Myth Of Japanese Uniqueness:

The Myth of Japanese Uniqueness Peter N. Dale, 1986-01-01 *The Myth of Japanese Uniqueness* Peter N. Dale, 1986

The Myth of Japanese Uniqueness Revisited Peter N. Dale, 1988 *Breaking the Myth of Japanese Uniqueness* Mikiko Morimura, 1992 **"Myths of Japanese uniqueness"** Helen Z. Stauffer, 1989 **Handbook of Japanese Mythology**

Michael Ashkenazi, 2003-11-05 An introductory guide to the mythology of Japan one of the most pervasive yet least understood facets of Japanese culture Handbook of Japanese Mythology makes it easy to travel this vast yet little known mythological landscape The book reveals the origins of Japan's myths in the very different realms of Buddhism Shinto and folklore and explores related mythologies of the Ainu and Okinawan cultures and recent myths arising from Japan's encounters with modernization It then offers vivid retellings of the central Shinto and Buddhist myths plus descriptions of major historical figures icons rituals and events For students or long time enthusiasts it is the ideal guide for investigating Japanese reverence for the sun the imperial family and the virtues of purity and loyalty Readers will also learn why sumo wrestlers stomp before each match how a fussy baby creates thunder why Japan has a god for soccer and much more

Curators of the Buddha Donald S. Lopez Jr., Donald S. Lopez, 1995-08-15 A critical history of the study of Buddhism in the West incorporating insights of colonial and post colonial cultural studies Social political and cultural conditions that have shaped the course of Buddhist studies are discussed *Rethinking Japan's Identity and International Role* Susanne Klien, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Japanese Myths** Melanie Clegg, 2023-11-06 Illustrated with 150 photographs and artworks Japanese Myths is an accessible entertaining and highly informative exploration of everything from the kami holy spirits venerated in Shinto religion to the divine origins of the Japanese imperial family **The SAGE Handbook of Propaganda** Paul Baines, Nicholas O'Shaughnessy, Nancy

Snow, 2019-11-25 The SAGE Handbook of Propaganda unpacks the ever present and exciting topic of propaganda to explain how it invades the human psyche in what ways it does so and in what contexts As a beguiling tool of political persuasion in times of war peace and uncertainty propaganda incites people to take often violent action consciously or unconsciously This pervasive influence is particularly prevalent in world politics and international relations today In this interdisciplinary Handbook the editors have gathered together a group of world class scholars from Europe America Asia and the Middle East to discuss leadership propaganda war propaganda propaganda for peace marketing propaganda as a psychological tool terror enhanced propaganda and the contemporary topics of internet mediated propaganda Unlike previous publications on the subject this book brings to the forefront current manifestations and processes of propaganda such as Islamist and Far Right propaganda from interdisciplinary perspectives In its four parts the Handbook offers researchers and academics of propaganda studies peace and conflict studies media and communication studies political science and governance marketing as well as intelligence and law enforcement communities a comprehensive overview of the tools and context of the

development and evolution of propaganda from the twentieth century to the present Part One Concepts Precepts and Techniques in Propaganda Research Part Two Methodological Approaches in Propaganda Research Part Three Tools and Techniques in Counter Propaganda Research Part Four Propaganda in Context Postwar Japan as History Andrew Gordon,1993-10-20 As they examine three related themes of postwar history the authors describe an ongoing historical process marked by unexpected changes such as Japan s extraordinary economic growth and unanticipated continuities such as the endurance of conservative rule From publisher s description *Diversity in Japanese Culture and Language* John C. Maher,Gaynor Macdonald,2012-11-12 This is the first in depth study of the other Japan the diverse and complex culture that belies the conventional portrayal of Japan as a homogenous entity Moving fascinating and surprising this book sets out the largely untold story of the cultural ethnic and linguistic diversity found in Japan today where members of marginal societal groups are ignored by the mainstream on the grounds of physical ethnic religious or other differences Among them are the Ainu Koreans Buraku women returnees and the deaf for all of whom this work serves as a forum to give eloquent voice to their history and present situation This unique study describes the existing plurality in Japan in order to start balancing the perspectives which currently exist in the non Japanese literature about Japan to challenge the myth of Japanese uniqueness by focusing on very common experiences that Japanese people share with peoples in other parts of the world and above all to counteract the common tendency to see complexity as a threat by illustrating the value to society as a whole of diversity and cultural plurality **The Social Self in Zen and American Pragmatism** Steve Odin,1996-01-01 This is the first book on East West comparative thought to critically analyze the Zen Buddhist model of self in modern Japanese philosophy from the standpoint of American pragmatism **Religion and Psychotherapy in Modern Japan** Christopher Harding,Iwata Fumiaki,Yoshinaga Shin'ichi,2014-09-15 Since the late nineteenth century religious ideas and practices in Japan have become increasingly intertwined with those associated with mental health and healing This relationship developed against the backdrop of a far broader and deeply consequential meeting between Japan s long standing Chinese influenced intellectual and institutional forms and the politics science philosophy and religion of the post Enlightenment West In striving to craft a modern society and culture that could exist on terms with rather than be subsumed by western power and influence Japan became home to a religion psy dialogue informed by pressing political priorities and rapidly shifting cultural concerns This book provides a historically contextualized introduction to the dialogue between religion and psychotherapy in modern Japan In doing so it draws out connections between developments in medicine government policy Japanese religion and spirituality social and cultural criticism regional dynamics and gender relations The chapters all focus on the meeting and intermingling of religious with psychotherapeutic ideas and draw on a wide range of case studies including how temple and shrine cures of early modern Japan fared in the light of German neuropsychiatry how Japanese Buddhist theories of mind body and self cultivation negotiated with the findings of western medicine how Buddhists Christians and other organizations and groups

drew and redrew the lines between religious praxis and psychological healing how major European therapies such as Freud's fed into self-consciously Japanese analyses of and treatments for the ills of the age and how distress, suffering and individuality came to be reinterpreted across the twentieth and early twenty-first centuries from the southern islands of Okinawa to the devastated northern neighbourhoods of the Tohoku region after the earthquake tsunami and nuclear disasters of March 2011. Religion and Psychotherapy in Modern Japan will be welcomed by students and scholars working across a broad range of subjects including Japanese culture and society, religious studies, psychology and psychotherapy, mental health and international history.

