## **Modern Nation:**

The Teleology of the Modern Nation-State Joshua A. Fogel, 2017-05-15 Japan and China did not begin to emerge as unified political entities until the nineteenth century Yet scholars and politicians persistently refer to Japan and China in discussions of earlier periods as if the modern nation state had long been established in these regions Joshua Fogel here brings together essays by eight renowned East Asian scholars to demonstrate why this oversight distorts our historical analysis and understanding of both countries The nation states of Japan and China developed much later and indeed far less uniformly than usually conveyed in popular myth and political culture Moreover the false depiction of an earlier national identity not only alters the factual record it serves the contemporary engines of nationalist mythology and propaganda This interdisciplinary volume asks deceptively simple questions When did Japan and China become Japan and China When and why do inhabitants begin to define their identity and interests nationally rather than locally Identifying the role of mitigating factors from disease and travel abroad to the subtleties of political language and aesthetic sensibility the answers provided in these diverse and insightful essays are appropriately complex By setting aside Western notions of the nation state the contributors approach each region on its own terms while the thematic organization of the book provides a unique lens through which to view the challenges common to understanding both Japan and China This highly readable collection will be important to scholars both inside and beyond the field of East Asian studies

**Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939** , The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by dictatorship civil war and Franco's rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of El Pueblo Espa ol a model Spanish village featured at the 1929

International Exposition in Barcelona She then discusses Bu uel s and Dal s documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso s famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson s book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture
