Covers the history and culture of Ancient Egypt from 3 000 30 B C Covers the history and culture of Modern Egypt from 1800 2012 Includes pictures of famous people places art and events in Egypt Africa may have given rise to the first human beings and Egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza the Ancient Egyptians produced several wonders of the world revolutionized architecture and construction created some of the world s first systems of mathematics and medicine and established language and art that spread across the known world With world famous leaders like King Tut and Cleopatra it s no wonder that today s world has so many Egyptologists What makes the accomplishments of the Ancient Egyptians all the more remarkable is that Egypt was historically a place of great political turbulence Its position made it both valuable and vulnerable to tribes across the Mediterranean and the Middle East and Ancient Egypt had no shortage of its own internecine warfare Its most famous conquerors would come from Europe with Alexander the Great laying the groundwork for the Hellenic Ptolemy line and the Romans extinguishing that line after defeating Cleopatra and driving her to suicide About 2 050 years after Cleopatra s death Egypt still remains a volatile hotspot In the last year Egypt has undergone a revolution that expelled its authoritarian leader of nearly 30 years and implemented elections that have pitted the Egyptian military in a power struggle with the Muslim Brotherhood the long time Islamic opposition group with ties to Hamas and elements of al Qaeda Making everything that much more surreal the events have played out before well placed television cameras with continuous real time coverage of the revolution and ongoing turmoil and foreign nations around the world eagerly await or dread the end result The situation in Egypt sounds messy today but strife in Egypt is hardly a new occurrence In fact conflict has been more of a rule than exception since the end of the 18th century when Western powers beginning with Napoleon and the French got involved in the territory that was at that point a part of the Ottoman Turkish Empire Since then European powers came into conflict with each other and local Egyptian officials in their imperialistic efforts Egyptian nationalists tried to do away with foreign interference and the critically important Suez Canal became a geopolitical hotspot And when Egypt finally did receive full independence and sovereignty from the British it was subjected to conflict between religious extremists secular forces pan Arab nationalists and oppressive strongmen The History and Culture of Ancient and Modern Egypt comprehensively covers the history and culture of Ancient

Egypt looking at its religious political foreign and military past and examining all the architectural and artistic achievements from 3 000 30 B C It also comprehensively covers this turbulent history helping to explain and sort through all the different forces at play in Egypt over the last 215 years Along with maps and pictures of important people places and events you will learn about Ancient and Modern Egypt like you never have before **Public Culture and Islam in Modern Egypt** Hatsuki Aishima,2016-04-25 What does it mean to be an intellectual in Egypt today What is expected from an authentic scholar Hatsuki Aishima explores these questions by examining educated urban Egyptians and their perceptions of what it means to be cultured and middle class something that as a result of the neoliberal policies of Egyptian government is widely thought to be a shrinking sector of society Through an analysis of the media representations of Abd al Halim Mahmud 1910 78 the French trained Sufi scholar and the Grand Imam of al Azhar under president Anwar al Sadat Aishima discusses the connection of Islam to these middle class considerations and makes an original contribution to the debate on the commodification of religious teaching and knowledge Public Culture and Islam in Modern Egypt is thereby a unique addition to the fields of anthropology Middle East and media studies [The Genesis of Civilization: A Revolutionary History of Human Development](#) Jesus Holloway,2025-04-03 Delve into the captivating narrative of The Genesis of Civilization a revolutionary exploration into the enigmatic origins and awe inspiring advancements that shaped human history This comprehensive tome unravels the tapestry of human evolution tracing our humble beginnings to the remarkable civilizations that have left an enduring legacy Prepare to be mesmerized as you journey through epochs of innovation from the dawn of toolmaking to the celestial mysteries unveiled by ancient astronomers Uncover the secrets of prehistoric art witness the rise and fall of empires and marvel at the ingenuity that propelled humanity to unprecedented heights This is not merely a history book it is an invitation to embark on an intellectual odyssey challenging preconceived notions and illuminating the intricate interconnectedness of civilizations throughout time Why this book Because it offers a unique perspective seamlessly blending archaeological discoveries historical accounts and anthropological insights It is written with clarity and passion captivating the reader from the first page to the last Whether you are a seasoned historian or a curious mind eager to unravel the enigmatic origins of our species The Genesis of Civilization will ignite your imagination and expand your understanding of the human journey **Embedding Ethics** Lynn Meskell,Peter Pels,2020-05-27 Anthropologists who talk about ethics generally mean the code of practice drafted by a professional association for implementation by its members As this book convincingly shows such a conception is far too narrow A more radical approach is to recognize that moral judgments are made at every juncture of scientific practice and they require a negotiation of responsibility with all stakeholders in the research enterprise Embedding Ethics questions why ethics have been divorced from scientific expertise Invoking different disciplinary practices from biological archaeological cultural and linguistic anthropology contributors show how ethics should be resituated at the heart of rather than exterior to scientific activity Positioning the researcher as a negotiator of significant truths rather than

an adjudicator of a priori precepts enables contributors to relocate ethics in new sets of social and scientific relationships triggered by recent globalization processes from new forms of intellectual and cultural ownership to accountability in governance and the very ways in which people are studied Case studies from ethnographic research museum display archaeological fieldwork and professional monitoring illustrate both best practice and potential pitfalls This important book is an essential guide for all anthropologists who wish to be active contributors to the discussion on ethics and the ethical practice of their profession *The Modern Neighbors of Tutankhamun* Kees Van der Spek, 2011 Examines the lives of people of al Qurna prior to the demolition of their village in order to promote tourism in the area of Thebes and Luxor
