Jeremy Bentham and Australia Tim Causer,Margot Finn,Philip Schofield,2022-04-28 Jeremy Bentham and Australia is a collection of scholarship inspired by Bentham s writings on Australia These writings are available for the first time in authoritative form in Panopticon versus New South Wales and other writings on Australia a volume in The Collected Works of Jeremy Bentham published by UCL Press In the present collection a distinguished group of authors reflect on Bentham s Australian writings making original contributions to existing debates and setting agendas for future ones In the first part of the collection the works are placed in their historical contexts while the second part provides a critical assessment of the historical accuracy and plausibility of Bentham s arguments against transportation from the British Isles In the third part attention turns to Bentham s claim that New South Wales had been illegally founded and to the imperial and colonial constitutional ramifications of that claim Here authors also discuss Bentham s work of 1831 in which he supports the establishment of a free colony on the southern coast of Australia In the final part authors shed light on the history of Bentham s panopticon penitentiary scheme his views on the punishment and reform of criminals and what role if any religion had to play in that regard and discuss apparently panopticon inspired institutions built in the Australian colonies This collection will appeal to readers interested in Bentham s life and thought the history of transportation from the British Isles and of British penal policy more generally colonial and imperial history Indigenous history legal and constitutional history and religious history

The Cambridge Economic History of Modern Britain Roderick Floud,Paul Johnson,2003 Publisher Description [The Globalization of Corporate Governance](#) Alan Dignam,Michael Galanis,2016-03-09 The process of economic globalization as product and capital markets have become increasingly integrated since WWII has placed huge and it is argued by some irresistible pressures on the world s insider stakeholder oriented corporate governance systems Insider corporate governance systems in countries such as Germany so the argument goes should converge or be transformed by global product and capital market pressures to the superior shareholder oriented outsider corporate governance model prevalent in the UK and the US What these pressures from globalization are how they manifest themselves whether they are likely to cause such a convergence transformation and whether these pressures will continue lie at the heart of the

exploration in this volume **The Globalization of Corporate Governance** provides a detailed analysis of the evolution of the key corporate governance systems in the UK the US and Germany from the perspective of the development of economic globalization As such it is a valuable resource for those interested in how economic and legal reforms interact to produce change within corporate governance systems **Indigeneity and Occupational Change** Birinder Pal Singh, 2019-08-29

This book is about the presence of the absent the tribes of Punjab India many of them still nomadic constituting the poorest of the poor in the state Drawing on exhaustive fieldwork and ethnographic accounts of more than 750 respondents it explores the occupational change across generations to prove their presence in the state before the Criminal Tribes Act was implemented in 1871 The archival reports reveal the atrocities unleashed by the colonial government on these people The volume shows how the post colonial government too has proved no different it has done little to bring them into the mainstream society by not exploiting their traditional expertise or equipping them with modern skills This book will be of great interest to scholars of sociology social anthropology social history public policy development studies tribal communities and South Asian studies **Reappraising State-Owned Enterprise** Franco Amatori, Robert Millward, Pier Angelo

Toninelli, 2013-06-17 After a quarter century of almost general condemnation and rebuttal of the entire nationalization experience it appears that there are second thoughts about governmental direct intervention in the economy **Reappraising State Owned Enterprise** deals with a topic often undervalued in the past decade but which now with the crisis of 2008 2009 calls for greater attention the direct intervention of the State as Entrepreneur The collection of essays in this volume prepared by some of the leading authorities in the field offers a contribution to this debate by providing a balanced assessment of two of the most relevant experiences of mixed economies the United Kingdom and Italy In this respect a comparison between these two countries is very much appropriate since in both nations the State played an important role as Entrepreneur starting in the early 20th century In Great Britain and Italy the heyday of the State as Entrepreneur was in the years right after WWII when it was used as a tool for promoting a modern society in which citizens acquired a stronger sense of belonging to their nations The UK and Italy saw the State take on a too pervasive role in the 70s the two nations responded in different ways In the 1980s Great Britain embarked on a harsh process of privatizations while Italians struggled on until finally submitting to privatizations in their nation in the following decade The deep crisis of the final years of the 21st century forced both nations to reconsider State interventions as an appropriate tool in order to protect the wellbeing of the national economy **Classic and Contemporary Readings in Sociology** Ian Marsh, Rosie Campbell, Mike

Keating, 2014-05-12 **Classic and Contemporary Readings in Sociology** introduces the reader to sociological issues theories and debates providing extracts of primary source material from both classical and contemporary theorists Theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research The text is divided into four main sections Part One Origins and Concepts surveys the history of the

discipline of sociology and examines key themes which have influenced sociological theorising and investigation in particular social control culture and socialisation Parts Two and Four Sociological Theories and Sociological Research include a number of readings from the founding theorists and investigators including Auguste Comte Emile Durkheim Karl Marx Max Weber and Charles Booth and also include more recent theoretical writing and research approaches The focus on theory and research is extended by a selection of readings centred around the theme of Differences and Inequalities Part Three these readings provide students with examples of work from an area where sociological theorising and research has been widely applied
