The Only Tradition William W. Quinn, 1997-02-06 Examines the first principles of the perennial philosophy or ancient wisdom tradition as expressed in the writings of its great exponents Rene Guenon and Ananda K Coomaraswamy and offers a critique of the West from the standpoint of traditional principles **Modernism and the Crisis of Sovereignty** Andrew John Miller, 2020-09-19 This book describes how three of the most significant Anglophone writers of the first half of the twentieth century Yeats Eliot and Woolf wrestled with a geopolitical situation in which national boundaries had come to seem increasingly permeable at the same time as war among and within individual nation states had come to seem virtually inescapable Drawing on Jean Fran ois Lyotard s analysis of the elements of performativity in J L Austin s speech act theory and making critical use of Carl Schmitt s writings on sovereignty and world order Miller situates the writings of Yeats Eliot and Woolf in the context of what Lyotard describes as a civil war of language By virtue of its dissolution of any clear boundary between interiority and exteriority as well as by virtue of its resistance to any decisive form of resolution or regulation this civil war of language takes on dimensions that are ultimately global in scope Miller examines the emergence of modernism as bound up with a crisis of personal political and aesthetic sovereignty that undermined traditional distinctions between the public and private In the process he directly engages with the theoretical discourse surrounding the geopolitical impact of globalization and biopolitics a discourse that is central to the influential and widely debated work of such varied figures as Carl Schmitt Hardt and Negri Giorgio Agamben and Jean Luc Nancy This book will be of interest to anyone concerned not only with twentieth century literature but also with questions of nationalism and globalization

Hobhouse and John Dewey to John Rawls The author places Rawls within a longstanding tradition of liberal thinking while also arguing that Green and Hobhouse are not simply of historical interest but represent genuine and interesting attempts to develop a modern liberal theory It is argued that modern liberal theory centres on a conception of human nature that modern liberals have sought to harmonise the pursuit of individuality with participation in social and communal life Although the book focuses on six modern liberals the discussion proceeds topically rather than according to author thus highlighting similarities and disagreements and providing a comprehensive study of modern liberalism Sport in the Modern World — Chances and Problems Ommo Grupe, Dietrich Kurz, Johannes M.
