Introduction to Modern Jewish Philosophy Norbert M. Samuelson, 2012-02-01 The book is divided into three sections The first provides a general historical overview for the Jewish thought that follows The second summarizes the variety of basic kinds of popular positive Jewish commitment in the twentieth century The third and major section summarizes the basic thought of those modern Jewish philosophers whose thought is technically the best and or the most influential in Jewish intellectual circles The Jewish philosophers covered include Spinoza Mendelssohn Hermann Cohen Martin Buber Franz Rosenzweig Mordecai Kaplan and Emil Fackenheim The text includes summaries and a selected bibliography of primary and secondary sources *An Introduction to Modern Jewish Philosophy* Claire Elise Katz, 2013-11-19

How Jewish is modern Jewish philosophy The question at first appears nonsensical until we consider that the chief issues with which Jewish philosophers have engaged from the Enlightenment through to the late 20th century are the standard preoccupations of general philosophical inquiry Questions about God reality language and knowledge metaphysics and epistemology have been of as much concern to Jewish thinkers as they have been to others Moses Mendelssohn for example was a friend of Kant Hermann Cohen's philosophy is often described as neo Kantian Franz Rosenzweig wrote his dissertation on Hegel And the thought of Emmanuel Levinas is indebted to Husserl In this much needed textbook which surveys the most prominent thinkers of the last three centuries Claire Katz situates modern Jewish philosophy in the wider cultural and intellectual context of its day indicating how broader currents of British French and German thought influenced its practitioners But she also addresses the unique ways in which being Jewish coloured their output suggesting that a keen sense of particularity enabled the Jewish philosophers to help define the whole modern era Intended to be used as a core undergraduate text the book will also appeal to anyone with an interest how some of the greatest minds of the age grappled with some of its most urgent and fascinating philosophical problems *How Judaism Became a Religion* Leora Batnitzky, 2013-08-25 Is Judaism a religion a culture a nationality or a mixture of all of these This title tells the story of how Judaism came to be defined as a religion in the modern period and why Jewish thinkers have fought as well as championed this idea **The Columbia**

The Legacy of Hans Jonas Hava Tirosh-Samuelson, Christian Wiese, 2008-08-31 Hans Jonas 1903 1993 was one of the most creative and original Jewish thinkers of the twentieth century This volume offers a retrospective of Jonas s life and works by bringing together historians of modern Germany Judaica scholars philosophers bioethicists and environmentalists to reflect on the meaning of his legacy today From a historian of religions who wrote a path breaking monograph on Gnosticism Jonas turned to the philosophy of nature extending his existential philosophy and phenomenological analysis to include all forms of life Unique among twentieth century Jewish philosophers Jonas argued for the possibility of a genuinely symbiotic relationship between humanity and nature which he believed had been suppressed by modern technology Jonas spoke against the human domination of nature on the basis of Jewish sources especially the Bible and Lurianic Kabbalah and he was among the first to define the ethical challenges that modern technology poses to humanity

Sura and one of the preeminent Jewish thinkers of the medieval period attempted to create a complete statement of Jewish religious philosophy in which all strands of philosophical thought were to be knit into a unified system In The Book of Doctrines and Beliefs Saadya sought to rescue believers from a sea of doubt and the waters of confusion into which they had been cast by Christianity Islam and other faiths By employing philosophical or kalamitic argumentation to examine and defend traditional Jewish beliefs Saadya hoped to turn blind faith into conviction based on rational understanding First published in 1946 and reprinted here without alteration Alexander Altmann's judicious abridgment of his own translation has remained the standard edition of this influential work A new Introduction by Daniel Frank sets Saadya's work in its broader historical cultural and philosophical contexts

Philosophy and Law Leo Strauss, 2012-02-01 Leo Strauss's Philosophy and Law contains a groundbreaking study of the political philosophy of Maimonides and his Islamic predecessors and it offers an argument on behalf of that philosophy which is also a profound critique of modern philosophy Here is an entirely new and complete English translation of Strauss's work which takes as its ideal the exacting standards of accuracy that Strauss himself emphasized in his own work It includes a prefatory essay introducing the argument of each of the four sections of Philosophy and Law This is a fresh and challenging treatment of the perennial conflict between reason and revelation or philosophy and religion Strauss's key contention in this book is that the most influential modern approaches to this conflict have run aground in ways that reflect their loss of key insights developed by the medieval philosophers of Islam and their Jewish pupils especially Maimonides Strauss challenges the modern view that scientific enlightenment must ultimately amount to atheism and that therefore there can be no such thing as enlightened religion Through a careful original and detailed treatment of central works of the medieval Islamic Jewish tradition especially Maimonides Guide of the Perplexed Strauss aims to recover their key insights into this question

God of Abraham Lenn Evan Goodman, 1996-03-07 This cogently argued and richly illustrated book rejects the dichotomy between the God of Abraham and the God of the philosophers to argue that the two are one In God of Abraham one of our leading philosophers of religion shows how human values can illuminate our idea of God and how the monotheistic idea of God in turn illuminates our moral social cultural aesthetic and even ritual understanding Throughout Goodman draws on a wealth of traditional philosophical historical and anthropological materials and particularly on a wide range of Jewish sources He demonstrates how an adequate understanding of the interplay of values with monotheism dissolves many of the longstanding problems of natural theology and ethics and guides us toward a genuinely humanistic moral and social philosophy

Lev Shestov Michael Finkenthal, 2010 In Lev Shestov Existential Philosopher and Religious Thinker Michael Finkenthal explores the evolution of Lev Shestov's philosophical and religious intellectual contributions The hermeneutical effort is mainly based on the Shestovian oeuvre but his thought is considered in light of existential philosophies in their evolution from Pascal Nietzsche and Kierkegaard to those of the twentieth century Shestov's deconstruction of philosophy is discussed parallel to the analysis

of the formation of his religious thought and its relevancy in the context of efforts by Buber Rosenzweig and Levinas to redefine Judaism The Philosopher as Witness Michael L. Morgan, Benjamin Pollock, 2009-01-01 Emil Fackenheim 1916 2003 one of the most important Jewish philosophers of the twentieth century called on the world at large not only to bear witness to the Holocaust as an unprecedented assault on Judaism and on humanity but also to recognize that the question of what it means to philosophize indeed what it means to be human must be raised anew in its wake The Philosopher as Witness begins with two recent essays written by Fackenheim himself and includes responses to the questions that Fackenheim posed to philosophy Judaism and humanity after the Holocaust The contributors to this book dare to extend that questioning through a critical examination of Fackenheim s own thought and through an exploration of some of the ramifications of his work for fields of study and realms of religious life that transcend his own
