this deserted area is painted in a fluffy blue growing fainter in color as it leaves the banks and across it may be seen in large straggling letters the word S mpfe meaning marshes In high flood this great acreage of sand shingle beds and willow grown islands is almost topped by the water but in normal seasons the bushes bend and rustle in the free winds showing their silver leaves to the sunshine in an ever moving plain of bewildering beauty These willows never attain to the dignity of trees they have no rigid trunks they remain humble bushes with rounded tops and soft outline swaying on slender stems that answer to the least pressure of the wind supple as grasses and so continually shifting that they somehow give the impression that the entire plain is moving and alive For the wind sends waves rising and falling over the whole surface waves of leaves instead of waves of water green swells like the sea too until the branches turn and lift and then silvery white as their under side turns to the sun Happy to slip beyond the control of stern banks the Danube here wanders about at will among the intricate network of channels intersecting the islands everywhere with broad avenues down which the waters pour with a shouting sound making whirlpools eddies and foaming rapids tearing at the sandy banks carrying away masses of shore and willow clumps and forming new islands innumerable which shift daily in size and shape and possess at best an impermanent life since the flood time obliterates their very existence Properly speaking this fascinating part of the river s life begins soon after leaving Pressburg and we in our Canadian canoe with gipsy tent and frying pan on board reached it on the crest of a rising flood about mid July That very same morning when the sky was reddening before sunrise we had slipped swiftly through still sleeping Vienna leaving it a couple of hours later a mere patch of smoke against the blue hills of the Wienerwald on the horizon we had breakfasted below Fischeramend under a grove of birch trees roaring in the wind and had then swept on the tearing current past Orth Hainburg Petronell the old Roman Carnuntum of Marcus Aurelius and so under the frowning heights of Theben on a spur of the Carpathians where the March steals in quietly from the left and the frontier is crossed between Austria and Hungary

Michael R. Lynn, 2022-03-17 Magic Witchcraft and Ghosts in the Enlightenment argues for the centrality of magical practices and ideas throughout the long eighteenth century. Although the hunt for witches in Europe declined precipitously after 1650 and the intellectual justification for natural magic came under fire by 1700, belief in magic among the general population did not come to a sudden stop. The philosophes continued to take aim at magical practices alongside religion as examples of superstitions that an enlightened age needed to put behind them. In addition to a continuity of beliefs and practices, the eighteenth century also saw improvement and innovation in magical ideas, the understanding of ghosts, and attitudes toward witchcraft. The volume takes a broad geographical approach and includes essays focusing on Great Britain, England, and Ireland, France, Germany, and Hungary. It also takes a wide approach to the subject and includes essays on astrology, alchemy, witchcraft, cunning folk, ghosts, treasure hunters, and purveyors of magic. With a broad chronological scope that ranges from the end of the seventeenth century to the early nineteenth century, this volume is useful for undergraduates, postgraduates, scholars, and those with a general interest in magic, witchcraft, and spirits in the Enlightenment.
