Journey to the People's Republic of China; Review & Analysis Kalman Dubov, On a Holland America Grand Voyage aboard the flagship Amsterdam I had the great fortune of visiting the ancient land of China now known as the People s Republic of China This visit enabled me to for the first time to walk part of the way of the Great Wall visit the Old Summer Palace and see Tien An Men Square and the Forbidden City Besides visiting the capital city the ship also visited Shanghai and Hong Kong China is a huge country whose history goes back millennia The places we visited provided but a glimpse of that history and its current politics In this volume I review China s ancient history with an overview of the many dynasties that made China great For many years China stood at the forefront of technological and scientific discovery known today as the Four Great Discoveries the compass making paper gunpowder and printing Each of these transformed the world in its own way Yet the advancement of science and technology did not stay in China The great conundrum today is exploring the reasons China lost its ability to stand at the helm of such advancement I explore this issue while reviewing the complexities of how China lived both in its dynastic and modern periods Ancient China had civil service examinations as a method to identify the best and brightest minds and then to employ them for service to the emperor Jinshi the highest and most difficult examination was so complicated the successful candidates name was inscribed on stone then selected to remain in Beijing in service to the emperor Such examinations later migrated to other countries in the Far East then to the West where it is in common use today China and its millennium long history reflect an ancient people who today seek to assert their presence and power on the world stage Prior to its current form of government it was forced to capitulate to Western colonial powers Revolts by the Chinese against such foreign intervention resulted in the Opium Wars the loss of Hong Kong and the destruction of its Old Summer Palace I explore China s bitter past together with its current belligerence on the world stage as it seeks to redevelop and transform itself from the ancient Silk Road into the modern OBOR One Belt One Road with dramatic effect on many peoples and nations I also noted the conundrum of seeing tall high rise clusters of apartment buildings structures that could house thousands of people but stand completely empty Passing these buildings at night was eerie not a single light or human is visible anywhere The claim of a surging China at least in the places I visited made me wonder if the building boom the media and economists claim is but a bubble soon to evaporate in the glare of inquiry and reality Nonetheless this visit was dramatic in its own way offering many varieties of the different strata of this complex society During this visit I explored the Jewish community first in Shanghai then in Hong Kong Several Jewish

passengers joined to attend the Sabbath Service at the Chabad House We were warmly welcomed and saw a robust community in this remote part of the world In Hong Kong we visited several synagogues noting the pride and activity present in these communities I explore the history of the Jewish community in these centers with a special interest in the Jewish Ghetto of Shanghai where thousands of European Jews were sheltered during the Nazi s Final Solution They were given refuge in Shanghai and the area they lived in is still visible by way of a museum and plaques indicating where they lived and survived the war years The enormity of China demands a multi volume effort to do justice to its geography and history This is but a small contribution of this ancient land      **Survey of China Mainland Press** United States. Consulate General (Hong Kong, China),1962-07      *Innovations in Global Mental Health* Samuel O. Okpaku,2021-11-02 Over the course of the last decade political and mental entities at large have embraced global mental health the idea that psychiatric health is vital to improved quality of life Physicians globally have implemented guidelines recommended by the National Institute of Mental Health NIMH in 2007 thereby breaking down barriers to care and improving quality of life in areas where these practices have been implemented Programs for training and education have expanded as a result Clinicians benefit more from both local resources in some regions as well as in international collaboration and technological advancements Even amidst all of these positive outcomes clinicians still face some stumbling blocks With worldwide statistics estimating that 450 million people struggle with mental neuropsychiatric and neurological disorders 25 percent of the world s non communicable disease burden rising to these challenges prove to be no small feat even in wealthy Western nations Various articles and books have been published on global mental health but few of them thoroughly cover the clinical research innovative and social implications as they pertain to psychiatry often only one of these aspects is covered A comprehensive text that can keep pace with the rapidly evolving literature grows more and more valuable each day as clinicians struggle to piece together the changes around the world that leave open the possibility for improved outcomes in care This book seeks to boldly rectify this situation by identifying innovative models of service delivery training education research funding and payment systems that have proven to be exemplary in implementation and scalability or have potential for scalability Chapters describe specific barriers and challenges illuminating effective strategies for improved outcomes This text is the first peer reviewed resource to gather prestigious physicians in global mental health from around the world and disseminate their expertise in the medical community at large in a format that is updateable making it a truly cutting edge resource in a world constantly changed by medical scientific and technological advances *Innovations in Global Mental Health* is the ultimate resource for psychiatrists psychologists primary care physicians hospitalists policy makers and all medical professionals at the forefront of global mental health and its implications for the future      *Health Care Financing Review* ,1979      *Issues in Complementary and Alternative Medicine Research and Practice: 2011 Edition* ,2012-01-09 *Issues in Complementary and Alternative Medicine Research and Practice 2011 Edition* is a ScholarlyEditions eBook that delivers
