Models Of Achievement Vol 2 Reflections Of Eminent Women In Psychology:

Models of Achievement Agnes N. O'Connell, Nancy Felipe Russo, 1988 Models of Achievement Agnes N. O'Connell, Nancy Felipe Russo, 2014-03-18 Providing role models of excellence for contemporary women and men and contributing to the understanding of the educational and career development of high achieving women these autobiographical essays of seventeen women and their achievements generate a deeper appreciation of the vital role of women in the development of contemporary psychology **Reflections from Pioneering Women in Psychology** Jamila Bookwala, Nicky J. Newton, 2022-04-14 Records the academic paths of ground breaking women psychologists in their own words their triumphs decisions obstacles and legacies **Frank and Lillian Gilbreth** Michael C. Wood, John Cunningham Wood, 2003 First published in 2004 Routledge is an imprint of Taylor Francis an informa company **21st Century Psychology: A Reference Handbook** Stephen F. Davis, William Buskist, 2008 Highlights the most important topics issues questions and debates in the field of psychology Provides material of interest for students from all corners of psychological studies whether their interests be in the biological cognitive developmental social or clinical arenas The Tavistock Century Sebastian Kraemer, Margot Waddell, 2020-09-30 Gathering together an incredible array of contributors from the past century of the Tavistock to cover all aspects of amazing work they do With chapters from David Armstrong James Astor Andrew Balfour Fred Balfour Sara Barratt David Bell Sandy Bourne Wesley Carr Andrew Cooper Gwyn Daniel Dilys Daws Domenico di Ceglie Emilia Dowling Andrew Elder Caroline Garland Peter Griffiths Rob Hale Sarah Helps Beth Holgate Juliet Hopkins Marcus Johns Sebastian Kraemer James Krantz Mary Lindsay Julian Lousada Louise Lyon David Malan Gillian Miles Lisa Miller Mary Morgan Nell Nicholson Anton Obholzer Paul Pengelly Maria Rhode Margaret Rustin Michael Rustin Edward R Shapiro Valerie Sinason Jenny Sprince John Steiner Jon Stokes David Taylor Judith Trowell Margot Waddell and Gianna Williams The Tavistock Century traces the developmental path taken from the birth of a progressive and inspirational institution From their wartime and post war experience John Rickman Wilfred Bion Eric Trist Isabel Menzies John Bowlby Esther Bick Michael Balint and James Robertson left us a legacy of innovation based on intimate observation of human relatedness The book contains entries across the full range of disciplines in the lifecycle extending for example from research to group relations babies adolescents couples even pantomime It will be of enormous value to anyone working in the helping professions clinicians social workers health visitors GPs teachers as well as social science scholars and a host of others who are directly or indirectly in touch with the Tavistock wellspring **The Handbook of Life-Span Development, Volume 2**, 2010-08-09 In the past fifty years scholars of human development have been moving from studying change in humans within sharply defined periods to seeing many more of these phenomenon as more profitably studied over time and in relation to other processes The Handbook of Life Span Development Volume 2 Social and Emotional Development presents the study of human development conducted by the best scholars in the 21st century Social workers counselors and public health workers

will receive coverage of the social and emotional aspects of human change across the lifespan

Bibliography of the History of Medicine, 1993 **Adult Personality Development** Lawrence S. Wrightsman, 1994-03-15 Why do we as adults have the personality characteristics we do No one explanation is accepted by all however in this greatly expanded version of his earlier book *Personality Development in Adulthood* Wrightsman helps us understand and organize the three broad theoretical approaches to explain psychological changes during the period from adolescence to the onset of late adulthood Each of these approaches early formation theories stage theories and the dialectical approach are described and contrasted in order to help us more easily compare our experiences with those of others Case histories relevant current events and boxed inserts are used throughout the book to illustrate important concepts in a thought provoking lively manner Written in a compelling non technical style the book is accessible to students and interested readers from all disciplines especially psychology clinical and developmental psychology aging family studies sociology gender studies and nursing

Women in Psychology Agnes O'Connell, Nancy Felipe Russo, 1990-08-13 These insightful essays remarkably free of the jargon endemic to the social sciences will enrich academic libraries psychology reference collections Wilson Library Bulletin *Women in Psychology* is unique in that it is the first bio bibliographic sourcebook on historical and contemporary women in psychology It documents preserves and makes visible the diversity and excellence of women s contributions to the discipline Separate chapters evaluate and provide a critical lens through which to view the contributions of 36 women to the evolution of psychology *Women in Psychology* is an especially rich bibliographic resource not only through references at the end of each chapter but through a separate five part bibliographic chapter that identifies the most important books and other sources of information on women in psychology and references to autobiographical and biographic information on 185 women contributors The book contains an overview chapter describing the rigorous selection process employed a chapter on award winning contributions of women as recognized by the American Psychological Association and the American Psychological Foundation and appendices on birth years place of birth and major fields This volume will be useful to historians of psychology to scholars of women s history and the psychology of women and to all psychologists and students of psychology It will also be well received by public and private libraries