Imagining Japan Robert Neelly Bellah, 2003. Bellah is a sociologist with a grand vision of history deeply concerned with the twists and turns of religious values, weaving pre-modern religious thinking into the debates of modernization and modernity. He takes a reflective turn with *Imagining Japan*, evidencing his profound concern with religious evolution. Tetsuo Najita, University of Chicago. One of the most original attempts to understand some of the psychological and symbolic roots of the central problems in Japanese history, Bellah masterfully brings together intellectual and institutional dimensions of Japan, making a very important contribution to Japanese Studies. S. N. Eisenstadt, Professor Emeritus at Hebrew University and author of *Japanese Civilization: A Comparative View*. *Ideology and Practice in Modern Japan* Roger Goodman, Kirsten Refsing, 2002-09-11. The issue of how Japanese society operates and in particular why it has succeeded has generated a wide variety of explanatory models including the Confucian ethic, classlessness, group consciousness and uniqueness in areas as diverse as body images and language patterns. In *Ideology and Practice in Modern Japan*, the contributors examine these models and the ways in which they have sometimes been used to create a sense of Japaneseness that obscures the fact that Japan is actually an extremely complex and heterogeneous society. In particular, practice at the micro level of society is explored to illuminate or express a broader ideology. The contributors investigate a wide variety of subjects from attitudes to death to the role of education from film making to gender segregation to see what can be said about the phenomenon in particular, what it tells us about Japan in general and what conclusions can be drawn for our understanding of society in the broadest sense.

National Myths Gérard Bouchard, 2013-05-02. National myths are now seriously questioned in a number of societies. In the West, for instance, a number of factors have combined to destabilise the symbolic foundation of nations and collective identities. As a result, the diagnosis of a deep cultural crisis has become commonplace. Indeed, who today has not heard about the erosion of common values or the undermining of social cohesion? But to efficiently address this issue, do we know enough about the nature and role of myths in modern and postmodern societies? Against this background, *National Myths: Constructed Pasts, Contested Presents* relies on a sample of nations from around the world and seeks to highlight the functioning of national myths both as representations that make sense of a collectivity and as socially grounded tools used in a web of power relations. The collection draws together contributions from international experts to examine the present state of national myths and their fate in today's rapidly changing society. Can or must nations

do without the sort of overarching symbolic configurations that national myths provide If so how to rethink the fabrics and the future of our societies This book will appeal to students and scholars interested in sociology national identity and memory studies myths shared beliefs or collective imaginaries

Migrants and Identity in Japan and Brazil Daniela de Carvalho, 2003-08-27 Economic and social difficulties at the beginning of the 20th century caused many Japanese to emigrate to Brazil The situation was reversed in the 1980s as a result of economic downturn in Brazil and labour shortages in Japan This book examines the construction and reconstruction of the ethnic identities of people of Japanese descent firstly in the process of emigration to Brazil up to the 1980s and secondly in the process of return migration to Japan in the 1990s The closed nature of Japan s social history means that the effect of return migration can clearly be seen Japan is to some extent a unique sociological specimen owing to the absence of any tradition of receiving immigrants This book is first of all about migration but also covers the important related issues of ethnic identity and the construction of ethnic communities It addresses the issues from the dual perspective of Japan and Brazil The findings suggest that mutual contact has led neither to a state of conflict nor to one of peaceful coexistence but rather to an assertion of difference It is argued that the Nikkeijin consent strategically to the social definitions imposed upon their identities and that the issue of the Nikkeijin presence is closely related to the emerging diversity of Japanese society

Foucault's Orient Marnia Lazreg, 2017-10-01 Foucault lived in Tunisia for two years and travelled to Japan and Iran more than once Yet throughout his critical scholarship he insisted that the cultures of the Orient constitute the limit of Western rationality Using archival research supplemented by interviews with key scholars in Tunisia Japan and France this book examines the philosophical sources evolution as well as contradictions of Foucault s experience with non Western cultures Beyond tracing Foucault s journey into the world of otherness the book reveals the personal political as well as methodological effects of a radical conception of cultural difference that extolled the local over the cosmopolitan

Japan and the Enemies of Open Political Science David Williams, 2002-11 The historical experience of Japan in the period since it embarked on modernization illuminates the limitations of Western social theory

Myth Of Japanese Uniqueness Introduction

In today's digital age, the availability of Myth Of Japanese Uniqueness books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Myth Of Japanese Uniqueness books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Myth Of Japanese Uniqueness books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Myth Of Japanese Uniqueness versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Myth Of Japanese Uniqueness books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Myth Of Japanese Uniqueness books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Myth Of Japanese Uniqueness books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities

and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Myth Of Japanese Uniqueness books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Myth Of Japanese Uniqueness books and manuals for download and embark on your journey of knowledge?
