*A Field Guide to American Houses (Revised)* Virginia Savage McAlester, 2015-11-10 The fully expanded updated and freshly designed second edition of the most comprehensive and widely acclaimed guide to domestic architecture in print since its original publication in 1984 and acknowledged everywhere as the unmatched essential guide to American houses This revised edition includes a section on neighborhoods expanded and completely new categories of house styles with photos and descriptions of each an appendix on Approaches to Construction in the 20th and 21st Centuries an expanded bibliography and 600 new photographs and line drawings *Architectural Record*, 1926 *The Mutiara Masterplan* Ken Yeang, 2007 This book examines the competition submissions for a new suburban centre located on the edge of *Record Houses*, 1997 Telotopia Christoph W. Rosenthal, Andreas Poggel, 2024-11-12 Telotopia is a cultural architectural model of a socially stable and just ecologically sustainable rich in culture and desirable culture of the future This design is based on findings in human evolutionary and cultural historical development on examples of historical ethnological cultures as well as on findings in human sciences such as among others psychology and pedagogy This is not just about mere utopian imagination The actualization of a culture in the shape of Telotopia seems to be realistically possible In fact it is relatively easy if it meets with the corresponding interest In addition this cultural architectural model is to found the new scientific branch of Telotopistics This is about the finding that a social development can only produce a desired and workable result unless it is more vague and unspecified than a building plan for an ordinary detached house Even the social complex contains many structures that need to be planned for today but these can also be desirably planned The present model is to encourage developing a cultural architectural understanding of these structures for a desirable culture of the future In terms of discussion and practice the New Culture Workshop serves the development of a new culture The present edition is a cost effective version in smart print **Modern in the Middle** Susan Benjamin, Michelangelo Sabatino, 2020-09-01 The first survey of the classic twentieth century houses that defined American Midwestern modernism Famed as the birthplace of that icon of twentieth century architecture the skyscraper Chicago also cultivated a more humble but no less consequential form of modernism the private residence *Modern in the Middle Chicago Houses 1929-75* explores the substantial yet overlooked role that Chicago and its suburbs played in the development of the modern single family house in the twentieth century In a city often associated with the outsize reputations of Frank Lloyd Wright and Ludwig Mies van der Rohe the examples discussed in this generously illustrated book expand and enrich the story of the region's built environment Authors Susan Benjamin and Michelangelo Sabatino survey dozens of influential houses by architects whose contributions are ripe for reappraisal such as Paul Schweikher Harry Weese Keck Keck and William Pereira From the bold early example of the Battledock House by Henry Dubin 1930 to John Vinci and Lawrence Kenny's gem the Freeark House 1975 the generation spanning residences discussed here reveal how these architects contended with climate and natural setting while negotiating

the dominant influences of Wright and Mies They also reveal how residential clients typically middle class professionals progressive in their thinking helped to trailblaze modern architecture in America Though reflecting different approaches to site space structure and materials the examples in *Modern in the Middle* reveal an abundance of astonishing houses that have never been collected into one study until now      **3 Steel Houses** Barton Myers, Kurt Gerard Frederick Helfrich, 2005 Since 1970 the architect Barton Myers has constructed three custom designed steel residences in addition to developing a flexible prototype for standardised mass produced housing Each project represents a unique approach to a radically different set o      *Record Houses of ... Plus Apartments of the Year* ,1999      **William Morgan** Robert McCarter, William N. Morgan, The Images Publishing Group, 2002 William Morgan is a fundamental modernist whose work has for forty years remained absolutely true to the principles of modern architecture Each of Morgan s designs can therefore be said to have a multitude of precedents from throughout time and not on      **Magazine of Art** ,1922      Through the Healing Glass John Stanislav Sadar, 2016-02-12 In the mid 1920s a physiologist a glass chemist and a zoo embarked on a project which promised to turn buildings into medical instruments The advanced chemistry of Vita Glass mobilised theories of light and medicine health practices and glassmaking technology to compress an entire epoch s hopes for a healthy life into a glass sheet yet it did so invisibly To communicate its advantage Pilkington Bros spared no expense as they launched the most costly and sophisticated marketing campaign in their history Engineering need for Vita Glass employed leading edge market research evocative photography and vanguard techniques of advertising psychology accompanied by the claim Let in the Health Rays of Daylight Permanently through Vita Glass Windows This is the story of how despite the best efforts of two glass companies the leading marketing firm of the day and the opinions of leading medical minds Vita Glass failed However it epitomised an age of lightness and airiness sleeping porches flat roofs and ribbon windows Moreover through its remarkable print advertising it strove to shape the ideal relationship between our buildings and our bodies      American Architect ,1924

**The Architect** ,1920      *Architect* ,1904      **Chicagoland Dream Houses** Siobhan Moroney, 2024-01-23 Chicagoland Dream Houses is an engaging addition to the growing body of scholarship concerning Chicago s twentieth century residential landscape characterized by a diverse group of architects and builders Michelangelo Sabatino coauthor of *Modern in the Middle* Chicago Houses 1929 1975      **The American Architect** ,1910      Hugh Newell Jacobsen, Architect Hugh Newell Jacobsen, 2003 This book documents the 30 year collaboration of one of America s finest architects and a great architectural photographer Hugh Newell Jacobsen s projects have earned over 80 design awards while Robert Lautman s photographs of Jacobsen s work have been published widely      *The Architectural Review* ,1909      **NorCalMod** Pierluigi Serraino, 2006-08-03 Many people think modernist architecture never flowered in California north of the San Fernando Valley NorCalMod dispels that notion in a copiously illustrated history showcasing extraordinary examples of its proud contribution to the Bay Area and environs As a style modernist architecture was hotly debated in its day why create modern structures

where such distinctive Victorian and Arts and Crafts buildings already existed pulling heavyweights such as Frank Lloyd Wright Lewis Mumford and Walter Gropius into the fray Ultimately that existing Bay Region Style would remain the area s architectural hallmark but not before hundreds of important modernist projects many still standing yet unjustly neglected today had been established The remarkable photos in this book open our eyes to a long lost chapter in the history of California architecture and make NorCalMod a volume to be enjoyed by those interested in California history and style as well as by architecture students and professionals      Contemporary Architects Muriel Emanuel,2016-01-23