Women Scientists in America Margaret W. Rossiter, 1998-09-29 Winner of the Pfizer Award for Outstanding Book in the History of Science Margaret Rossiter s widely hailed *Women Scientists in America* *Struggles and Strategies to 1940* marked the beginning of a pioneering effort to interpret the history of American women scientists That effort continues in this provocative sequel that covers the crucial years of World War II and beyond Rossiter begins by showing how the acute labor shortage brought on by the war seemed to hold out new hope for women professionals especially in the sciences But the public posture of welcoming women into the scientific professions masked a deep seated opposition to change Rossiter proves that despite frustrating obstacles created by the patriarchal structure and values of universities government and industry women scientists made genuine contributions to their fields

grew in professional stature and laid the foundation for the breakthroughs that followed 1972 **Portraits of Pioneers in Psychology** Donald A. Dewsbury, Ludy T. Benjamin, Jr., Michael Wertheimer, 2014-06-03 This sixth book in the Portraits of Pioneers in Psychology Series preserves the diversity that has characterized earlier volumes as it brings to life psychologists who have made substantial contributions to the field of the history of psychology These chapters illustrate the pioneering endeavors of such significant figures and are written in a lively engaging style by authors who themselves have achieved a reputation as excellent scholars in the history of psychology Several of the chapters are based on the author's personal acquaintance with a pioneer and new previously unavailable information about these luminaries is presented in this volume Each of these volumes provides glimpses into the personal and scholarly lives of 20 giants in the history of psychology Prominent scholars provide chapters on a pioneer who made important contributions in their own area of expertise A special section in each volume provides portraits of the editors and authors containing interesting information about the relationship between the pioneers and the psychologists who describe them Utilizing an informal personal sometimes humorous style of writing the books will appeal to students and instructors interested in the history of psychology Each of the six volumes in this series contains different profiles thereby bringing more than 120 of the pioneers in psychology more vividly to life

Women's Studies Linda Krikos, Cindy Ingold, 2004-08-30 This truly monumental work maps the literature of women's studies covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999 Intended as a reference and collection development tool this bibliography provides a guide for women's studies information for each title along with a detailed often evaluative review The annotations summarize each work's content its importance or contribution to women's studies and its relationship to other titles on the subject Core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts This definitive guide to the literature of women's studies is a must purchase for academic libraries that support women's studies programs and it is a useful addition to any academic or public library that endeavors to represent the field A team of subject specialists has taken on the immense task of documenting publications in the area of women's studies in the last decades of the 20th century The result is this truly monumental work which maps the field covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999 Intended as a reference and collection development tool this bibliography provides a guide for women's studies information for each title along with a detailed often evaluative review The annotations summarize each work's content its importance or contribution to women's studies and its relationship to other titles on the subject Most reviews cite and describe similar and contrasting titles substantially extending the coverage Core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts Taking up where the previous volume by Loeb Searing and Stineman left off this is the definitive guide to the literature of women's studies It is a must purchase for academic libraries that support women's studies programs and a welcome addition to any academic or public library that

endeavors to represent the field **Early Psychological Research Contributions from Women of Color, Volume 1** Jon Grahe, Michelle Ceynar, Rihana S. Mason, 2023-03-10 Early Psychological Research Contributions from Women of Color Volume I collects the dissertations of 20 cultural pioneers women of color who were among the first to earn their doctorate degrees in psychology Collectively these chapters offer an important resource to diversify the history of psychology This book is structured so that each chapter provides a biographical sketch of the woman a summary of the dissertation a reproducibility critique a discussion about a modern alternative theory or methodological approach associated with the work feminist theory ethnopsychology liberation psychology etc and examples of how the dissertation can be used as instructional content in psychology and related disciplines offers suggestions for classroom use The dissertations were completed as early as 1912 and as late as 1979 with the range reflecting differences in when women of certain groups could access education The topics also range broadly across the breadth of the field of psychology including physiological cognitive developmental social clinical and more topics The diversity of the work collected here will allow this book to be used to augment coursework either as a complete collection or as individual chapters Instructors and students in undergraduate and graduate Research Methods courses will find this a crucial text in maintaining a true and inclusive historical perspective of psychological research Additionally due to the inclusion of research spanning the breadth of Psychology this edited volume will appeal to scholars both across the discipline and in related fields such as Women s Studies Cognitive Science Education and Cultural Studies What the Children Told Us Tim Spofford, 2022-08-09 Does racial discrimination harm Black children s sense of self The Doll Test illuminated its devastating toll Dr Kenneth Clark visited rundown and under resourced segregated schools across America presenting Black children with two dolls a white one with hair painted yellow and a brown one with hair painted black Give me the doll you like to play with he said Give me the doll that is a nice doll The psychological experiment Kenneth developed with his wife Mamie designed to measure how segregation affected Black children s perception of themselves and other Black people was enlightening and horrifying Over and over again the young children some not yet five years old selected the white doll as preferable and the brown doll as bad Some children even denied their race Yes said brown skinned Joan W age six when questioned about her affection for the light skinned doll I would like to be white What the Children Told Us is the story of the towering intellectual and emotional partnership between two Black scholars who highlighted the psychological effects of racial segregation The Clarks story is one of courage love and an unfailing belief that Black children deserved better than what society was prepared to give them and their unrelenting activism played a critical role in the landmark Brown v Board of Education case The Clarks decades of impassioned advocacy their inspiring marriage and their enduring work shines a light on the power of passion in an unjust world **Academic Paths** Peter A. Keller, 2016-01-28 This book contains the intimate autobiographies of 13 psychologists who work in academic settings Their experiences are as diverse as their specializations and the academic institutions from which they come However all of the

