## **Modern International Developments In Trust Law:**

*Modern International Developments in Trust Law* David Hayton, 1999-03-10 This book is concerned with the development of the trust idea in common law jurisdictions whether mainland or offshore and in civil law jurisdictions While trusts are important for preserving family wealth and influence over ninety per cent of the value of trust funds is found in commercial or financial trusts about which little has been written It is interest in the latter type of trust that is likely to lead to the development of the trust idea in European mainland jurisdictions especially as the economic destinies of European jurisdictions become increasingly intertwined and as the Hague Convention on the Recognition of Trusts comes to be implemented In this volume the work of leading trust scholars in Canada England the USA Germany and Japan is brought together to explore key issues in trust law until now not covered in any single resource the full elasticity of the trust concept the variety and significance of commercial or financial trusts the scope for reforming trust law in various jurisdictions to make it more economically efficient in assisting in the preservation and generation of wealth the potential for the development of a core trust concept in civil law jurisdictions as a special part of the law of obligations without any need to create equitable proprietary interests in favour of beneficiaries *Modern International Developments in Trust Law* will be of interest not only to academic trust lawyers and comparative lawyers but to common law and civil law practitioners whether interested in taking advantage of foreign trust laws or in developing in their local jurisdictions new ideas obtained from foreign jurisdictions

**The Modern Cy-près Doctrine** Rachael Mulheron, 2016-04-08 It is unusual in the precise world of law to find instances of where near enough is good enough This book explores when this is possible referring to property and monetary transfers under the increasingly important and influential cy pr s doctrine The doctrine decrees that when literal compliance is impossible or infeasible the intention of a donor or testator should be carried out as nearly as possible Over the past thirty years this doctrine has marched into other legal territory where as near as possible is also considered sufficient such as in class actions litigation and under non charitable trusts Discussing and analyzing key developments across the Commonwealth jurisdictions and the USA this book considers whether there is a new and overarching definition which can be attributed to the cy pr s doctrine It asks whether there is a doctrinal symmetry of analysis that truly renders it a body of cy pr s law in the modern context and whether the doctrine can be expected to play an even greater role in the future This book is of interest to researchers and practitioners working in trusts and charity law property law contract law and class actions jurisprudence

**The Hague Trusts Convention** Jonathan Harris, 2002-05-04 Trusts cross borders When they do real difficulties may arise Will the understanding of what a trust is be different in a foreign state Will the rights powers and duties of the trustee and settlor be the same What rights will the beneficiary be able to assert To what extent will the trust assets be safe from the claims of creditors forced heirs or third parties Which legal system will be applied to the trust Within what limits What if the trust needs to be recognised in a state which does not have the institution of the trust in its domestic law

The Hague Trusts Convention enacted into English law by the Recognition of Trusts Act 1987 seeks to ameliorate the situation by providing harmonised choice of law rules for trusts created voluntarily and evidenced in writing. It also provides for the recognition of trusts in Contracting States. Those Contracting States should recognise the trust even if they do not have the institution in their domestic law. This book is the first published in England to devote itself to a detailed analysis of the Convention. It is aimed at academics and practitioners at private international lawyers and at trust lawyers. Frequent reference is made to the position in civil law states especially in the Contracting States of Italy and the Netherlands and in other trust states both offshore and onshore. The Hague Trusts Convention deals with the operation of the trust itself. It does not deal with the preliminary steps needed to create a trust. These preliminary matters raise highly complex and uncharted choice of law issues. Detailed discussion of these matters is also provided and appropriate solutions suggested.

**Equity and Trusts** Alastair Hudson, 2013. Alastair Hudson's *Equity and Trusts* is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies. It provides a clear, current and comprehensive account of the subject through which the author's enthusiasm and expertise shine through, helping to bring to life an area of the law which students often find challenging. Fully updated and revised, this Seventh Edition contains an analysis of *Jones v Kernott* and trusts of homes, a new treatment of dishonest assistance and unconscionable receipt, a full treatment of the law on super-injunctions, coverage of all of the trusts law cases precipitated by the collapse of Lehman Brothers, a reflection on women and equity and the politics of trusts law, a new treatment of the Hastings-Bass principle and analysis of over 200 new cases and the Perpetuities and Accumulations Act 2009. *Equity and Trusts* remains the most comprehensive and up-to-date coverage of the law of Equity and Trusts while still a lively and thoughtful account of the issues raised by it. This book has been cited as being authoritative in the courts of numerous countries. The seventh edition is supported by a companion website which includes over 50 short podcast lectures by the author discussing and clarifying key topics from within the book which cover an entire course, a set of brief video documentaries filmed on location which provide context and bring to life selected key topics, a brief introductory video presentation from the author introducing the viewer to the subject of Equity and Trusts and to the book in particular.

