Modern Jewellers Gem Profile The First 60:

Modern Jeweler's Consumer Guide to Colored Gemstones David Federman, 2012-12-06 Since early 1989 a gem dealer I've known for years has been calling me every few weeks to brief me on mounting mayhem in Colombia's lucrative emerald market. The troubling gist of these calls is always this: There is a full-fledged turf war going on between that South American country's bustling drug and gem trades for control of its emerald export business. According to this dealer and several others anywhere from two to four thousand emerald industry people, mostly miners and dealers, have been murdered since 1980. No doubt the gem sector itself never gun-shy has retaliated in full and in kind. After all, the two groups have banded together in an intermittent alliance against a common enemy: Communist guerrillas. With results the CIA would envy. I mention this bloodshed because of something the gem dealer once said to me: I bet you never think of what a gem has to go through to get to a jewelry store. He's right. I tend to think of colored stones as things of beauty, not objects of gruesome power struggles between mining kingpins and drug lords. Can you blame me or anyone with insider knowledge if a gem sheds any connection with its past once sculpted by a cutter into the glittering marvel we see in a jeweler's showcase. Like Odysseus listening to the sirens' song, we become victims of an aesthetics-induced amnesia. *Paperbound Books in Print*, 1992

Gems & Gemology, 1999

Modern Jeweler's Gem Profile David Federman, 1988 *Ruby & Sapphire* Richard W. Hughes, 1997 The most complete book ever on the corundum gems: ruby, sapphire. Covers all the history, crystallography, physics, chemistry, geology, inclusions, treatments, synthetics, cutting, and world sources. Over 3000 references. There is no other book like it.

Forthcoming Books Rose Arny, 1998 *Books in Print*, 1994 *Ancient and Modern Gems and Jewels* Cristina Piacenti Aschengreen, John Boardman, 2008 This catalogue is the first comprehensive study of the 328 objects that make up this little-known area of the Royal Collection. The ancient gems and intaglios have been catalogued by John Boardman, and although they are few in number, they include the magnificent Claudius cameo that was once in the collection of Charles I. The later post-Renaissance pieces have been studied by Kirsten Aschengreen Piacenti, and these include the great Tudor portrait cameos, a superb series of Italian sixteenth-century portrait cameos of North Italian Beauties, the group of exquisite eighteenth-century Italian carnelians bought by George III from Consul Smith in 1762, and a fine selection of Garter badges, several bearing the signature of the gem engravers Marchant and Burch. Close examination by gemmologists has produced an accurate technical analysis of all the stones and settings, and newly commissioned photographs bring out the distinctive features of each piece. Casts are illustrated wherever possible, and close-up images of signatures, inscriptions, and hallmarks support the detailed descriptions in the text. Research into the collection has resulted in new information concerning the mounts of many of the gems, and this is summarised in an illustrated appendix. Also published in full and for the first time is the collection of intaglios once owned by Henry Prince of Wales, which was recorded in a series of wax impressions made by
