative measures whilst Italy a country with many similarities witnessed little change Using a multi methods approach this book addresses the puzzle of why Germany was able to implement far reaching reforms in this policy area after a long impasse and Italy was not As such it delivers a broad systematic account of these reforms and sheds light on why similar reforms were not also adopted in other similar welfare states at the same time More generally it contributes to understanding the determinants of welfare policy change in modern European welfare states This text will be of key interest to scholars students and professionals working on topics linked to European politics welfare and work family policies comparative politics social policy and more broadly to political science and gender studies The Theory of Social Democracy Thomas Meyer, Lewis Hinchman, 2007-09-24 The ascendancy of neo liberalism in different parts of the world has put social democracy on the defensive Its adherents lack a clear rationale for their policies Yet a justification for social democracy is implicit in the United Nations Covenants on Human Rights ratified by most of the worlds countries The covenants commit all nations to guarantee

that their citizens shall enjoy the traditional formal rights but they likewise pledge governments to make those rights meaningful in the real world by providing social security and cultural recognition to every person This new book provides a systematic defence of social democracy for our contemporary global age The authors argue that the claims to legitimation implicit in democratic theory can be honored only by social democracy libertarian democracies are defective in failing to protect their citizens adequately against social economic and environmental risks that only collective action can obviate Ultimately social democracy provides both a fairer and more stable social order But can social democracy survive in a world characterized by pervasive processes of globalization This book asserts that globalization need not undermine social democracy if it is harnessed by international associations and leavened by principles of cultural respect toleration and enlightenment The structures of social democracy must in short be adapted to the exigencies of globalization as has already occurred in countries with the most successful social democratic practices Basic Income, Unemployment and Compensatory Justice Loek Groot, 2012-11-06 Basic income is a regularly debated topic in various scholarly disciplines political philosophy political theory welfare economics labour market economics and social policy and in circles of policy makers administrators and activists Since the late 1970s unemployment is the primary problem for social economic policy in all welfare states In Basic Income Unemployment and Compensatory Justice it is argued that implementing a substantial basic income is the best policy response to deal with unemployment induced problems such as job insecurity social exclusion poverty and lack of compensatory justice on the labour market and to improve labour market flexibility boost low wage employment and part time work Basic Income Unemployment and Compensatory Justice with an introductory chapter by Philippe van Parijs discusses the attractiveness of a substantial basic income to deal with the problem of unemployment in combination with an ethical perspective of social justice Loek Groot is a senior lecturer at the Utrecht School of Economics

Models of Hysteresis Augusto Visintin, 1993-06-05 Hysteresis effects appear in several physical phenomena such as ferromagnetism ferroelectricity and plasticity They also appear in many fields of engineering This state of the art volume provides a unique insight into this relatively new but rapidly developing topic of applied mathematics The European Social Model Adrift Serena Romano, Gabriella Punziano, 2016-03-09 This volume presents a new perspective for discussing the European social contract and its main challenges bringing together single nation and comparative studies from across Europe Presenting both theoretical discussions and empirical case studies it explores various aspects of social cohesion including social protection the labour market social movements healthcare social inequalities and poverty With particular attention to the effects of the international economic and financial crisis on social cohesion particularly in the light of the implementation of so called austerity measures authors engage with questions surrounding the possible fragmentation of the European model of social cohesion and the transformation of forms of social protection asking whether social cohesion continues to represent if it ever did a common feature of European countries Breaking new ground in understanding the

future of Social Europe and its main dynamics of change The European Social Model Adrift will appeal to scholars of sociology social policy and politics with interests in social cohesion the effects of financial crisis and the European social model *Alternative Political Economy Models of Transition* Marangos, *Alternative Political Economy Models of Transition* John Marangos, 2017-07-05 The collapse of centrally administered socialism in Russia and Eastern Europe resulted in what is commonly referred to as the transition problem the transformation from a centrally administered socialist economic system to one that is market based Economic science has been faced with the challenge of developing an appropriate body of analysis advice and direction to help other nations that may be undergoing this process In this volume John Marangos adopts a political economy approach that yields alternative models of transition The volume develops transition models from what Marangos defines as the primary elements of six variables 1 economic analysis 2 definitions of the Good Society 3 speed of transition 4 political structure 5 ideological structure and 6 initial conditions The models developed include the shock therapy model the neoclassical gradualist model of transition the post Keynesian model the pluralistic market the socialist model and the non pluralistic market socialist model After identifying the primary elements of each transition model Marangos considers the elements of each model with respect to the desirable reforms An essential element of the transition process is not only to identify the necessary reforms but also a sequence in which the reforms should be introduced For each transition model developed in this book a set of primary and secondary elements were provided in conjunction with a sequence of reforms Analyzing the transition problem from a political economy perspective Marangos shows that it is possible to have inconsistencies within each transition model and between transition models yet be able to identify the potential for implementation and maintenance of necessary reforms each model recommends This volume contributes to the understanding of the process of transition with the objective of identifying an optimal model of transition

European Employment Models in Flux G. Bosch, S. Lehdorff, J. Rubery, 2009-03-31 A new contribution to the debate on the evolution of European employment and social models These models need to adjust to meet new challenges including globalization ageing societies and new governance approaches at national EU and international level This book explores these issues through the experiences of nine EU countries **Job Insecurity and Life Courses** Sonia Bertolini, Valentina Goglio, Dirk Hofäcker, 2024-01-31 Drawing from interviews and survey data across the EU and the UK this in depth study explores how worker instability is perceived and experienced and how this perception in turn affects individuals economic and social situation Using intersectional analysis the authors identify groups who are more prone to labour market risks

Economic Assessment of Election Programmes Johan J. Graafland, Arie P. Ros, 2012-12-06 In the Netherlands the election programmes of the political parties are assessed for their economic impact by an independent economic bureau The result of this analysis is published just before the elections take place In this way the voter will be protected against political parties that try to win the elections by making popular but unfounded financial promises Economic Assessment of Election

Programmes contains contributions of several distinguished economists and philosophers who consider the gains of this procedure to society Does the analysis by the Netherlands Bureau for Economic Policy Analysis CPB raise the democratic quality of the elections Can we really be confident in the tools of economics The last section of this volume states the opinion of representatives of the political parties This part also clarifies why political parties voluntarily participate in this process and how they perceive the role division between the political party and CPB

Surviving Globalization? Stefan Beck, Frank Klobes, Christoph Scherrer, 2005-04-04 society and state Streeck 1999 Simonis 1998 Interspersed between these most commonly named elements are the following First the high political integrating force of the German Model after WWII was based on the adoption and transformation of corporatist political structures from National Socialist Germany Liberal capitalism was re introduced under political competition between Christian Democrats and Social Democrats who eventually found common ground in the politically mediated compromise between capital and labor This compromise was negotiated and institutionalized at a time when the communist wing of the workers movement and the authoritarian voices of German capital for various reasons were excluded from political participation Streeck 1999 p 15 translation SB The partnership between firms and unions manifested itself in manifold institutional structures Apart from the social partners autonomy in matters of wage policy worker codetermination at plant level and in operations is regarded as one of the special achievements of the German Model and has contributed substantially to social peace The political coordination forms of concerted action round tables as well as modernization and crisis cartels gave birth to a highly complex political decision making structure which based on a federalist setup has rightly been called negotiation state Esser 1998 p 123 Second the material foundation of this Social Democratic class compromise Buci Glucksmann Therborn 1981 consisted in the Federal Republic s in the words of G ste Esping Andersen conservative liberal form of welfare state
