Modern English Novel:

The Modern British Novel Malcolm Bradbury, 2001 Bradbury argues that almost a century since the emergence of Modernism it is now possible to see the entire period in perspective It is clear that the first 50 years from Henry James Wilde and Stevenson through James Joyce Lawrence Forster to Huxley Isherwood and Orwell have been extensively discussed in print The years since World War II though have not been examined in depth yet have produced talents such as Graham Greene Angus Wilson Beckett Doris Lessing Margaret Drabble Angela Carter Ian McEwan Kingsley and Martin Amis Julian Barnes Fay Weldon Salman Rushdie and Timothy Mo

Dark Humour and Social Satire in the Modern British Novel L. Colletta, 2003-09-30 Colletta uses psychoanalytic theories of joke work and gallows humour to argue that dark humour is an important defining characteristic of Modernism She brings together the usual suspects alongside more often overlooked writers from the period and asks probing questions about the relationship between a dark humour that revels in the non

rational the unstable and the fragmented and resists easy definition and political usefulness and the historical and social circumstances of the period Colletta makes a compelling argument that probing deeply into the nature of humour or satire that define these social comedies brings to light a more complex and more accurate understanding of the social changes and historical circumstances that define the modern era [Chance and the Modern British Novel](#) Julia Jordan,2010-06-03

Chance and its representation in literature has a long and problematic history It is a vital aspect of the way we experience the world and yet its function is frequently marginalised and downplayed Offering a new reading of the development of the novel during the mid twentieth century Jordan argues that this simple novelistic paradox became more pressing during a period in which chance became a cultural scientific and literary preoccupation through scientific developments such as quantum mechanics and the uncertainty principle the influence of existential philosophy the growth of gambling and the uncertainty provoked by the Second World War In tracing the novel s representation of chance during this crucial period we see both the development of the novel and draw wider conclusions about the relationship between narrative and the contingent the arbitrary and the uncertain While the novel had historically rejected marginalised or undermined chance during this period it becomes a creative and welcome co contributor to the novel s development as writers such as Samuel Beckett B S Johnson Henry Green and Iris Murdoch show **Childhood in the Contemporary English Novel** Sandra Dinter,2019-10-10

Since the 1980s novels about childhood for adults have been a booming genre within the contemporary British literary market Childhood in the Contemporary English Novel offers the first comprehensive study of this literary trend Assembling analyses of key works by Ian McEwan Doris Lessing P D James Nick Hornby Sarah Moss and Stephen Kelman and situating them in their cultural and political contexts Sandra Dinter uncovers both the reasons for the current popularity of such fiction and the theoretical shift that distinguishes it from earlier literary epochs The book s central argument is that the contemporary English novel draws on the constructivist paradigm shift that revolutionised the academic study of childhood several decades ago Contemporary works of fiction Dinter argues depart from the notion of childhood as a naturally given phase of life and examine the agents interests and conflicts involved in its cultural production Dinter also considers the limits of this new theoretical impetus observing that authors and scholars alike even when they claim to conceive of childhood as a construct do not always give up on the idea of its natural core Accordingly this book reconstructs how the English novel between the 1980s and the 2010s oscillates between an acknowledgment of constructivism and an endorsement of childhood as the last irrevocable quintessence of humanity In doing so it successfully extends the literary and cultural history of childhood to the immediate present [An Introduction to the English Novel](#) Arnold Kettle,2016-03-17

First published in 1953 this book forms the second part of Arnold Kettle s An Introduction to the English Novel In this second part Kettle builds a discussion of the modern English novel around the study of various books that have a more than casual significance in its development He begins with an analysis of James Hardy and Butler three late Victorian writers whose work

points forward to the major preoccupations of twentieth century novelists In his discussion of a dozen or so of these points the author examines their progress in the long struggle of the novelist to see life steadily and whole and points out some of the problems and hazards that beset the writer still The selection both of novelists and their work is excellent it is both shrewd and witty The Times Literary Supplement Altogether this is a refreshing challenging and original work wholly adult in tone and never pedantic or dull The Guardian

