Modern German Novel 1945 1965:

The modern German novel, 1945-1965 H.M. Waidson, 1959 *The modern German Novel* Herbert Morgan Waidson, 1971 **Germany and the United States, a "special Relationship?"** Hans Wilhelm Gatzke, 1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic **After the Nazis** Michael H. Kater, 2023-09-26 A wide ranging insightful history of culture in West Germany from literature film and music to theater and the visual arts After World War II a mood of despair and impotence pervaded the arts in West Germany The culture and institutions of the Third Reich were abruptly dismissed yet there was no immediate return to the Weimar period's progressive ideals In this moment of cultural stasis how could West Germany's artists free themselves from their experiences of Nazism Moving from 1945 to reunification Michael H Kater explores West German culture as it emerged from the darkness of the Third Reich Examining periods of denial and complacency as well as attempts to reckon with the past he shows how all postwar culture was touched by the vestiges of National Socialism From the literature of Günter Grass to the happenings of Joseph Beuys and Karlheinz Stockhausen's innovations in electronic music Kater shows how it was only through the reinvigoration of the cultural scene that West Germany could contend with its past and eventually allow democracy to reemerge *The National union catalog, 1968-1972*, 1973 *Writers Directory NA* NA, 2016-03-05 *Philosophy and German Literature, 1700-1990* Nicholas Saul, 2002-05-02 Although the importance of the interplay of literature and philosophy in Germany has often been examined within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole *Philosophy and German Literature 1700 1990* offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy's ken *Widener Library Shelflist: German literature* Harvard University. Library, 1974 **Alfred Döblin** Steffan Davies, Ernest Schonfield, 2009-10-28 Döblin's texts which range widely across contemporary discourses are paradigms of the encounter between literary and scientific modernity With their use of *Tatsachenphantasie* they explode conventional language seeking a new connection with the world of objects and things This volume reassesses and reevaluates the uniquely interdisciplinary quality of Döblin's interdiscursive factually inspired poetics by offering challenging new perspectives on key works The volume analyses not only some of Döblin's best known novels and stories but also neglected works including his early medical essays political journalism and autobiographical texts

Other topics addressed are Döblin's engagement with German history his relation to medical discourse his topography of Berlin his aestheticisation of his own biography and his relation to other major writers such as Heine Benn Brecht and Sebald With contributions in English and in German by scholars from Germany and the United Kingdom the volume presents insights into Döblin that are of value to advanced researchers and to students alike Narrative as Counter-Memory Reiko Tachibana,1998-01-01 A pioneering study of German and Japanese postwar fiction providing a broad cultural basis for understanding a half century of responses to World War II from within the two societies The Academic Who's who ,1973

Current literature on venereal disease (1968). 1968-70 |& Abstracts ... 1968 no. 1 ,1968 **The British Library**
General Catalogue of Printed Books to 1975 British Library (London),1986 **The writers directory** [Anonymus AC00423973],1991 **Macmillan Guide to Modern World Literature** Martin Seymour-Smith,1985 The Guide to Modern World Literature is a reference book by Martin Seymour Smith that aims to describe every important 20th century author as of 1985 in all languages in an encyclopedic presentation The book covers an estimated 2 700 authors and more than 7 500 titles It contains a total of 33 chapters that treat all modern national literatures individually or in groups African and Caribbean literature is treated collectively so are the Baltic French and Belgian Indian and Pakistani Jewish Latin American Scandinavian and both Eastern and Western Minor Literatures A chapter each is given to American Arabic Australian British Bulgarian Canadian Chinese Czechoslovakian Dutch Finnish German Greek Hungarian Italian Japanese New Zealand Polish Portuguese Romanian Russian South African Spanish Turkish and Yugoslavian Literature **Teaching a Dark Chapter** Daniela R. P. Weiner,2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them *Germany* Joseph A.
