China 1949 Graham Hutchings, 2021-01-14. Excellent. The Economist. A gripping account. South China Morning Post. Well worth reading. The Morning Star. A persuasive and readable narrative. History Today. Elegantly written. The Tablet. An excellent study. The Chartist. Engaging. Asia Times. The events of 1949 in China reverberated across the world and throughout the rest of the century. That tumultuous year saw the dramatic collapse of Chiang Kai-shek's pro-Western Nationalist government, overthrown by Mao Zedong and his communist armies, and the foundation of the People's Republic of China. China 1949 follows the huge military forces that tramped across the country, the exile of once powerful leaders, and the alarm of the foreign powers watching on. The well-known figures of the Revolution are all here. But so are lesser-known military and political leaders, along with a host of ordinary Chinese citizens and foreigners caught in the maelstrom. They include the often neglected but crucial role played by the Guangxi faction within Chiang's own regime, the fate of a country woman who fled her village carrying her baby to avoid the fighting, a prominent Shanghai businessman, and a schoolboy from Nanyang ordered by his teachers to trek south with his classmates in search of safety. Shadowing both the leaders and the people of China in 1949, Hutchings reveals the lived experiences, aftermath, and consequences of this pivotal year, one in which careers were made and ruined, and popular hopes for a new China contrasted with fears that it would change the country forever. The legacy of 1949 still resonates today as the founding myth, source of national identity, and root of the political behaviour of modern China. Graham Hutchings has written a vivid gripping account of the year in which China abruptly changed course and pulled the rest of world history along with it.

Chinese Discourses on Happiness Gerda Wielander, Derek Hird, 2018-11-01. Happiness is on China's agenda. From Xi Jinping's Chinese Dream to online chat forums, the conspicuous references to happiness are hard to miss. This groundbreaking volume analyzes how different social groups make use of the concept and shows how closely official discourses on happiness are intertwined with popular sentiments. The Chinese Communist Party's attempts to define happiness and well-being around family-focused Han Chinese cultural traditions clearly strike a chord with the wider population. The collection highlights the links connecting the ideologies promoted by the government and the way they inform and are in turn informed by various deliberations and feelings circulating in the society. Contributors analyze the government's happiness maximization strategies.

including public service advertising campaigns Confucian and Daoist inflected discourses adapted for the self help market and the promotion of positive psychology as well as happy housewives They also discuss forces countering the hegemonic discourse different forms of happiness in the LGBTQ community teachings of Tibetan Buddhism that subvert the material culture propagated by the government and the cynical messages in online novels that expose the fictitious nature of propaganda Collectively the authors bring out contemporary Chinese voices engaging with different philosophies practices and idealistic imaginings on what it means to be happy This distinctive volume creates sustained dialogues around a substantive debate Rejecting the conventional contrasts between China and the West and yet deeply immersed in sinophone media the authors understand Chinese discourse on happiness as multiple but interconnected conversations within a globally shared production of knowledge Equally concerned with text and image they exhibit an ethnographic eye as sharp as any orthodox ethnography Deborah Davis Yale University Wielander and Hird have put together a superbly researched and thoughtfully written set of essays on the multiple ways in which that most elusive of all states happiness is understood and pursued in contemporary China A volume that should become required reading for all interested in Chinese society today Julia C Strauss SOAS University of London Chinese Discourses on Happiness is a timely new collection of essays edited by two sinologists based in Britain Gerda Wielander and Derek Hird It explores how China's propaganda machine devotes extraordinary efforts to promoting the idea that the Chinese people enjoy good and meaningful lives under Communism precisely because economic growth alone does a poor job of generating happiness The Economist

China and International Institutions Marc Lanteigne, 2005-11-14 China has shifted its foreign policy from one that avoided engagement in international organizations to one that is now embracing them These moves present a new challenge to international relations theory How will the global community be affected by the engagement of this massive global power with international institutions This new study explores why China has chosen to abandon its previous doctrine of institutional isolation and details how it is currently unable to balance American power unilaterally and details an indirect path to greater power In addition it includes the first major analysis of the Shanghai Cooperation Organization comprising China Russia and most of Central Asia In contrast to many works on the rise of China which place an emphasis on her material goods and powers this book delivers a new approach It shows how the unique barriers Beijing is facing are preventing the country from taking the traditional paths of territorial expansion and political economic domination in order to develop as a great power One of these barriers is the United States and its inherent military and economic strength The other is the existence of nuclear weapons which makes direct great power conflict unacceptably costly China has therefore opted for a new path using institutions as stepping stones to great power status This book will be of great interest to students and scholars of international relations world politics world history and Asia
