Midcentury Suspension Claire Seiler, 2020-08-11 How did literary artists confront the middle of a century already defined by two global wars and newly faced with a nuclear future Midcentury Suspension argues that a sense of suspension a feeling of being between beginnings and endings recent horrors and opaque horizons shaped transatlantic literary forms and cultural expression in this singular moment Rooted in extensive archival research in literary print and public cultures of the Anglophone North Atlantic Claire Seiler's account of midcentury suspension ranges across key works of the late 1940s and early 1950s by authors such as W H Auden Samuel Beckett Elizabeth Bishop Elizabeth Bowen Ralph Ellison and Frank O'Hara Seiler reveals how these writers cultivated modes of suspension that spoke to the felt texture of life at midcentury Running counter to the tendency to frame midcentury literature in the terms of modernism or of our contemporary Midcentury Suspension reorients twentieth century literary study around the epoch's fraught middle *Modern American Poetry [and] Modern British Poetry* Louis Untermeyer, 1950 **The**

Lectures on Modern American Poetry Sara DeFord, 1957 **Flight from Grace** Richard Pope, 2022-03-30 Human animals are despoiling nature and causing a sixth extinction on Earth Our natural environment is being compromised and birds and other animals are disappearing at an alarming rate Flight from Grace does not so much reveal the extent of the damage as ask and answer the perplexing question why This book traces human reverence for birds from the Stone Age and the New Stone Age through the cultures of Mesopotamia Egypt Peru and Greece and through biblical traditions up to its vestiges in the present Richard Pope takes a hard look at Judaeo Christian and ancient Greek thought to demonstrate how

the emergence of anthropocentrism and belittling of nature led to our present day ecological dilemma Striking images of cultural artifacts many little known together with extensive discussion of art music literature and religion illustrate the paradox in our contemporary relationship to the natural world Humanity in moving from its paleolithic origins to modern times has simultaneously distanced itself from and disenchanted nature Suggesting that the replacement of an animistic worldview with a mechanistic one has led humans to deny their animality Flight from Grace calls on readers to appreciate how our past relationship with birds might help transform our current relationship with nature

A People's History of English and American Literature Eugene V. Moran, 2002 With special emphasis on literary merit this book chronicles the literature of the great nations of Britain and America from their earliest origins to the twenty first century

Critical Flicker Fusion William Fried, 2018-03-26 The premise of this book is that films like other works of the imagination may be elucidated by applying methods derived from psychoanalysis and that doing so will result in a deeper and richer appreciation of the film s meaning The book explores a number of feature films that lend themselves particularly well to this process Both in his introduction and throughout the text the author comments on the method and discusses continuities similarities and differences among the films The book is structured according to the central themes of the films including time and death love and lust secrets and human identity Some of the films are relevant to more than one of these thematic elements The introductory essay explores the themes their representation in the films and the ways in which they may be elucidated by a psychoanalytically informed critique Brief paragraphs between the sections of the book facilitate the transitions In an appendix there are three essays titled Mise en scene Whatever Flames Upon the Night and Mad Doctors

The Robert Frost Encyclopedia Nancy L. Tuten, John Zubizarreta, 2000-12-30 Often thought of as the quintessential poet of New England Robert Frost is one of the most widely read American poets of the 20th century He was a master of poetic form and imagery his works seemed to capture the spirit of America and he became so emblematic of his country that he read his work at President Kennedy s inauguration and traveled to Israel Greece and the Soviet Union as an emissary of the U S State Department While many readers think of him as the personification of New England he was born in San Francisco published his first book of poetry in England matured as a poet while abroad taught for several years at the University of Michigan and spent many of his winters in Florida This reference helps illuminate the hidden complexities of his life and work Included in this volume are hundreds of alphabetically arranged entries on Frost s life and writings Each of his collected poems is treated in a separate entry and the book additionally includes entries on such topics as his public speeches various colleges and universities with which he was associated the honors that he won his biographers films about him poets and others whom he knew and similar items Each entry is written by an expert contributor and closes with a brief bibliography The volume also provides a chronology and concludes with a general bibliography of major studies
