

*Modern Hungarian Historiography*, by Steven Bela Vardy. *East European Quarterly*, Boulder, Colorado, 1976. (Distributed by Columbia University Press, New York.) xii+309 pp.

It seems self-evident that a serious study of any subject requires a dependable bibliography. In the case of potentially so large a subject as Hungarian Studies the research worker, student and the intelligent reader, particularly those not reading the Hungarian language, need a handbook providing critical evaluation both of the more significant features of Hungary's past and of the more important related historical literature written in Hungarian. The publication of Professor Vardy's new volume provides such a helpful aid. Of its pages, 217 constitute the study proper, sixty-six contain notes to the twenty-one chapters, four a list of abbreviations, nine a bibliography, and eleven an appendix of "Significant Source Publication Series Since 1857" incorporating the *Monumenta Hungariae Historica*, then the groups "Major Source Publications Outside the *Monumenta*," the *Fontes Historiae Hungaricae Aevi Recentioris*, and the *Handbook of Hungarian Historical Sciences*. The final 23 pages accommodate an extensive index. The earlier periods of Hungarian historiography are dealt with here in less detail, but proto-history and oriental studies had to be omitted altogether due to publishing costs. In the contemporary historiography the author has made a great and very laudable effort to go beyond the mere reading of published material and obtain often confidential information from the actual *dramatis personae* through personal interviews in Hungary or by correspondence. Indeed Vardy, seems particularly eager to show the dramatic aspects of political-historical controversies. Through the author's sober and expert evaluation of the intellectual background, work and studies of the more prominent historians of Hungary, this volume is likely to contribute appreciably towards correcting the prevalent ignorance of the achievements of Hungarian historical scholarship.

Although the gradual emergence of scholarly history writing in Hungary through the subsequent stages of the *gesta* and chronicle era, the Humanist historiography, through the age of the earlier modern Hungarian Schools, like the *Staatenkunde*, National Liberal, Positivist, Economic History, Hungarian Civilization, Organic Sociology, National Romantic Schools, is accorded relatively comprehensive treatment, the greatest attention is paid by the author, and justifiably, to the Schools of *Geistesgeschichte* and Ethnohistory. G. Szekfű, the mentor of the former came into prominence for his stance in the "Rákóczi Controversy" in the late years of the dual monarchy of Austria-Hungary. However, it was in the interwar years that with his *The Three Generations: the History of a Declining Age* (1920) Szekfű employed a Dilthey-inspired *Geistesgeschichte* approach to historical interpretation based largely on the assumption that "human history is essentially the manifestations of the human soul" and on the denial of the existence of "objective laws which govern historical and social evolution" [62]. The most momentous achievement of this school, the multivolumed *Hungarian History* (1927-1934) written by B. Homan and G. Szekfű (the "Homan-Szekfű") constituted a synthesis according to the philosophy of the "school." Although Szekfű gave an intellectual airing to Hungarian historical tradition that seemed long overdue, and had numerous supporters, he was also widely attacked for alleged pro-Habsburgism and for neglecting to interpret the Hungarian past from the viewpoint of the Magyar people. One of the most articulate and most consistent critics of Szekfű and his "school" has been E. Mályusz; who refused to regard Szekfű's views on various controversial

Orton, 1989     *Frontiers of History* Donald R. Kelley, 2006-01-01 In 1764-65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro* plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais's visit to Madrid he never went to Seville and a recreation of the society that fired his imagination Drawing on Beaumarchais's letters and commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the inspirations for such widely recognized characters as the barber valet Figaro the lordly Count Almaviva and the beautiful but deceived Rosine Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III Lord Thomas provides a highly

entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais Slavery in Árpád-era Hungary in a Comparative Context Cameron Sutt, 2015-07-28 In Slavery in Árpád-era Hungary in a Comparative Context Cameron Sutt examines servile labour in the first three centuries of the Hungarian kingdom and compares it with dependent labour in Carolingian Europe. Such comparative methodology provides a particularly clear view of the nature of dependent labour in both regions. Using legislation as well as charter evidence, Sutt establishes that lay landlords of Árpádian Hungary frequently relied upon slaves to work their land, but the situation in Carolingian areas was much more complex. The use of slave labour in Hungary continued until the end of the thirteenth century when a combination of economic and political factors brought it to an end. **Geschichtsbilder in Den Postdiktatorischen Ländern Europas** Gerhard Besier, 2009 **Modern Hungarian Political Thought** Zoltán Balázs, Csaba Molnár, 2024-10-31 This book introduces the reader into the discursive political pluralism of modern Hungary roughly from the mid 19th century with a particular emphasis on the spectrum of contemporary political thought. The book relies on Michael Freeden's method of ideology analysis focusing on concepts, principles, values as well as interrelations, but it puts a greater emphasis on nonverbal traditions as bearers of political thought to explain how political pluralism can subsist in periods of dictatorship. Through this analysis, the authors demonstrate how and why contemporary Hungarian political pluralism is a reflection both on the current trends in Western political thought and on its own past. Routledge Library Editions: Historiography Various, 2021-06-23 The greatest problem in historical scholarship, theoretically and practically, is the relation between historians and their subject matter. The past is gone and historians can only study its remnants. On what basis do scholars select certain facts from the mass of data left from the past? How do they explain the interrelationship of the facts they select? What criteria do they use to evaluate their subject? The 35 volumes in this set, originally published between 1926 and 1990, discuss and answer these essential questions faced by historians. The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture. Both historiography and historical thinking advanced as never before. The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought. One consequence was extensive organisation and professionalization of research, which the volumes in this set reflect. The Waning of Emancipation Guy Miron, 2011-11-15 Explores the role of public memory and images of the past in the Jewish communities of Germany, France, and Hungary as they faced changing political and social conditions. With the rise of Fascism in Europe and particularly the ascent of Germany's Nazi Party, Jews in Germany and eastern and western Europe were forced to cope with an eroding civil and social status, increasing daily limitations, and a dark future on the horizon. This reality looked very different from the recent past of emancipation, in which Jewish citizens had enjoyed civic equality and the advance of social integration. In The Waning of Emancipation, Jewish History: Memory and the Rise of Fascism in Germany, France, and Hungary, author Guy Miron examines how Jewish

spokespeople from three European communities Germany France and Hungary confronted these challenges and whether they coped by holding onto historical perceptions that materialized during the emancipation era or by adopting new views Miron demonstrates that pre Holocaust Germany France and Hungary make interesting case studies because of the divergence of the starting points for emancipation in each country their unique and complex political cultures both during the golden age of emancipation and after its decline and the distinct relationship each held between church and state In three sections Miron considers the three countries in turn with two chapters devoted to how each community came to terms with the crisis in relation to its internal diversity and political divisions To analyze the evolving Jewish public discourse in each country Miron consults numerous primary sources including articles and essays that appeared in Jewish journals and periodicals as well as literature mostly popular published by Jewish publishing houses Along the way Miron addresses wider questions of Jewish identity and self consciousness and the cultural memory of Jewish emancipation during the rise of Fascism Miron s examination of the range of Jewish responses to the waning of emancipation will contribute to the discourse on politics of representation of the past in each of the three countries and also draw attention to the internal diversity and political divisions within each Scholars of Jewish and European history will benefit from the careful research in this volume

The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century Włodzimierz Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 Intellectual Horizons offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends However the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe This volume redresses this underrepresentation and provides a more balanced perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary visual and religious cultures to perceptions and representations of the region in the twentieth century While structured thematically individual contributions are organized chronologically They emphasize where relevant generational experiences agendas and accomplishments while taking into account the sharp ruptures that characterize the period The third in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for understanding the intellectual and cultural history of this dynamic region **Hibiscus Masonic Review** Peter J. Millheiser FACS, 2011 The Hibiscus Masonic Review is an annual international journal of the historical sociological philosophical and cultural background of Freemasonry and its intellectual and societal impact on trends in critical thought It combines the latest historical research on Freemasonry with articles exploring the many trends of intellectual thought that are reflected in its rituals and its traditions It is unique in its thorough exploration of the cultural background of freemasonry from many viewpoints *Censorship of Historical Thought*

Antoon De Baets, 2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research
