Canoe Nation Bruce Erickson,2013-06-15 More than an ancient means of transportation and trade the canoe has come to be a symbol of Canada itself In Canoe Nation Bruce Erickson argues that the canoe s sentimental power has come about through a set of narratives that attempt to legitimize a particular vision of Canada that overvalues the nation s connection to nature From Alexander Mackenzie to Grey Owl to Pierre Elliott Trudeau the canoe authenticates Canada s reputation as a tolerant environmentalist nation even when there is abundant evidence to the contrary Ultimately the stories we tell about the canoe need to be understood as moments in the ever contested field of cultural politics Bark Canoes and Skin Boats

of North America Edwin Tappan Adney Howard Irving Chapelle,2016-08-13 The bark canoes of the North American Indians particularly those of birch bark were among the most highly developed of manually propelled primitive watercraft Built with Stone Age tools from materials available in the areas of their use their design size and appearance were varied so as to create boats suitable to the many and different requirements of their users The great skill exhibited in their design and construction shows that a long period of development must have taken place before they became known to white men The Indian bark canoes were most efficient watercraft for use in forest travel they were capable of being propelled easily with a single bladed paddle This allowed the paddler unlike the oarsman to face the direction of travel a necessity in obstructed or shoal waters and in fast moving streams The canoes being light could be carried overland for long distances even where trails were rough or nonexistent Yet they could carry heavy loads in shallow water and could be repaired in the forest without special tools Bark canoes were designed for various conditions some for use in rapid streams some for quiet waters some for the open waters of lakes some for use along the coast Most were intended for portage in overland transportation as well They were built in a variety of sizes from small one man hunting and fishing canoes to canoes large enough to carry a ton of cargo and a crew or a war party or one or more families moving to new habitations Some canoes were designed so that they could be used turned bottom up for shelter ashore **Paddling Know-How: A Complete Guide to Mastering Your Canoe**

**The New Barbarism and the Modern West** Toivo Koivukoski,2014-08-06 Liberalism is being called into question both in practice and in principle from insurgencies at its bloody hinterlands and from the illiberal responses those insurgencies engender within the so called civilized world with technological integration creating the conditions for new forms of barbarism What then are the chances of progress towards a substantial equality of freedoms within this new context of retrograde attitudes framed by the occlusion of others as somehow essentially different How can we register the significances of cultural distinctions without letting those we s and they s split an emergent global civil society into parochial retro nations where belonging knows itself only by exclusion What is it that is being called out of the spirit of modernity in our seemingly backward moving age of essentialized others and self righteous rage And to the end of inter cultural understanding how can we come to know the other both through the care of others and in ourselves This work of political theory reflects on how cultures imagine their barbarians in the form of essentialized others focusing specifically on the kinds of barbarism associated with a civilization devoted to technological progress In response to the excesses of modernity the author looks to advances an ethic of difference inverting the golden rule so as to do unto others as those others would do unto themselves **The Modern Shooter ...** Richard Lacy,1842 **Canoe and Canvas** Jessica Dunkin,2019-08-22 Canoe and Canvas offers a detailed portrait of the summer encampments of the American Canoe Association between 1880 and 1910 The encampments were annual events that attracted canoeing enthusiasts from both sides of the Canada US border to socialize race canoes and sleep under canvas While the encampments were located away from cities they were still subjected

to urban logic and ways of living The encampments thus offer a unique site for exploring cultures of sport and leisure in late Victorian society but also for considering the intersections between recreation and the politics of everyday life A social history of sport Canoe and Canvas is particularly concerned with how gender class and race shaped the social cultural and physical landscapes of the ACA encampments Although there was an ever expanding arena of opportunity for leisure and sport in the late nineteenth century as the example of the ACA makes clear not all were granted equal access Most of the members of the American Canoe Association and the majority of the campers at the annual encampments were white middle class men though white women were extended partial membership in 1882 and in 1883 they were permitted to camp on site Canoe and Canvas also reveals how Black Indigenous and working class people while obscured in the historical record were indispensable to the smooth functioning of these events through their labour

**Hawaiian Modern** Vladimir Ossipoff, Marc Treib, 2007-01-01 At the forefront of the postwar phenomenon known as tropical modernism Vladimir Ossipoff 1907 1998 won recognition as the master of Hawaiian architecture Although he practiced at a time of rapid growth and social change in Hawaii Ossipoff criticized large scale development and advocated environmentally sensitive designs developing a distinctive form of architecture appropriate to the lush topography light and microclimates of the Hawaiian islands This book is the first to focus on Ossipoff's career presenting significant new material on the architect and situating him within the tropical modernist movement and the cultural context of the Pacific region The authors discuss how Ossipoff synthesized Eastern and Western influences including Japanese building techniques and modern architectural principles In particular they demonstrate that he drew inspiration from the interplay of indoor and outdoor space as advocated by such architects as Frank Lloyd Wright applying these to the concerns and vernacular traditions of the tropics The result was a vibrant and glamorous architectural style captured vividly in archival images and new photography As the corporate projects and private residences that Ossipoff created for such clients as IBM Punahou School Linus Pauling Jr and Clare Boothe Luce surpass their fiftieth anniversaries critical assessment of these structures offered here by distinguished scholars in the field will illuminate Ossipoff's contribution to the universal challenge of making architecture that is delightfully particular to its place and durable over time The Canoe and White Water C.E.S.

Franks, 1977-12-15 The exhilaration of challenging and surviving rapids in a fragile canoe has made white water canoeing one of the fastest growing sports in Canada Much of this book is concerned with analyzing white water with the techniques for handling it rather than trying to conquer it by brute force with canoeing safety and with the planning and organizing of safe but adventurous trips But *The Canoe and White Water* goes far beyond primers in canoeing skills It sets the sport in the contexts of history technology geology and physics The author describes how canoes have been made over the centuries the factors governing their design and the features to look for in choosing one today In tracing the history of the canoe he rediscovers part of the Canadian heritage His own experience has led him to pursue the sciences which help the canoeist understand the sport he discusses the physics of river turbulence the geological formation of rivers and environmental questions His interests range from the personal rights of modern canoeists to the eating habits of the voyageurs of old The book reflects his enthusiasm and his research The text is illustrated with modern photographs instructive drawings of paddle strokes and river situations It is a clear concise and interesting account which will delight the enthusiast and intrigue the curious
