A History of Modern Mercenary Warfare Harry McCallion, 2024-04-18 Explores the development of modern mercenary forces from the British operation in Yemen in late 1960 s to today's War in Ukraine Since before the time of Alexander the Great trained soldiers have sold their expertise on battlefield around the World fighting and dying in other people's wars for money glory or the lust for violence and combat In this book Harry McCallion explores the development of modern mercenary forces from the British SAS led deniable operation in Yemen in late 1960 s during which the Israelis were persuaded to arm the SAS led Yemeni tribesmen through the bush wars in Africa Britain's ill fated intervention in the war in Afghanistan right up to today's War in Ukraine Many of the modern day British mercenaries were known to the author personally including such notably figures as the legendary SAS Fijian warriors Tak Takevesia who although in his early sixties shot his way out of an ambush in Bagdad and Fred Big Fred Mrafano who devoted himself to the cause of the people of Serra Leone SAS veteran Bill Scully who received the Queen's Gallantry

Medal single handedly protected 1 300 civilians from rebel troops during the uprising in May 1997 after the Sierra Leone coup and American Vietnam veteran Major Mac Mackenzie who although badly wounded in Vietnam rose from trooper to command a Rhodesian SAS squadron and was one of the units most highly decorated soldiers Also included are more notorious figures like Costas Georgiou also known by his alias Colonel Callan who served in the 1st Battalion of the Parachute Regiment but was dishonorably discharged and sentenced to five years in prison for a post office robbery later he proclaimed himself a Colonel and led a group of psychopathic mercenaries in the Angolan War of Independence before being captured and executed by Angolan forces The book explores the roles of modern day mercenaries who s use has expanded precisely because they are mercenaries fighting for money and not love of country their deaths are not seen as a patriotic sacrifice often they go unreported and in turn helps to conceal the true tragic human cost of waging a war As one former private military contractor recently stated to Australian TV If you want to conquer in the 21st century you use mercenaries special forces things to keep war secret and nobody s better at secret wars than mercenaries

Reading Modern Law Ruth Buchanan, Stewart Motha, Sundhya Pahuja, 2012-05-31 Reading Modern Law identifies and elaborates upon key critical methodologies for reading and writing about law in modernity The force of law rests on determinate and localizable authorizations as well as an expansive capacity to encompass what has not been pre figured by an order of rules The key question this dynamic of law raises is how legal forms might be deployed to confront and disrupt injustice The urgency of this question must not eclipse the care its complexity demands This book offers a critical methodology for addressing the many challenges thrown up by that question whilst testifying to its complexity The essays in this volume engagements direct or oblique with the work of Peter Fitzpatrick chart a mode of resisting the proliferation of social scientific methods as much as geo political empire The authors elaborate a critical and interdisciplinary treatment of law and modernity and outline the pivotal role of sovereignty in contemporary formations of power both national and international From various overlapping vantage points therefore Reading Modern Law interrogates law s relationship to power as well as its relationship to the critical work of reading and writing about law in modernity

Public Health in Asia

and the Pacific Milton J. Lewis, Kerrie L. MacPherson, 2007-10-19 The Asia Pacific region has not only the greatest concentration of population but is arguably the future economic centre of the world. Epidemiological transition in the region is occurring much faster than it did in the West and many countries face the emerging problem of chronic diseases at the same time as they continue to grapple with communicable diseases. This book explores how disease patterns and health problems in Asia and the Pacific and collective responses to them have been shaped over time by cultural, economic, social, demographic, environmental, and political factors. With fourteen chapters, each devoted to a country in the region, the authors take a comparative and historical approach to the evolution of public health and preventive medicine and offer a broader understanding of the links in a globalizing world between health on the one hand and culture, economy, polity, and society on the other. *Public Health in Asia and the Pacific* presents the importance of the non-medical context in the history of human disease as well as the significance of disease in the larger histories of the region. It will appeal to scholars and policy makers in the fields of public health, the history of medicine, and those with a wider interest in the Asia Pacific region.

Making the Modern Primitive Michelle MacCarthy, 2016-06-30 *Making the Modern Primitive* provides an anthropological analysis of the encounter between local residents and tourists in the Trobriand Islands, a place renowned in anthropology and represented in various media as culturally authentic. In such a place, how are ideas about authenticity implicated in creating and representing the self and cultural Others in the context of cultural tourism? Michelle MacCarthy addresses this question by examining four arenas of interaction between Trobriand Islanders and tourists: formal performances, informal village visits, souvenir shopping, and tourist photography. Drawing on both symbolic interpretive approaches and concepts drawn from economic anthropology, she examines the relationship of tourism to the commoditization of culture, the ways in which local residents actively represent and enact Trobriandness, and the ways tourists interpret and narrate their experience. MacCarthy offers an anthropological critique of concepts of authenticity, tradition, and cultural commodification based on long-term fieldwork among Trobriand Islanders and tourists. These notions, which have particular meanings as analytical concepts in anthropology, are also used and strategically deployed in the discourses of both Trobriand Islanders and tourists. Ideas about primitivity and cultural essentialism, while critiqued by anthropologists, are nonetheless used by both parties in tourism interactions to conceptualize and contextualize difference. MacCarthy demonstrates how such tropes are employed in ways that fit with prevailing metanarratives which each side holds about the other and how these tropes are reproduced both in individual narratives of both tourists and Trobrianders' experiences and in their interpretations, often misconstrued, of the lives of cultural Others with whom they interact. She examines the social dimensions of cross-cultural exchange in these four arenas: performance, village life, souvenirs, photography, to argue that cultural commodities are conceived of as singularities, a special category whose commodity status is downplayed in order to generate an increased sense of authenticity and to perpetuate the myth of a primitive economy and way of life more generally. In touristic encounters, experience itself is a sort

of commodity but relationships real or imagined are central to investing these experiences with meaning and value This analysis contributes new understandings of the role and significance of authenticity in the anthropology of tourism and its relationship to exchange that is how meaning and value are ascribed to the cultural products produced and consumed in the cultural tourism encounter with reference to ideas about what is and isn't authentic Teen Gangs Maureen P. Duffy, Scott E. Gillig, 2004-03-30 Teen gangs are a hot issue in the United States This volume shows the international scope of the phenomenon today Gang activity in 14 countries including the United States is discussed within the larger framework of social and economic conditions Each chapter explains the nature of the gang activity in that country touches on the causes such as poverty marginalization and self identity problems and heavily emphasizes the responses including education and community based intervention Students and researchers will find a wealth of current information on teen gangs to mine and use for comparisons
