How are we to understand past political thinkers Is it a matter simply of reading their texts again and again Do we have to relate past texts of political thought to the contexts in which ideas were composed and in which the aims of past thinkers were formulated Or should past political theories be deconstructed so as to uncover not what their authors maintain but what the texts reveal In this book theories of interpreting past political thinkers are examined and the interpretive methods of a range of theories are reviewed including those of Hegel Marx Oakeshott Collingwood the Cambridge School Foucault Derrida and Gadamer The application of these theories of interpretation to notable modern political theorists Machiavelli Hobbes Locke Rousseau Kant Hegel Marx Bentham Mill Nietzsche and Beauvoir is then used as a way of understanding modern political thought and of assessing interpretive theories of past political thought The result is a book which sees the history of modern political thought as more than a procession of political theories but rather as a reflection on the meaning of past political thought and its interpretation It provides a way of reading the history of modern political thought in which the question of interpretation matters both for understanding how we interpret the past but also for considering what it means to undertake political thinking      **Communications and Political Development. **Capital in Political Development in Iran** Ali Abolali Aghdaci, 2020-10-21 Aghdaci argues that Iran has not yet sustained political development due to negligence by its leaders resulting in a decline of public trust in post revolutionary governments. He takes a statistical look at the reduction of social capital in Iran and suggests ways this trend can be reversed and political development can be maximized. The role of social capital in political development and their relevance to Hashemi Khatami and Mahmoud Ahmadinejad's presidencies has been relatively neglected in the scholarship. In *Social Capital in Political Development in Iran* Ali Abolali Aghdaci fills that void by discussing how states can create social development platforms and proposing an integrated model of social capital and political development. Aghdaci argues that the path to peak political development has not yet been sustained by any government in Iran because in all post revolutionary governments the people's trust in the government has fallen sharply due to the negligence and practices of the leaders in the political system. This book takes a statistical look at the reduction of social capital in Iran and suggests ways this trend can be reversed and political development can be maximized.

**Gaming, Simulations and Society** International Simulation and Gaming Association. International Conference, R. Shiratori, K. Arai, F. Kato, 2005. Annotation: This book presents a current research scope and perspective of Simulation and Gaming. Theoretical problems of Simulation and Gaming will be examined with a view to improving the social sciences through the introduction of the techniques and concepts of Simulation and Gaming. The fields of economics, political science, psychology, and business management can all be radically improved by introducing such techniques of Simulation and Gaming as the Agent Based Modelling. Other important topics are the analysis of philosophical foundations in Simulation and Gaming as an academic discipline. The ever growing and massive popularity of PC and arcade games cannot be ignored. Their potential as agents of education and their essentially violent nature raise many ethical and moral problems that need to be addressed.
