Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

The Riddling between Oedipus and the Sphinx Yuan Yuan, 2016-04-12 The issue of the other has always been an urgent one especially since 1980 s when the political debates over race gender class culture ethnicity and post colonialism took the central stage The Riddling between Oedipus and the Sphinx Ontology Hauntology and Heterologies of the Grotesque probes the polemic status of the other and the dubious nature of the subject from a heterodox perspective of an emblematic grotesque figure the Sphinx the mystical trickster and the guardian of sacred knowledge in Egyptian culture In Greek mythology Oedipus the epitome of Western logos solved the Sphinx s riddle with a single word Man This evocation for the phantom of a solipsistic subject discloses in effect Oedipus latent grotesque disparity The book explores the encounter of this unlikely pair to inquire the riddling relationship between the singular subject and the grotesque other in the context of modern discourses of the subject and postmodern theories of the other

Baudelaire and Caricature: From the Comic to an Art of Modernity , Baudelaire s essays on caricature offered the first sustained defense of the value of caricature as a serious art worthy of study in its own

right This book argues for the crucial importance of the essays for his conception of modernity so fundamental to the subsequent history of modernism From the theory of the comic formulated in *De l'essence du rire* to his discussions of Daumier Goya Hogarth Cruikshank Bruegel Grandville Gavarni Charlet and many others Baudelaire develops not only an aesthetic of caricature but also a caricatural aesthetic dual and contradictory grotesque ironic violent farcical fantastic and fleeting that defines an art of modern life In particular Baudelaire's insistence on the dualism and ambiguity of laughter has radical implications for such emblems of modernity as the city and the flâneur who roams the streets The modern city is the space of the comic a kind of caricature presenting the flâneur with an image of dualism one's position as subject and object implicated in the same urban experiences one seems to control The theory of the comic invests the idea of modernity with reciprocity one's status as laughter and object of laughter thus preventing the subjective construction and appropriation of the world that has so often been linked with the project of modernism Comic art reflects what Walter Benjamin later defined as Baudelairean allegory at once representing and revealing the alienation of modern experience But Baudelaire also transforms the dualism of the comic into a peculiarly modern unity the doubling of the comic artist enacted for the benefit of the audience the self-generating and self-reflexive experience of the flâneur in a communion with the crowd This study examines his views in the context of the history of comic theory and contemporary accounts of the individual artists Complete with illustrations of the many works discussed it illuminates the history and theory of caricature the comic and the grotesque and adds to our understanding of modernism in literature and the visual arts