what recourse family members may have in challenging an estate The first part The challenge of the new family for Law considers the challenge both in the inter vivos and the postmortem contexts in the United States Canada France the United Kingdom Australia and New Zealand A particular focus is upon the dramatic expansion of the definition of family from the traditional nuclear family consisting of a husband wife and their mutual children to a definition that includes unmarried heterosexual and same sex couples living together and in some jurisdictions to new kinds of companionate partnerships that are not based on a sexual relationship In some jurisdictions such developments are simply an expression of sharing responsibility by allocating it in the private domain as opposed to the public potentially through social welfare in others particularly in the United States it is a defence of fundamental institutions and with it a defence of society itself The second part Family fights over wills and estates examines the law in Australia Switzerland France Mexico and the United Kingdom Its comparison of civil and common law approaches shows how the law expresses the same principle objects protection of family and obligations towards key family members but does so from entirely different perspectives and where the common law which enshrined the notion of testamentary freedom is being qualified through the expanding domain of family provision legislation the civil law which is based on codified shares and allocated responsibilities expressed through proportionate entitlements in estates is being qualified through a range of disqualifying and varying mechanisms

Beckett, 2023-10-24 Tax havens in offshore lands like Switzerland the Cayman Islands and the Bahamas were once considered a rarity the preserve of the super rich Today they are big business available to the masses Their goal To avoid any form of accountability Own nothing Possess everything Be answerable to no one Where are these tax havens What forms can they take What future lies in store for them and why should we care An Anatomy of Tax Havens Europe the Caribbean and the United States of America answers these questions and more in the first comparative study in one volume of European Caribbean and United States tax havens It examines their simple origin to the extreme forms some take today delving into the murky subculture that has deliberately made them impenetrably obscure Uniquely it combines detailed technical expertise regulatory regimes financial crime legal and equitable structuring with an analysis of their impact on domestic and global political economic

Beckett,2019-05-08 There is something visceral about ownership This is mine you can't have it This is mine you can share it This is ours Try to find it Contemporary literature and investigative journalism are showing that the scale of the problem of tax evasion money laundering organised crime terrorism bribery corruption and gross human rights abuses is vast Ownership specifically the quest to identify beneficial owners has been chosen by national and international regulators as the touchstone the litmus test in the fight back An owner by definition must possess something for which they are financially accountable But what is meant by ownership This book explains why ownership is pivotal to accountability and what ownership means in common law civil law and Shariah law terms It looks in detail at State regional and international transparency strategies and at an equally powerful global private counter initiative to promote beneficial ownership avoidance through the use of so called orphan structures Where there is no owner there is no accountability The distinction between privacy and legitimate confidentiality on the one hand and concealment on the other is explained with reference to commercial and trade law and practice principles of corporate governance and applicable business human rights This book introduces one further counter initiative the phenomenon of transient ownership made possible through the use of cryptocurrency and the blockchain The study concludes with a blueprint for action with recommendations addressed to states international organisations practitioners and other stakeholders Extending the Boundaries of Trust and Similar Ring-Fenced Funds David Hayton,2002-07-19 Virtually every jurisdiction today is busy developing private international law rules to deal with trusts and similar ring fenced structures With the increasing impact of globalisation business interests throughout the world are intent on maximising the potential of such structures for raising funds lowering risks and cutting costs As a result numerous complex issues involving the traditional categories of settlor beneficiary and fiduciary are being radically transformed Extending the Boundaries of Trusts and Similar Ring Fenced Funds offers valuable analyses by sixteen well known authorities in the field of a broad range of trust related issues The many important insights in this book reveal the workings of such issues as the following the disappearing divergence between common law and civil law jurisdictions in the matter of trusts using the segregated fund concept to manage the risk of insolvency the demise of the amateur trustee in the charitable trust sector why loss to the fund supersedes particular losses of beneficiaries the legal dimensions of hiding ownership by giving property to trustees the intervention of public policy in questions of perpetuity the selective imposition of OECD and FTF transparency initiatives on offshore jurisdictions and policing of trustee behaviour by beneficiaries Lawyers bankers and others dealing with investment and business finance will find much information as well as food for thought in this fascinating book as will those involved in the traditional trust industry whether as trustees or lawyers or fund managers