On Modern British Fiction Zachary Leader, 2002 In this volume fourteen of today's very best novelists and critics join forces to create a landmark study of the last 50 years of British fiction Essays by Martin Amis Ian McEwan Hilary Mantel James Wood Christopher Hitchens Michael Wood Elaine Showalter and others range from modern historical fiction and nationality to lad lit and the comic tradition from criticism and reviewing to the reception of British fiction in America Among the many writers explored here are Angus Wilson Angela Carter Iris Murdoch Penelope Fitzgerald V S Pritchett Naipaul and Rushdie Provocative and insightful this is a must read for anyone interested in modern fiction

Contemporary British Novel Since 2000 James Acheson, 2017-01-17 Focuses on the novels published since 2000 by twenty major British novelists The Contemporary British Novel Since 2000 is divided into five parts with the first part examining the work of four particularly well known and highly regarded twenty first century writers Ian McEwan David Mitchell Hilary Mantel and Zadie Smith It is with reference to each of these novelists in turn that the terms arealist apostmodernist ahistorical and apostcolonialist fiction are introduced while in the remaining four parts other novelists are discussed and the meaning of the terms amplified From the start it is emphasised that these terms and others often mean different things to different novelists and that the complexity of their novels often obliges us to discuss their work with reference to more than one of the terms Also discusses the works of Maggie O'Farrell Sarah Hall A L Kennedy Alan Warner Ali Smith Kazuo Ishiguro Kate Atkinson Salman Rushdie Adam Foulds Sarah Waters James Robertson Mohsin Hamid Andrea Levy and Aminatta Forna

Handbook of the English Novel of the Twentieth and Twenty-First Centuries Christoph Reinfandt, 2017-06-12 The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty first century status of eccentric eminence in new media environments Systematic chapters address The English Novel as a Distinctly Modern Genre The Novel in the Economy Genres Gender performativity masculinities feminism queer and The Burden of Representation class and ethnicity Extended contextualized close readings of more than twenty key texts from Joseph Conrad's Heart of Darkness 1899 to Tom McCarthy's Satin Island 2015 supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives

Risk and the English Novel Julia Hoydis, 2019-09-23 Taking the cue from the currency of risk in popular and interdisciplinary academic discourse this book explores the development of the English novel in relation to the emergence and institutionalization of risk from its origins in probability theory in the late seventeenth century to the global risk society in the twenty first century Focussing on 29 novels from Defoe to McEwan this book argues for the

contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic literary cultural perspective Tracing changes and continuities the fictional case studies reveal the human preoccupation with safety and control of the future They show the struggle with uncertainties and the construction of individual or collective logics of risk which oscillate between rational calculation and emotion helplessness and denial and an enabling or destructive sense of adventure and danger Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives this book shows how topical notions such as chance and probability uncertainty and responsibility fears of decline and transgression all cluster around risk *Institutions of the English Novel* Homer Obed

Brown, 2015-02-23 In *Institutions of the English Novel* Homer Obed Brown takes issue with the generally accepted origin of the novel in the early eighteenth century Brown argues that what we now call the novel did not appear as a recognized single genre until the early nineteenth century when the fictional prose narratives of the preceding century were grouped together under that name After analyzing the figurative and thematic uses of private letters and social gossip in the constitution of the novel Brown explores what was instituted in and by the fictions of Defoe Fielding Sterne and Scott with extensive discussion of the pivotal role Scott's work played in the novel's rise to institutional status This study is an intriguing demonstration of how these earlier narratives are involved in the development and institution of such political and cultural concepts as self personal identity the family and history all of which contributed to the later possibility of the novel *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature* The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **A Reader's Guide to the Twentieth-century Novel in Britain** Randall

Stevenson, 1993-01-01 The novel is the major literary phenomenon of the twentieth century and its development in Britain since 1900 has reflected the tumultuous changes that have characterized modern society Randall Stevenson now presents an accessible and authoritative guide to the work of the century's leading novelists as well as many of its lesser known writers In this stimulating and wide ranging account Stevenson locates the work of individual writers from Conrad to Jeanette Winterson within an evolving literary history and the wider context of social political and cultural change Included are British writers working in exile and writers with origins elsewhere such as James and Rushdie who have chosen to work in Britain Women novelists are accorded their rightful prominence This clear and lively survey deals with a broad range of movements including modernism and postmodernism as well as the influence of other world literatures and the impact of two world wars

An ideal text this is a guide in the best sense concise and lucid well informed and perceptive Readers new to the field will appreciate Stevenson s clear direction while the experienced will be delighted by newly revealed connections and fresh perspectives
