Hachmeister,2002 The German fascination with Italy as seen in Goethe s Italian Journey and in a number of literary reactions to it Italy has long exerted a particular fascination on the Germans and this has been reflected in German literature most prominently in Goethe s Italienische Reise but also by numerous other writers who have returned to the topic This book is concerned with two inextricably linked images those of the German traveler in Italy and of Italy in German literature in the first third of the 19th century Goethe s publication of his account nearly three decades after his actual journey was in some measure a vehicle to resist the challenge of a new generation of writers who in turn would confront what they found to be a questionable if not altogether false representation Hachmeister emphasizes the consequences of the disparity between the reality of Goethe s journey and his depiction of it taking into consideration also his occasional discomfort with Italy s classical past She shows how the German predilection for Italy is unique in the larger European cultural context of the Grand Tour before moving on to chapters that contain readings of Italienische Reise and Goethe s R mische Elegien Individual chapters follow on Eichendorff s Aus dem Leben eines Taugenichts Platen s Sonette aus Venedig and Heine s three Italian Reisebilder each of which is to some degree a reaction to Goethe s work These chapters investigate how the individual s reaction to Italy reflects his view of Germany and the author s role in early 19th century German society The conclusion offers a short glance at the continued evolution of the German fascination with Italy in the mid and late nineteenth century Gretchen Hachmeister received her Ph D in German literature from Yale University
