Modern Poetry Of Western America:

A Literary History of the American West Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance **The Cambridge**

Scott Bryson, 2005-04-01 In contrast to nature poets of the past who tended more toward the bucolic and pastoral many contemporary nature poets are taking up radical environmental and ecological themes In the last few years interesting and evocative work that examines this poetry has begun to lay the foundation for studies in ecopoetics Informed in general by current thinking in environmental theory and specifically by the work of cultural geographer Yi Fu Tuan *The West Side of Any Mountain* participates in and furthers this scholarly attention by offering an overarching theoretical framework with which to approach the field One area

that contemporary theorists have found problematic is the dualistic civilization wilderness binary that focuses on the divisions between culture and nature thereby increasing the modern sense of alienation Tuan's place space framework offers a succinct vocabulary for describing the attitudes of ecological poets and other nature writers in a way that avoids setting up an adversarial relationship between place and space Scott Bryson describes the Tuanian framework and employs it to offer fresh readings of the work of four major ecopoets Wendell Berry Joy Harjo Mary Oliver and W S Merwin *The West Side of Any Mountain* will be of great interest to scholars and teachers working in the field of contemporary nature poetry It is recommended for nature writing courses as well as classes dealing with 20th century poetry contemporary literary criticism and environmental theory **A Companion to the Literature and Culture of the American West** Nicolas S.

1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Another Place** Andrew Elkins, 2002 Contending that many good poets live and write in the American West Andrew Elkins suggests that the western landscape be it New Mexico desert or Alaskan wilderness shapes the work that is created there The place s essence and spirit inevitably become part of the work that flows from the poet s creativity Elkins examines the work of Peggy Pond Church John Haines Adrian C Louis Richard Hugo Jane Hirshfield and several cowboy poets Texas Christian University Press **A History of Western Appreciation of English-translated Tang Poetry** Lan Jiang, 2018-03-08 This book examines the development of English translated Tang poetry and its propagation to the Western world It consists of two parts the first of which addresses the initial stage of English translated Tang poetry s propagation and the second exploring its further development By analyzing the historical background and characteristics of these two stages the book traces the trend back to its roots discusses some well known early sinologists and their contributions and familiarizes readers with the general course of Tang poetry s development In addition it presents the translated versions of many Tang poems The dissemination of Tang poetry to the Western world is a significant event in the history of cross cultural communication From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts the Tang poetry translators gradually constructed a classic Chinese style in modern American poetry Hence the traditional Chinese culture represented by Tang poetry spread more widely in the English speaking world producing a more lasting impact on societies and cultures outside China and demonstrating the poetry s ability to transcend the boundaries of time region nationality and culture Due to different cultural backgrounds the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China Sometimes language barriers and cultural differences make it impossible to represent certain allusions or cultural and ethnic concepts correctly during the translation process However in recent decades the translation of Tang poetry has evolved considerably in both quantity and quality As culture is manifested in language and language is part of culture the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture
