Modern Esoteric Brad Olsen, 2014-03-01 Examining a vast array of esoteric subjects from the earliest times until this current era Modern Esoteric takes a radically different perspective on the social scientific and economic issues of our day Reality is not what it appears A number of disciplines and practices ranging from ancient Vedic literature to quantum physics from meditation and prayer to intentional manifestation to name a few are coming together around concepts that are beginning to link actual physical reality to our thoughts and consciousness in a feedback loop where our consciousness is not merely influenced by reality as we perceive it but reality is in turn influenced by our thoughts Organized into three sections Lifeology Control and Thrive Modern Esoteric Beyond Our Senses by World Explorer magazine editor Brad Olsen CCC Publishing March 2014 examines the flaws in modern history and looks at how ancient esoteric teachings coupled with accelerated scientific advancements can be used to reverse the dead end course the world is heading towards The Lifeology section explores the long and storied alternative narrative of life on this planet In the Control section author Brad Olsen examines how Big Brother is here in the form of the New World Order and how they keep the knowledge of humankind's true nature from the mass population Finally the Thrive section looks at all the ways humans are evolving to achieve their full potential Indeed the revolution is consciousness Through exploration and the integration of cutting edge science with ancient wisdom Olsen believes the dawn of our new society is faced on the one hand with global tyranny or we can overcome the oppression and advance towards universal abundance and enlightenment Without government and media manipulation this can be possible and the Golden Age will be attained with the rapid advancement of human consciousness **Modern Esoteric Spirituality** Antoine Faivre, Jacob Needleman, 1992 An insightful and substantive compilation on the subject of esotericism that will guide you through the labyrinth of gnosticism **Modern Esoteric** Brad Olsen, 2017-08-02 This completely reworked second edition of Modern Esoteric includes new information over a dozen additional images and up to date revisions Winner of the Best Book Design 2014 Modern Esoteric examines the flaws in modern history and looks at how

conspiracy theories esoteric knowledge and fringe subjects can be used to help change the dead end course humanity seems to be following The Lifeology section explores the long and storied alternative narrative of life on this planet In the Control section author Brad Olsen examines how Big Brother is here in the form of the New World Order and how they keep the knowledge of humankind's true nature from the mass population Finally the Thrive section looks at all the ways humans are evolving to achieve their full potential

Gnosis and Hermeticism from Antiquity to Modern Times R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement

Western Esotericism and the Science of Religion International Association for the History of Religions. Congress, International Association for the History of Religions, 1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5-12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions

Shamanic Wisdom in the Pyramid Texts Jeremy Naydler, 2004-12-09 A radical reinterpretation of the Pyramid Texts as shamanic mystical wisdom rather than funerary rituals Reveals the mystical nature of Egyptian civilization denied by orthodox Egyptologists Examines the similarity between the pharaoh s afterlife voyage and shamanic journeying Shows shamanism to be the foundation of the Egyptian mystical tradition To the Greek philosophers and other peoples of the ancient world Egypt was regarded as the home of a profound mystical wisdom While there are many today who still share that view the consensus of most Egyptologists is that no evidence exists that Egypt possessed any mystical tradition whatsoever Jeremy Naydler s radical reinterpretation of the Pyramid Texts the earliest body of religious literature to have survived from ancient Egypt places these documents into the ritual context in which they belong Until now the Pyramid Texts have been viewed primarily as royal funerary texts that were used in the liturgy of the dead pharaoh or to aid him in his afterlife journey This emphasis on funerary interpretation has served only to externalize what were actually experiences of the living not the dead king In order to understand the character and significance of the extreme psychological states the pharaoh experienced states often involving perilous encounters with alternate realities we need to approach them as spiritual and religious phenomena that reveal the extraordinary possibilities of human consciousness It is the shamanic spiritual tradition argues Naydler that is the undercurrent of the Pyramid Texts and that holds the key to understanding both the true nature of these experiences and the basis of ancient Egyptian mysticism

Handbook of Religion and the Authority of Science James R. Lewis,Olav Hammer,2010-11-19 The present collection examines the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to the challenges of the contemporary world **Real Magic** Dean Radin, PhD,2018-04-10 The chief scientist at the Institute of Noetic Sciences IONS turns a critical eye toward such practices as telepathy clairvoyance precognition and psychokinesis Are such powers really possible Science says yes According to noted scientist and bestselling author of *The Conscious Universe* Dean Radin magic is a natural aspect of reality and each of us can tap into this power with diligent practice But wait aren t things like ESP and telepathy just wishful thinking and flights of the imagination Not according to the author who worked on the US government s top secret psychic espionage program known as Stargate Radin has spent the last forty years conducting controlled experiments that demonstrate that thoughts are things that we can sense others emotions and intentions from a distance that intuition is more powerful than we thought and that we can tap into the power of intention think The Secret only on a more realistic and scientific level These dormant powers can help us to lead more interesting and fulfilling lives Beginning with a brief history of magic over the centuries what was called magic two thousand years ago is turning out to be scientific fact today a review of the scientific evidence for magic a series of simple but effective magical techniques the key is mental focus something elite athletes know a lot about Radin then offers a vision of a scientifically informed magic and explains why magic will play a key role in frontiers of science **Eranos** Hans Thomas Hakl,2011-01-01 From 1933 and for a period of almost seventy years

Italy's Lake Maggiore region was the gathering place for some of the world's foremost philosophers. Once a year illustrious thinkers such as Carl Jung, Erich Neumann, Mircea Eliade, D. T. Suzuki, and Adolph Pormann gathered there for Eranos, a meeting of the minds for elite intellectuals. Hans Hahl presents the only complete study of what is arguably the single most important gathering of scholars in the twentieth century. Eranos chronicles the golden years of Jung, Corbin, Eliade, and Scholem, tracing the roots of the Ascona movement in Theosophy, its later branches, and many lesser-known but no less fascinating figures. Distilling decades of archival research and interviews with Eranos participants, Hahl illuminates the dialogue of religion, esotericism, and scholarship that began with Eranos and continues to the present day. This finely crafted history shows how Eranos played an important counterpart to the dominant spiritual and intellectual history of the twentieth century by encouraging freedom of thought and radicality. Detailing the development and influence of a movement that set the course of contemporary philosophical thought, Eranos is a landmark volume that will draw readers interested in the history of ideas, psychology, religious and cultural studies, Jewish and Islamic studies, the history of science, mysticism, and the development of new age religions.