contributors have in common an infectious enthusiasm for their academic experiences and the unique opportunities provided by their careers. Psychology students often have only vague notions about the career experiences and personal lives of academic psychologists. The autobiographies in this book open special windows onto the lives of psychologists in academic settings. The contributions range from a description of experiences at a two year community college through discussions of the demands at high powered doctoral level research institutions. The authors offer intimate glimpses of experiences in their lives that paved the way to academia. Although this book is in a sense about career planning in academic settings there is no pretense about it being a career planning guide. The editor's goal was to give readers some sense of what motivates academic psychologists and what their personal as well as professional lives are like. The editor also makes clear his belief that there is no single pathway to a successful academic career in psychology. Although each contributor describes what most would see as a successful career the academic paths taken and the personal and professional rewards received are often quite different. This book will provide encouragement to students contemplating a career in academia as well as interesting reading for psychologists curious about what makes their academic colleagues tick.

A History of Modern Psychology in Context Wade Pickren, Alexandra Rutherford, 2010-02-19 In *A History of Modern Psychology in Context* the authors resist the traditional storylines of great achievements by eminent people or schools of thought that rise and fall in the wake of scientific progress. Instead psychology is portrayed as a network of scientific and professional practices embedded in specific contexts. The narrative is informed by three key concepts: indigenization, reflexivity, and social constructionism, and by the fascinating interplay between disciplinary Psychology and everyday psychology.

Portraits of Pioneers in Psychology Gregory A. Kimble, Michael Wertheimer, 2003-06-20 This book offers glimpses into the personal and scholarly lives of 20 giants in the history of psychology. As in the earlier volumes, prominent scholars were invited to prepare chapters on a pioneer who had made important contributions in their own area of expertise. Some of the psychologists described may be the teachers of the instructors who will be the users of this book, potentially providing a personal connection of the pioneers to the students. A special section provides brief portraits of the editors and authors, containing interesting information about the relationship between the pioneers and the psychologists who describe them. Utilizing an informal, personal, sometimes humorous style of writing, the book will appeal to students and instructors interested in the history of psychology. Each of the five volumes in this series contains different profiles, thereby bringing more than 100 of the pioneers in psychology more vividly to life.

The Role of Emotions in Social and Personality Development Carol Magai, Susan H. McFadden, 1995-02-28

Summarizes research in the field and provides a historical context to social and personality development and developmental psychology, emphasizing the role of emotions in personality formation and social behavior. Assesses current theories and alternate models in areas such as attachment, emotion expression, and personality change. Presents a function.

American

Women of Science since 1900 Tiffany K. Wayne, 2010-10-11 A comprehensive examination of American women scientists

across the sciences throughout the 20th century providing a rich historical context for understanding their achievements and the way they changed the practice of science Much more than a Who's Who this exhaustive two volume encyclopedia examines the significant achievements of 20th century American women across the sciences in light of the historical and cultural factors that affected their education employment and research opportunities With coverage that includes a number of scientists working today the encyclopedia shows just how much the sciences have evolved as a professional option for women from the dawn of the 20th century to the present American Women of Science since 1900 focuses on 500 of the 20th century's most notable American women scientists many overlooked undervalued or simply not well known In addition it offers individual features on 50 different scientific disciplines Women in Astronomy etc as well as essays on balancing career and family girls and science education and other sociocultural topics Readers will encounter some extraordinary scientific minds at work getting a sense of the obstacles they faced as the scientific community faced the questions of feminism and gender confronting the nation as a whole
